Cyberbible & Grounded Alana Valentine, 2013 Multi-award winning playwright Alana Valentine brings us two plays that deal head-on with teenage issues fraught with difficulty -- bullying, belonging, isolation, identity. *Cyberbible* is a candid, moving and sometimes shocking glimpse into the on-line world of today's teen generation. Based on interviews conducted by students -- from PLC Sydney -- with teachers, parents and their fellow students, the play is a verbatim-based drama which speaks from and to the hearts of Australia's young adults. Sometimes frightening, more often courageously funny, *Cyberbible* is a play for any parent who is worried about their child's relationship to the on-line community or any young person who wants to understand how to survive the bullying that technology can uniquely unleash. Set against the backdrop of one of the most intriguing events in Newcastle's recent history -- the grounding of the Pasha Bulka -- *Grounded* is a coming-of-age tale centred around Farrah, a young Novocastrian with a fascination for Newcastle's industrial port, a fascination none of her peers share or comprehend. Through her obsession, the play explores universal themes of isolation, belonging and identity and that time in your life when the obsessions of childhood, get grounded in reality.

Early Architects of the Hunter Region Les Reedman, 2009 Connects the development of the Hunter Valley with the architects living and practising in the region. It outlines the early settlement and growth of the valley in which the architectural profession gradually responded to the challenges and opportunities in some isolation, away from Sydney town.

Piracy and Maritime Crime: Historical and Modern Case Studies Bruce A. Ellerman, Andrew Forbes, David Rosenberg, 2011

Windows on Meteorology Eric K. Webb, 1997 *Windows on Meteorology: Australian Perspective* answers a host of questions about Australia's weather and climate, and explains the underlying causes of floods, droughts and cyclones. Vivid accounts of dust storms and the mysteries of the 'morning glory' cloud lines are revealed. The book highlights the perception in Aboriginal culture of the connection between seasons and natural cycles, through aspects of Aboriginal mythology and language, and contains a unique Aboriginal seasonal calendar. The influence of climate on Australia's wildlife is illustrated with fascinating accounts of the evolution of burrowing frogs, shrimps and desert kangaroos. A history of Australian

meteorology from early European settlement onwards, covers subjects such as a nineteenth century view of the links between climate and health, the development of instruments, cloud physics research and the Southern Oscillation connection. The final chapters bring the reader up to date with the most recent technical developments in research and applications such as satellite remote sensing, radar and fast response instruments.

Historic Storms of the North Sea, British Isles and Northwest Europe Hubert Lamb, Knud Frydendahl, 1991-06-13 This is a historical study of great wind storms over the last 500-600 years, with meteorological maps and wind measurements.

Corotating Interaction Regions A. Balogh, J.T. Gosling, J.R. Jokipii, R. Kallenbach, H. Kunow, 2013-06-29 A Corotating Interaction Region (CIR) is the result of the interaction of fast solar wind with slower solar wind ahead. CIRs have a very large three-dimensional extent and are the dominant large-scale structure in the heliosphere on the declining and minimum phase of the solar activity cycle. Until recently, however, CIRs could only be observed close to the ecliptic plane, and their three-dimensional structure was therefore not obvious to observers and theoreticians alike. Ulysses was the first spacecraft allowing direct exploration of the third dimension of the heliosphere. Since 1992, when it has entered a polar orbit that takes it 0 up to 80 latitude, the spacecraft's performance has been flawless and the mission has provided excellent data from a superbly matched set of instruments. Perhaps the most exciting observation during Ulysses' first passage towards the south pole of the Sun was a strong and long lasting CIR whose energetic particle effects were observed up to unexpectedly high latitudes. These observations, documented in a number of publications, stimulated considerable new theoretical work.

Climate Change in Australia Commonwealth Scientific and Industrial Research Organization (Australia), Karen Pearce, Paul N. Holper, Mandy Hopkins, Willem J. Bouma, P. H. Whetton, Kevin John Hennessy, Scott B. Power, Australian Climate Change Science Program, 2007 An assessment of climate change in Australia, including projections of Australia's future climate.

The Weather and Climate of Australia and New Zealand Andrew P. Sturman, Nigel J. Tapper, 2006 Comprehensively revised and updated in its second edition, *The Weather and Climate of Australia and New Zealand* provides an introduction to the basic concepts underlying the science of the atmosphere from a Southern Hemisphere perspective, and establishes the global setting within which the weather and climate of Australia and New Zealand operate. Only book with a Southern Hemisphere focus that is suitable for meteorology and climatology students in Australia and New Zealand Incorporates new material published in international literature since the publication of the first edition Caters specifically for students who are just developing an interest in the subject, as well as for those undertaking research that requires a good basic understanding of atmospheric processes and their operation in this region Explains the weather systems responsible for day to day variability experienced across the area, including tropical and mid-latitude phenomena, and approaches to weather forecasting Examines climate change and variability in depth, including a summary of evidence of past climates, as well as

discussion of more recent and possible future climate changes Includes an extensive glossary to assist the new reader with terminology specific to meteorology and climatology Contains useful chapter-by-chapter further reading sections
