Fred R. David

Administración: de la teoría a la acción ,

¡Planificando Estratégicamente! Ph. D. José Víctor Delgado,2015-07-09 El propósito del presente libro, representado por la Triqueta Celta es presentar a la comunidad gerencial, profesional, empresarial, académica y estudiantil la trilogía gerencial mostrando la necesaria interacción de los tres componentes cuya sinergia es fundamental en el manejo y administración de una organización y en la implementación de un Plan Estratégico, a saber: La Planificación Estratégica (P.E.); La Estimación del Presupuesto Operativa Anual (P.O.A.) y La Planificación Financiera. Sin embargo, el aspecto medular del libro es desmenuzar la implementación y puesta en práctica de la P. E. Paso a Paso, proponiendo un modelo que logre incorporar y mejorar lo propuesto, hasta el presente, por el Estado del Arte que ha dejado muchos aspectos sin aclarar o confusos.

Handbook of Research on Emerging Business Models and the New World Economic Order Saiz-Alvarez, Jose Manuel,2021-10-15 The COVID-19 pandemic is causing a radical change in both the economic and business paradigms that have ruled countries for decades. Emerging models are leading to a new world economic order predictably led by China and the United States. New forms of organization, new ways of working remotely, the strengthening of some industries to the detriment of others, and the supremacy of technology to be able to work are going to change the economies as we know them today. The Handbook of Research on Emerging Business Models and the New World Economic Order offers strategies, economic policies, social, economic, and political trends that will affect organizations to increase their efficiency and labor productivity and change the world's business and financial structures. This book forecasts future business changes and prospective models, structural or not, for guiding the survival of small and medium enterprises (SMEs), multinationals, family firms, entrepreneurs, and NGOs in the post-COVID-19 era. Covering topics such as business model creation, global sustainable logistics 4.0, and social and solidarity economy, this text is essential for economists, entrepreneurs, managers, executives, family firms, SMEs, business professionals, policymakers, students, researchers, practitioners, and academicians.

Social and Sustainability Marketing Jishnu Bhattacharyya, Manoj Kumar Dash, Chandana Hewege, M.S. Balaji, Weng Marc Lim, 2021-09-26 ... an important intervention in the conversation around social and ecological sustainability that draws on both micromarketing and macromarketing scholarship to help the reader understand the challenges with illustrations

from insightful cases both from emerging and developed economies. This compilation should be essential reading for the discerning student of sustainable consumption and production. -- Professor Pierre McDonagh, Associate Editor, Journal of Macromarketing (USA); Professor of Critical Marketing & Society, University of Bath, UK Experts in the field of economics, management science, and particularly in the marketing domain have always been interested in and acknowledged the importance of sustaining profitable businesses while incorporating societal and environmental concerns; however, the level of existing literature and availability of teaching cases reflect a dearth of real case studies, especially those focused on marketing for social good. This book of actual case studies will address that need. In addition, this book is important and timely in providing a case book for instructors (those in both industry and academia) to help them in teaching and training the next generation of leaders through corporate training and universities. Currently, marketing for social good is increasingly becoming a part of most curriculums under the umbrella of different titles, such as social marketing, green marketing, and sustainability marketing. The relevance of these studies is increasing across the globe. This book is composed of long and short real cases with varying complexity in different sectors. This case book will also cover some review articles for an overview of the recent developments in the study area. With these case studies, collections of questions, teaching materials, and real-life marketing scenarios, this book offers a unique source of knowledge to marketing professionals, students, and educators across the world. The main objective of this case book is to understand the applicability of marketing science (marketing for social good context, such as social marketing and sustainability marketing) in internet marketing related to e-buying behavior and e-WOM. In addition, it illustrates the various types of existing marketing practices that are relevant from both theoretical and practical points of view in this electronic era, as well as discussing other non-electronic marketing practices and focusing on consumer buying behavior. As a result, marketing managers can treat their customers according to their desired value. This book particularly explores the possibilities and advantages created by social marketing and sustainability marketing through the presentation of thorough review articles and case studies. This case book helps corporate training centers and universities with compact teaching reference materials in their relevant courses.
