Nicholas Yapp

Around the World in 100 Days Gary L. Blackwood,2010 When seventeen-year-old Harry Fogg undertakes a race against time to win a wager with a member of his famous father's club, he puts to good use the recklessness and fascination with all things mechanical that have caused him trouble in Victorian England.

Around the World in Eighty Days Jules Verne,2022-11-15 Jules Verne's most-acclaimed novel remains a cultural cornerstone to this day. The story of Phileas Fogg's spectacular journey by then-novel technologies is a fast-paced, colorful, and thoroughly enjoyable portrait of the British empire at the height of its power. Originally published as a serial so believable that readers at the time placed bets on whether Fogg would succeed or not, Verne's adventure epic continues to inspire travelers and adventurers to this day.

Around The World In Eighty Days Michael Palin,2010-05-27 'The pace of this kind of travel has not much changed since Fogg set out in 1872. Trains may be a little faster, but there are certainly no high-speed rail links yet across India, China or the USA. Passenger services have practically disappeared from the world's shipping lanes ... Recourse to air travel, even as a convenient means of escape, was not allowed.' Following the route taken by Phileas Fogg 115 years earlier, Michael Palin set out from the Reform Club to circumnavigate the world. The rules were simple, but nothing else about the trip was straightforward... From a tour of Venice on a rubbish barge to ship spotting at the Suez Canal and the bicycle rush hour and snake snacks in China, this is an unparalleled tribute to man's ability to make life difficult for himself.

100 Days in Photographs Nicholas Yapp,2007 One hundred days have been identified by Getty and National Geographic to represent defining moments of the past 150 years. These moments are crystallised in images that leap from the page revealing joy, anger, despairs and triumph. An insightful text by photography historian Nick Yapp supports these images, which are accompanied by journals, excerpts and 'on-site' notes that offer the backstory of the image and how it was captured. Major events that have shaped our era captured in the book include, from the Getty historic archive, the 1848-9 revolution and riots in Europe; President Lincoln's assassination in 1865; the construction of the Eiffel Tower in 1889; the Potemkin Mutiny (1905) that launched the Russians Revolution; the Easter Rising in Dublin in 1916; the Wall Street crash of 1929; Kristallnacht in Germany in 1938; the British leaving India in 1947; through to the dawn of the new millennium in 2000. The National Geographic archives are used to illustrate cultural geography, the changes in landscape, contemporary

conflicts, Native America, and the civil rights movement among others, including the 1906 San Francisco earthquake, Scott and Amundsen reaching the South Pole in 1911; the Lascaux cave paintings discovered in 1940; the first heart transplant in 1967; the Chernobyl disaster of 1986; the cloning of sheep in 1997; the Twin Towers attack of 2001; and the global warming debate of 2007. The wonder of this book is in illustrating how an entire event or age can be captured in a single image - whether it be of a peasant's tears, two heads of state sharing a secret, or the triumph of an Olympic champion. Politics, war, crime, exploration, fashion and fads all make up these one hundred days: From the California Gold Rush of 1849 to the finished structure of the Three Gorges Dam in 2006.

Around the World in 80 Days Jules Verne, 2016-10-10 Phileas Fogg of London and his newly employed French valet Passepartout attempt to circumnavigate the world in 80 days on a \$20,000 wager set by his friends at the Reform Club.

Around the World in 80 Days Mark Beaumont, 2018-07-26 The inspiring story of one man's record-breaking cycle around the world. On Monday 18th September 2017, Mark Beaumont pedalled through the Arc de Triomphe in Paris. 78 days, 14 hours and 40 minutes earlier he set off from the same point, beginning his attempt to circumnavigate the world in record time. Covering more than 18,000 miles and cycling through some of the harshest conditions one man and his bicycle can endure, Mark made history. He smashed two Guinness World Records and beat the previous record by an astonishing 45 days. Around the World in 80 Days is the story of Mark's amazing achievement - one which redefines the limits of human

endurance. It is also an insight into the mind of an elite athlete and the physical limits of the human body, as well as a kaleidoscopic tour of the world from a very unique perspective; inspired by Jules Verne's classic adventure novel, Mark begins his journey in Paris and cycles through Europe, Russia, Mongolia and China. He then crosses Australia, rides up through New Zealand and across North America before the final 'sprint finish' thorough Portugal, Spain and France, all at over 200 miles a day. This is the story of a quite remarkable adventure, by a quite remarkable man.

One Hundred Years of Solitude Gabriel Garcia Marquez,2014-03-06 ONE OF THE WORLD'S MOST FAMOUS BOOKS AND WINNER OF THE NOBEL PRIZE FOR LITERATURE _____ 'Many years later, as he faced the firing squad, Colonel Aureliano Buendía was to remember that distant afternoon when his father took him to discover ice' Gabriel García Márquez's great masterpiece is the story of seven generations of the Buendía family and of Macondo, the town they built. Though little more than a settlement surrounded by mountains, Macondo has its wars and disasters, even its wonders and its miracles. A microcosm of Columbian life, its secrets lie hidden, encoded in a book, and only Aureliano Buendía can fathom its mysteries and reveal its shrouded destiny. Blending political reality with magic realism, fantasy and comic invention, *One Hundred Years of Solitude* is one of the most daringly original works of the twentieth century.

_____ 'Should be required reading for the entire human race' The New York Times 'The book that sort of saved my life' Emma Thompson 'No lover of fiction can fail to respond to the grace of Márquez's writing' Sunday Telegraph

100 Days of Sunlight Abbie Emmons, 2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's obnoxious optimism, convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest

decision of his life: vanish from Tessa's world...or overcome his fear of being seen. *100 Days of Sunlight* is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

The Last 100 Days John Toland,2003-05-27 A dramatic countdown of the final months of World War II in Europe, *The Last 100 Days* brings to life the waning power and the ultimate submission of the Third Reich. To reconstruct the tumultuous hundred days between Yalta and the fall of Berlin, John Toland traveled more than 100,000 miles in twenty-one countries and interviewed more than six hundred people—from Hitler’s personal chauffeur to Generals von Manteuffel, Wenck, and Heinrici; from underground leaders to diplomats; from top Allied field commanders to brave young GIs. Toland adeptly weaves together these interviews using research from thousands of primary sources. When it was first published, *The Last 100 Days* made history, revealing after-action reports, staff journals, and top-secret messages and personal documents previously unavailable to historians. Since that time, it has come to be regarded as one of the greatest historical narratives of the twentieth century.

Around the World in 80 Days Illustrated Jules Verne,2021-03-13 *Around the World in Eighty Days* (French: *Le tour du monde en quatre-vingts jours*) is a classic adventure novel by the French writer Jules Verne, published in 1873. In the story, Phileas Fogg of London and his newly employed French valet Passepartout attempt to circumnavigate the world in 80 days on a £20,000 wager (roughly £1.6 million today) set by his friends at the Reform Club. It is one of Verne's most acclaimed

works. The story starts in London on Tuesday, October 1, 1872. Fogg is a rich English gentleman living in solitude. Despite his wealth, Fogg lives a modest life with habits carried out with mathematical precision. Very little can be said about his social life other than that he is a member of the Reform Club. Having dismissed his former valet, James Foster, for bringing him shaving water at 84 °F (29 °C) instead of 86 °F (30 °C), Fogg hires a Frenchman by the name of Jean Passepartout as a replacement. At the Reform Club, Fogg gets involved in an argument over an article in The Daily Telegraph stating that with the opening of a new railway section in India, it is now possible to travel around the world in 80 days. He accepts a wager for £20,000 (equal to about £1.6 million today) from his fellow club members, which he will receive if he makes it around the world in 80 days. Accompanied by Passepartout, he leaves London by train at 8:45 P.M. on Wednesday, October 2, 1872, and is due back at the Reform Club at the same time 80 days later, Saturday, December 21, 1872.
