*Care Technologies for Ageing Societies* Kate Hamblin, Matthew Lariviere, 2023-05-16 EPDF and EPUB available Open Access under CC-BY-NC-ND licence. Technology is quickly becoming an integral part of care systems across the world and is frequently cited in policy discourse as pivotal for solving the 'crisis' in care and delivering positive outcomes. Exploring the role of technology in Europe, Canada, Australia and Japan, this book examines how technology contributes effectively to the sustainability of these different care systems, which are facing similar emergent pressures, including increased longevity, falling fertility and the consequences of the COVID-19 pandemic. It considers the challenges and opportunities of embedding technologies in care systems and the subsequent outcomes for older and disabled service users, carers and the care workforce.

Dairy Production and Processing John R. Campbell,Robert T. Marshall,2016-01-29 A productive dairy industry is vital to providing safe, high-quality milk that fulfills the nutritional needs of people of all ages around the world. In order to achieve that goal, Campbell and Marshall present a timely, lucid, and comprehensive look at today's dairy industry. Dairy Production and Processing offers not only a fundamental understanding of dairy animals, dairy products, and the production aspects of each, but also a wealth of applied information on the scope of the current milk and milk products industry. The application of basic sciences and technologies throughout the text will serve students well not only as they learn the first principles of dairy science, but also as a professional reference in their careers. Study questions can be found at the conclusion of each chapter, along with relevant and informative websites. An extensive glossary is provided to enable readers to expand their knowledge of selected terms. Topics found in this instructive and insightful text include: • an overview of the dairy industry, • dairy herd breeding and records, • the feeding and care of dairy cattle, sheep, goats, and water buffalo, • important principles of milking and milking facilities, • dairy farm management, • milk quality and safety, and • the production of milk and milk products.
