*Federal Aviation Regulations Study Guide for the Private Pilot* Elite Aviation Solutions,2013-05-07 Every year thousands of private pilots buy a FAR/AIM with the intention of studying the regulations. My estimate is that the average pilot spends less than 20 hours a year using the FAR/AIM manual to increase their knowledge. Pilots have good intentions of studying, but the lack of use is mainly due to the poor study format of the FAR/AIM. The end result is that pilots understand only a small number of regulations. This study guide is going to change that! The Federal Aviation Regulations Study Guide for the Private Pilot is presented in a very study-friendly format. Our professional pilot staff reviewed all of the FARs and selected the regulations that apply to private pilots. Those regulations were then formatted into a study guide format with questions, answers and additional information. Whether you are preparing for your private pilot check ride, a biennial flight review, or a general review, this book will help you prepare much more efficiently and retain more information.
