Elias Portolu Grazia Deledda, 1995 Winner of the 1926 Nobel Prize for Literature After serving time in mainland Italy for a minor theft, Elias Portolu returns home to Nuoro, in rural Sardinia. Lonely and vulnerable after his prison exile, he falls in love with his brother's fiancée. But he finds himself trapped by social and religious strictures, his passion and guilt winding into a spiral of anguish and paralyzing indecision. For guidance he turns first to the village priest, who advises him to resist temptation; then he turns to the pagan father of the woods, who recognizes the weakness of human will and urges him to declare his love before it is too late.

Goddesses for Every Day Julie Loar, 2011 Throughout time, people have turned to goddesses as symbols of what they seek

-- from abundance to healing, from protection to passion. Building on the resurgence of interest in the Divine Feminine, Julie Loar presents the qualities and origins of an international array of these deities, along with powerful suggestions for putting their attributes to practical use. In a daily-reflection format, she gracefully aligns the goddesses with the cycles of nature and the signs of the zodiac. If you are struggling to attain a goal, call on the Nepalese goddess Chomolungma, as the sherpas climbing Mount Everest have done for generations. Or, for good luck, invoke the Roman goddess Fortuna, the inspiration behind gambling's wheel of fortune. With 366 goddesses to choose from, you will find a deity to call upon for every aspiration and need.

**Silvae** Angelo Poliziano, 2004-07-30 Angelo Poliziano (1454-1494) was one of the great scholar-poets of the Renaissance and a leading figure in the circle of Lorenzo de' Medici, "il Magnifico," in Florence. His "Silvae" are poetical introductions to his courses in literature at the University of Florence, written in Latin hexameters. They not only contain some of the finest Latin poetry of the Renaissance, but also afford unique insight into the poetical credo of a brilliant scholar as he considers the works of his Greek and Latin predecessors as well as of his contemporaries writing in Italian.

The Homeric Hymns Andrew Faulkner, 2011-06-30 This is the first collection of scholarly essays on the Homeric Hymns, a corpus of 33 hexameter poems celebrating gods that were probably recited at religious festivals, among other possible performance venues, and were frequently attributed in antiquity to Homer. After a general introduction to modern scholarship on the Homeric Hymns, the essays of the first part of the book examine in detail aspects of the longer narrative poems in the collection, while those of the second part give critical attention to the shorter poems and to the collection as a whole. The contributors to the volume present a wide range of stimulating views on the study of the Homeric Hymns, which have attracted much interest in recent years.

**The Craft of Poetic Speech in Ancient Greece** Claude Calame, 1995 In this subtle, learned, and daring book, Claude Calame challenges his readers to rethink the very principles of mythmaking in the poetry and art of the ancient Greeks. The first of Calame's books to appear in English translation, *The Craft of Poetic Speech in Ancient Greece* subverts common assumptions about the relationships between poet and audience, poet and muse, and poet and mask. Taking as his point of departure the linguistic writings of Emile Benveniste, Calame utilizes the methodology of semiotics in formulating a new way of looking at the poetics of Homer, Hesiod, lyric, tragedy, and even history. He confronts such important questions as the relationship between authorship and authority, the role of the first person in choral lyric poetry, the dichotomy between lyric and epic genres, the literariness of history, the tragic mask as a projection of identity, and the poetics of the gaze in iconographic traditions --
