The Uses of Enchantment Bruno Bettelheim,2010-05-11 Winner of the National Book Award and National Book Critics

Circle Award A charming book about enchantment, a profound book about fairy tales.—John Updike, The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to “The Three Little Pigs,” “Hansel and Gretel,” and “The Sleeping Beauty,” Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one’s life.

Scales César Vallejo,2017-09-05 First published in 1923, just before César Vallejo left Peru for France, Scales combines prose poems with short stories in a collection that exhibits all the exuberance of the author's early experimentalism. A follow-

up to Vallejo's better-known work, *Trilce*, this radical collection shattered many aesthetic notions prevailing in Latin America and Europe. Intermingling romantic, symbolist, and avant-garde traditions, *Scales* is a poetic upending of prose narrative that blends Vallejo's intercontinental literary awareness with his commitment to political transformation. Written in part from Trujillo Central Jail, where Vallejo would endure some of the most terrifying moments of his life, *Scales* is also a testament of anguish and desperation, a series of meditations on justice and freedom, an exploration of the fantastic, and a confrontation with the threat of madness. Edited and translated from the Castilian by the scholar Joseph Mulligan, this first complete English translation, published here in bilingual format and accompanied by extensive archival documentation related to Vallejo's incarceration, this volume gives unprecedented access to one of the most inventive practitioners of Latin American literature in the twentieth century.

The poor girl however was not willing to marry her own father so she sought advice from her fairy godmother. La Bella Durmiente a través de la historia Carolina Fernández Rodríguez,1998 Con la experiencia de haber trabajado sobre las re/escrituras de dos cuentos de hadas, la autora selecciona La Bella Durmiente para desarrollar una nueva investigación. Los motivos principales son varios. En primer lugar, el hecho de que se existiese una cantidad ingente de obras de toda índole en las que aparecía como intertexto; de hecho, ha encontrado más revisiones de este cuento que de ningún otro. En segundo lugar, el propio título. De todos los relatos maravillosos, este es con seguridad el que más claramente transmite un mensaje patriarcal al público lector. Lo hace, de hecho, desde el título mismo y empleando únicamente dos palabras: bella y durmiente, adjetivos ambos con los que se expresa lo que ha de ser, en esencia, la hija del patriarcado.
