Enseñar en la universidad José Ignacio Aguaded Gómez, María del Carmen Fonseca Mora, 2007 Este texto aspira a servir como recurso e instrumento de apoyo para los profesores/as universitarios que deseen reflexionar sobre su docencia e innovar y mejorar los procesos de enseñanza-aprendizaje en las aulas universitarias. Los profundos cambios que está suponiendo la paulatina incorporación de la Universidad española al Espacio Europeo de Educación Superior demandan nuevas habilidades y conocimientos en los docentes universitarios para el fomento de contextos formativos donde necesariamente ha de primar la innovación, la excelencia y la adaptación al cambiante entorno social. En esta línea, este manual integra experiencias didácticas diversas y conocimiento especializado de expertos y profesionales de las distintas ramas del saber científico. La obra comienza con un marco teórico en el que se definen las claves para los cambios metodológicos y la innovación en la universidad partiendo del necesario protagonismo de los estudiantes para adquirir competencias profesionales. Las experiencias de innovación que contiene este libro se apoyan en el aprendizaje autónomo que otorga al docente el papel de guía para que el alumnado haga el uso adecuado de las fuentes de conocimiento. Otras claves lo son, por citar algunas, el aprendizaje cooperativo, la evaluación continua desde la tutoría y tutorización individualizada; la docencia de asignaturas en lengua inglesa para facilitar la movilidad del alumnado, el uso de las TIC o la creación de materiales interactivos que motiven al alumnado.

Peronism as a Big Tent Raanan Rein, Ariel Noyjovich, 2022-02-15 Argentina's populist movement, led by Juan Perón, welcomed people from a broad range of cultural backgrounds to join its ranks. Unlike most populist movements in Europe and North America, Peronism had an inclusive nature, rejecting racism and xenophobia. In Peronism as a Big Tent Raanan Rein and Ariel Noyjovich examine Peronism's attempts at garnering the support of Argentines of Middle Eastern origins - be they Jewish, Maronite, Orthodox Catholic, Druze, or Muslim - in both Buenos Aires and the interior provinces. By following the process that started with Perón's administration in the mid-1940s and culminated with the 1989 election of President Carlos Menem, of Syrian parentage, Rein and Noyjovich paint a nuanced picture of Argentina's journey from failed attempts to build a mosque in Buenos Aires in 1950 to the inauguration of the King Fahd Islamic Cultural Center in the nation's capital

in the year 2000. Peronism as a Big Tent reflects on Perón's own evolution from perceiving Argentina as a Catholic country with little room for those outside the faith to embracing a vision of a society that was multicultural and that welcomed and celebrated religious plurality. The legacy of this spirit of inclusiveness can still be felt today.

Mesoamerican Plazas Kenichiro Tsukamoto, Takeshi Inomata, 2014-04-10 This is the first book to examine the roles of plazas in ancient Mesoamerica. It argues persuasively that physical interactions among people in communal events were not the outcomes of political machinations held behind the scenes, but were the actual political processes through which people created, negotiated, and subverted social realities--

Doctrinal de antropología Nicolás Salmerón y Alonso, Antonio Heredia Soriano, 2009 En 1868, impulsado por el krausismo, se introdujo en el Bachillerato español una nueva asignatura, la Antropología. Nicolás Salmerón que no fue ajeno a la novedad, comenzó a escribir un texto para ella sobre la base de las explicaciones de clase que él mismo impartía en su Colegio Internacional. Ese texto dio lugar al libro que nos ocupa que, aunque inédito e incompleto, permite ofrecer una visión filosófica más completa de su etapa juvenil. Su mérito estriba en haber articulado en disciplina una de las materias clave de la filosofía krausista y ofrecer una idea global e integradora de lo que con el tiempo se llamaría Antropología filosófica.

Women's Entrepreneurship and Economics Miguel-Angel Galindo, Domingo Ribeiro, 2011-11-25 Over the past

century, an extensive literature has developed, exploring the impact of entrepreneurship on economic performance. The active participation of entrepreneurs in virtually all aspects of business and economic activity has obliged policy makers within the global economy to consider entrepreneurship as a determining variable in any political force, not only for bodies and groups created specifically to this end, but also for any decision-making body. To this end, specific actions promoting entrepreneurship have already been established around the world. However, the particular dynamics of entrepreneurship by women present unique opportunities and challenges. The women's perspective has often been overlooked in research, practice, and policymaking, and yet yields rich insights and implications. This volume features research from an international array of authors, global data, and in-depth analysis of women's entrepreneurial activity in Europe, Latin America, the United States, and Canada, to shed light on the positive impact of women's entrepreneurship on economic growth and development. The first part covers a broad range of concepts relating to the history and context of the female economic perspective. The second part focuses on performance and success factors, with respect to such issues as innovation, social needs, and entrepreneurial orientation. The third part addresses issues of financing, including discussion of access to capital, microcredit, and entrepreneurial behavior. The fourth part considers additional topics, such as work-family balance and access to education. Together, the chapters offer new perspectives on the unique characteristics of women entrepreneurs and their contributions to economic development in theory, practice, and policymaking.
