American Remakes of British Television Carlen Lavigne, Heather Marcovitch, 2011-03-31 Ever since Norman Lear remade the BBC series *Till Death Us Do Part* into *All in the Family*, American remakes of British television shows have become part of the American cultural fabric. Indeed, some of the programs currently said to exemplify American tastes and attitudes, from reality programs like *American Idol* and *What Not to Wear* to the mock-documentary approach of *The Office*, are adaptations of successful British shows. Carlen Lavigne and Heather Marcovitch's *American Remakes of British Television: Transformations and Mistranslations* is a multidisciplinary collection of essays that focuses on questions raised when a foreign show is adapted for the American market. What does it mean to remake a television program? What does the process of 'Americanization' entail? What might the success or failure of a remade series tell us about the differences between American and British producers and audiences? This volume examines British-to-American television remakes from 1971 to the present. The American remakes in this volume do not share a common genre, format, or even level of critical or popular acclaim. What these programs do have in common, however, is the sense that something in the original has been significantly changed in order to make the program appealing or accessible to American audiences. The contributors display a multitude of perspectives in their essays. British-to-American television remakes as a whole are explained in terms of the market forces and international trade that make these productions financially desirable. *Sanford and Son* is examined in terms of race and class issues. Essays on *Life on Mars* and *Doctor Who* stress television's role in shaping collective cultural memories. An essay

on *Queer as Folk* explores the romance genre and also talks about differences in national sexual politics. An examination of *The Office* discusses how the American remake actually endorses the bureaucracy that the British original satirizes; alternatively, another approach breaks down *The Office*'s bumbling boss figures in terms of contemporary psychological theory. An essay on *What Not to Wear* discusses how a reality show about everyday fashion conceals the construction of an ideal national subject; a second essay explains the show in terms of each country's discourses surrounding femininity. The success of *American Idol* is explained by analyzing the role of amateur music in American culture. The issue of translation itself is interrogated by examining specific episodes of *Cracker*, and also by asking why a successful series in the U.K., *Blackpool*, was a dismal failure as an American remake. This collection provides a rich and multifaceted overview of approaches to international television studies.

Also included are surveys of major controversies and chronicles of resistance. *Censorship* will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression.

Contemporary British Television Crime Drama Ruth McElroy,2016-10-14 Contemporary British Television Crime Drama examines one of the medium's most popular genres and places it within its historical and industrial context. The television crime drama has proved itself capable of numerous generic reinventions and continues to enjoy some of the highest viewing figures. Crime drama offers audiences stories of right and wrong, moral authority asserted and resisted, and professionals and criminals, doing so in ways that are often highly entertaining, innovative, and thought provoking. In examining the appeal of this highly dynamic genre, this volume explores how it responds not only to changing social debates on crime and policing, but also to processes of hybridization within the television industry itself. Contributors, many of whom are leading figures in UK television studies, analyse popular series such as Broadchurch, Between the Lines, Foyle's War, Poirot, Prime Suspect, Sherlock and Wallander. Essays examine the main characteristics of television crime drama production, including the nature of trans-Atlantic franchises and literary and transnational adaptations. Adopting a range of feminist, historical, aesthetic and industrial approaches, they offer incisive interrogations that provide readers with a rich understanding of the allure of crime drama to both viewers and commissioners.

Transnational Television Remakes Claire Perkins, Constantine Verevis, 2018-02-02 Providing a cross-cultural investigation of the current phenomenon of transnational television remakes, and assembling an international team of scholars, this book draws upon ideas from transnational media and cultural studies to offer an understanding of global cultural borrowings and format translation. While recognising the commercial logic of global television formats that animates these remakes, the collection describes the traffic in transnational television remakes not as a one-way process of cultural homogenisation, but rather as an interstitial process through which cultures borrow from and interact with one another. More specifically, the chapters attend to recent debates around the transnational flows of local and global media cultures to focus on questions in the televisual realm, where issues of serialisation and distribution are prevalent. What happens when a series is remade from one national television system to another? How is cultural translation handled across series and seasons of differing length and scope? What are the narrative and dramaturgical proximities and differences between local and other versions? How does the ready availability of original, foreign series shape an audience's reception of a local remake? How does the rhetoric of 'Quality TV' impact on how these remakes are understood and valued? In answering these and other questions, this volume at once acknowledges both the historical antecedents to transnational trade in broadcast culture, and the global explosion in, and cultural significance of, transnational television remakes since the beginning of the twenty-first century. This book was originally published as a special issue of *Continuum*.

Adaptable TV Yvonne Griggs, 2018-07-25 This book focuses on the significantly under-explored relationship between televisual culture and adaptation studies in what is now commonly regarded as the 'Golden Age' of contemporary TV drama. *Adaptable TV: Rewiring the Text* does not simply concentrate on traditional types of adaptation, such as reboots, remakes and sequels, but broadens the scope of enquiry to examine a diverse range of experimental adaptive types that are emerging within an ever-changing TV landscape. With a particular focus on the serial narrative form, and with case studies that include *Penny Dreadful*, *Fargo*, *The Night Of* and *Orange Is the New Black*, this study is essential reading for anyone who is interested in the complex interplay between television studies and adaptation studies.

Introduction to Idris Elba Gilad James, PhD,

Reading 'CSI' Michael Allen,2007-08-20 This is what we know, this is the truth: CSI is a global television phenomenon. It began in 2000 with CSI: Crime Scene Investigation, a dark procedural drama about forensic science set within the neon escapism of Las Vegas, in which Grissom and his team search within the very vitals of the murder victims they investigate. Nearly 17 million viewers tuned in each week and CSI: Crime Scene Investigation fast became America's number one show. The success of the series moved it into franchise territory, continuing in 2002 with the body beautifuls and dismembereds of CSI: Miami (now the world's biggest television show) and again in 2004 extending the franchise to the melancholic noir of post-9/11 New York with CSI: NY. Reading 'CSI' pieces together the evidence in order to understand what the CSI shows mean to contemporary television culture, both in America and beyond. The varied, intellectually curious and often polemic responses to CSI from critics, journalists and industry professionals focus on a range of issues from the pornographic quality of the CGI effects, the relationship of characters to their narratives, and the reaction of the fans, to the semiotics of Horatio Caine's sunglasses. This in depth, compulsive read also includes a full episode guide.

European Television Crime Drama and Beyond Kim Toft Hansen,Steven Peacock,Sue Turnbull,2018-12-05 This book is the first to focus on the role of European television crime drama on the international market. As a genre, the television crime drama has enjoyed a long and successful career, routinely serving as a prism from which to observe the local, national and even transnational issues that are prevalent in society. This extensive volume explores a wide range of countries, from the US to European countries such as Spain, Italy, the Scandinavian countries, Germany, England and Wales, in order to reveal the very currencies that are at work in the global production and circulation of the TV crime drama. The chapters, all written by leading television and crime fiction scholars, provide readings of crime dramas such as the Swedish-Danish *The Bridge*, the Welsh *Hinterland*, the Spanish *Under Suspicion*, the Italian *Gomorra*, the German *Tatort* and the Turkish *Cinayet*. By examining both European texts and the 'European-ness' of various international dramas, this book ultimately demonstrates that transnationalism is at the very core of TV crime drama in Europe and beyond.
