The Racial Order Mustafa Emirbayer,Matthew Desmond,2015-08-04 Proceeding from the bold and provocative claim that there never has been a comprehensive and systematic theory of race, Mustafa Emirbayer and Matthew Desmond set out to reformulate how we think about this most difficult of topics in American life. In *The Racial Order*, they draw on Bourdieu, Durkheim, and Dewey to present a new theoretical framework for race scholarship. Animated by a deep and reflexive intelligence, the book engages the large and important issues of social theory today and, along the way, offers piercing insights into how race actually works in America. Emirbayer and Desmond set out to examine how the racial order is structured, how it is reproduced and sometimes transformed, and how it penetrates into the innermost reaches of our racialized selves. They also consider how—and toward what end—the racial order might be reconstructed. In the end, this project is not merely about race; it is a theoretical reconsideration of the fundamental problems of order, agency, power, and social justice. *The Racial Order* is a challenging work of social theory, institutional and cultural analysis, and normative inquiry.

Race in America Matthew Desmond, Mustafa Emirbayer, 2016 A groundbreaking approach to thinking about race and racism today.

More than Just Race: Being Black and Poor in the Inner City (Issues of Our Time) William Julius Wilson, 2010-03-22 A preeminent sociologist of race explains a groundbreaking new framework for understanding racial inequality, challenging both conservative and liberal dogma. In this timely and provocative contribution to the American discourse on race, William Julius Wilson applies an exciting new analytic framework to three politically fraught social problems: the persistence of the inner-city ghetto, the plight of low-skilled black males, and the fragmentation of the African American family. Though the discussion of racial inequality is typically ideologically polarized, Wilson dares to consider both institutional and cultural factors as causes of the persistence of racial inequality. He reaches the controversial conclusion that while structural and cultural forces are inextricably linked, public policy can only change the racial status quo by reforming the institutions that reinforce it.

Constraint of Race Linda Faye Williams, 2010-11-01 The winner of the 2004 W.E.B. DuBois Book Award, NCOBPS and the 2004 Michael Harrington Award for an outstanding book that demonstrates how scholarship can be used in the struggle for a better world.

The Dream Revisited Ingrid Ellen, Justin Steil, 2019-01-15 A half century after the Fair Housing Act, despite ongoing transformations of the geography of privilege and poverty, residential segregation by race and income continues to shape urban and suburban neighborhoods in the United States. Why do people live where they do? What explains segregation’s persistence? And why is addressing segregation so complicated? *The Dream Revisited* brings together a range of expert viewpoints on the causes and consequences of the nation’s separate and unequal living patterns. Leading scholars and practitioners, including civil rights advocates, affordable housing developers, elected officials, and fair housing lawyers, discuss the nature of and policy responses to residential segregation. Essays scrutinize the factors that sustain segregation, including persistent barriers to mobility and complex neighborhood preferences, and its consequences from health to home finance and from policing to politics. They debate how actively and in what ways the government should intervene in housing markets to foster integration. The book features timely analyses of issues such as school integration, mixed income housing, and responses to gentrification from a diversity of viewpoints. A probing examination of a deeply rooted problem, *The Dream*

Revisited offers pressing insights into the changing face of urban inequality.

News for All the People: The Epic Story of Race and the American Media Juan González, Joseph Torres, 2011-10-31 A landmark narrative history of American media that puts race at the center of the story. Here is a new, sweeping narrative history of American news media that puts race at the center of the story. From the earliest colonial newspapers to the Internet age, America's racial divisions have played a central role in the creation of the country's media system, just as the media has contributed to—and every so often, combated—racial oppression. *News for All the People* reveals how racial segregation distorted the information Americans received from the mainstream media. It unearths numerous examples of how publishers and broadcasters actually fomented racial violence and discrimination through their coverage. And it chronicles the influence federal media policies exerted in such conflicts. It depicts the struggle of Black, Latino, Asian, and Native American journalists who fought to create a vibrant yet little-known alternative, democratic press, and then, beginning in the 1970s, forced open the doors of the major media companies. The writing is fast-paced, story-driven, and replete with memorable portraits of individual journalists and media executives, both famous and obscure, heroes and villains. It weaves back and forth between the corporate and government leaders who built our segregated media system—such as Herbert Hoover, whose Federal Radio Commission eagerly awarded a license to a notorious Ku Klux Klan organization in the nation's capital—and those who rebelled against that system, like Pittsburgh Courier publisher Robert L. Vann, who led a remarkable national campaign to get the black-face comedy Amos 'n' Andy off the air. Based on years of original archival research and up-to-the-minute reporting and written by two veteran journalists and leading advocates for a more inclusive and democratic media system, *News for All the People* should become the standard history of American media.

Race, Law, and American Society Gloria J. Browne-Marshall, 2013-05-02 This second edition of Gloria Browne-Marshall's seminal work, tracing the history of racial discrimination in American law from colonial times to the present, is now available with major revisions. Throughout, she advocates for freedom and equality at the center, moving from their struggle for physical freedom in the slavery era to more recent battles for equal rights and economic equality. From the colonial period to the present, this book examines education, property ownership, voting rights, criminal justice, and the military as well as internationalism and civil liberties by analyzing the key court cases that established America's racial system and demonstrating the impact of these court cases on American society. This edition also includes more on Asians, Native Americans, and Latinos. *Race, Law, and American Society* is highly accessible and thorough in its depiction of the role race has played, with the sanction of the U.S. Supreme Court, in shaping virtually every major American social institution.

Matthew Desmond's Evicted Ant Hive Media, 2016-06-06 This is a Summary of Matthew Desmond's New York Times Bestseller: *EVICTED* Poverty and Profit in the American City From Harvard sociologist and MacArthur Genius Matthew

Desmond, a landmark work of scholarship and reportage that will forever change the way we look at poverty in America. In this brilliant, heartbreaking book, Matthew Desmond takes us into the poorest neighborhoods of Milwaukee to tell the story of eight families on the edge. Arleen is a single mother trying to raise her two sons on the \$20 a month she has left after paying for their rundown apartment. Scott is a gentle nurse consumed by a heroin addiction. Lamar, a man with no legs and a neighborhood full of boys to look after, tries to work his way out of debt. Vanetta participates in a botched stickup after her hours are cut. All are spending almost everything they have on rent, and all have fallen behind. The fates of these families are in the hands of two landlords: Sherrena Tarver, a former schoolteacher turned inner-city entrepreneur, and Tobin Charney, who runs one of the worst trailer parks in Milwaukee. They loathe some of their tenants and are fond of others, but as Sherrena puts it, Love don't pay the bills. She moves to evict Arleen and her boys a few days before Christmas. Even in the most desolate areas of American cities, evictions used to be rare. But today, most poor renting families are spending more than half of their income on housing, and eviction has become ordinary, especially for single mothers. In vivid, intimate prose, Desmond provides a ground-level view of one of the most urgent issues facing America today. As we see families forced into shelters, squalid apartments, or more dangerous neighborhoods, we bear witness to the human cost of America's vast inequality—and to people's determination and intelligence in the face of hardship. Based on years of embedded fieldwork and painstakingly gathered data, this masterful book transforms our understanding of extreme poverty and economic exploitation while providing fresh ideas for solving a devastating, uniquely American problem. Its unforgettable scenes of hope and loss remind us of the centrality of home, without which nothing else is possible. Available in a variety of formats, this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 432 pages. You get the main summary along with all of the benefits and lessons the actual book has to offer. This summary is not intended to be used without reference to the original book.

Race Brokers Elizabeth Korver-Glenn, 2021 How is it that America's cities remain almost as segregated as they were fifty years ago? In *Race Brokers*, Elizabeth Korver-Glenn examines how housing market professionals—including housing developers, real estate agents, mortgage lenders, and appraisers—construct contemporary urban housing markets in ways that contribute to neighborhood inequality and racial segregation. Drawing on extensive ethnographic and interview data collected in Houston, Texas, Korver-Glenn shows how these professionals, especially those who are White, use racist tools to build a fundamentally unequal housing market and are even encouraged to apply racist ideas to market activity and interactions. Korver-Glenn further tracks how professionals broker racism across the entirety of the housing exchange process—from the home's construction, to real estate brokerage, mortgage lending, home appraisals, and the home sale closing. *Race Brokers* highlights the imperative to interrupt the racism that pervades housing market professionals' work, dismantle the racialized routines that underwrite such racism, and cultivate a truly fair housing market.

Getting Something to Eat in Jackson Joseph C. Ewoodzie, 2021-10-05 James Beard Foundation Book Award Nominee • Winner of the Ida B. Wells-Barnett Book Award, Association of Black Sociologists • Winner of the C. Wright Mills Award, the Society for the Study of Social Problems A vivid portrait of African American life in today's urban South that uses food to explore the complex interactions of race and class *Getting Something to Eat in Jackson* uses food—what people eat and how—to explore the interaction of race and class in the lives of African Americans in the contemporary urban South. Joseph Ewoodzie Jr. examines how “foodways”—food availability, choice, and consumption—vary greatly between classes of African Americans in Jackson, Mississippi, and how this reflects and shapes their very different experiences of a shared racial identity. Ewoodzie spent more than a year following a group of socioeconomically diverse African Americans—from upper-middle-class patrons of the city's fine-dining restaurants to men experiencing homelessness who must organize their days around the schedules of soup kitchens. Ewoodzie goes food shopping, cooks, and eats with a young mother living in poverty and a grandmother working two jobs. He works in a Black-owned BBQ restaurant, and he meets a man who decides to become a vegan for health reasons but who must drive across town to get tofu and quinoa. Ewoodzie also learns about how soul food is changing and why it is no longer a staple survival food. Throughout, he shows how food choices influence, and are influenced by, the racial and class identities of Black Jacksonians. By tracing these contemporary African American foodways, *Getting Something to Eat in Jackson* offers new insights into the lives of Black Southerners and helps challenge the persistent homogenization of blackness in American life.

Doing Race Hazel Rose Markus, Paula M. L. Moya, 2010 *Doing Race* focuses on race and ethnicity in everyday life: what they are, how they work, and why they matter. Going to school and work, renting an apartment or buying a house, watching television, voting, listening to music, reading books and newspapers, attending religious services, and going to the doctor are all everyday activities that are influenced by assumptions about who counts, whom to trust, whom to care about, whom to include, and why. Race and ethnicity are powerful precisely because they organize modern society and play a large role in fueling violence around the globe. *Doing Race* is targeted to undergraduates; it begins with an introductory essay and includes original essays by well-known scholars. Drawing on the latest science and scholarship, the collected essays emphasize that race and ethnicity are not things that people or groups have or are, but rather sets of actions that people do. *Doing Race* provides compelling evidence that we are not yet in a post-race world and that race and ethnicity matter for everyone. Since race and ethnicity are the products of human actions, we can do them differently. Like studying the human genome or the laws of economics, understanding race and ethnicity is a necessary part of a twenty first century education.

Making Americans Desmond King, 2000-05-15 Specifically, the debates in the three decades leading up to 1929 were conceived in terms of desirable versus undesirable immigrants. This not only cemented judgements about specific European groups but reinforced prevailing biases against groups already present in the United States, particularly African Americans,

whose inferior status and second-class citizenship - enshrined in Jim Crow laws and embedded in pseudo-scientific arguments about racial classifications - appear to have been consolidated in these decades, Although the values of different groups have always been recognised in the United States, King gives the most thorough account yet of how eugenic arguments were used to establish barriers and to favour an Anglo-Saxon conception of American identity, rejecting claims of other traditions. thus the immigration controversy emerges here as a significant precursor to recent multicultural debates.

Race in America Patricia Reid-Merritt, 2017-01-23 Focusing on the socially explosive concept of race and how it has affected human interactions, this work examines the social and scientific definitions of race, the implementation of racialized policies and practices, the historical and contemporary manifestations of the use of race in shaping social interactions within U.S. society and elsewhere, and where our notions of race will likely lead. More than a decade and a half into the 21st century, the term race remains one of the most emotionally charged words in the human language. While race can be defined as a local geographic or global human population distinguished as a more or less distinct group by genetically transmitted physical characteristics, the concept of race can better be understood as a socially defined construct—a system of human classification that carries tremendous weight, yet is complex, confusing, contradictory, controversial, and imprecise. This collection of essays focuses on the socially explosive concept of race and how it has shaped human interactions across civilization. The contributed work examines the social and scientific definitions of race, the implementation of racialized policies and practices, and the historical and contemporary manifestations of the use of race in shaping social interactions (primarily) in the United States—a nation where the concept of race is further convoluted by the nation's extensive history of miscegenation as well as the continuous flow of immigrant groups from countries whose definitions of race, ethnicity, and culture remain fluid. Readers will gain insights into subjects such as how we as individuals define ourselves through concepts of race, how race affects social privilege, color blindness as an obstacle to social change, legal perspectives on race, racialization of the religious experience, and how the media perpetuates racial stereotypes.

White Skin, Black Fuel Andreas Malm, The Zetkin Collective, 2021-05-18 Rising temperatures and the rise of the far right. What disasters happen when they meet? In the first study of the far right's role in the climate crisis, *White Skin, Black Fuel* presents an eye-opening sweep of a novel political constellation, revealing its deep historical roots. Fossil-fuelled technologies were born steeped in racism. No one loved them more passionately than the classical fascists. Now right-wing forces have risen to the surface, some professing to have the solution—closing borders to save the nation as the climate breaks down. Epic and riveting, *White Skin, Black Fuel* traces a future of political fronts that can only heat up.

Black in White Space Elijah Anderson, 2022-01-05 From the vital voice of Elijah Anderson, *Black in White Space* sheds fresh light on the dire persistence of racial discrimination in our country. A birder strolling in Central Park. A college student lounging on a university quad. Two men sitting in a coffee shop. Perfectly ordinary actions in ordinary settings—and yet, they

sparked jarring and inflammatory responses that involved the police and attracted national media coverage. Why? In essence, Elijah Anderson would argue, because these were Black people existing in white spaces. In *Black in White Space*, Anderson brings his immense knowledge and ethnography to bear in this timely study of the racial barriers that are still firmly entrenched in our society at every class level. He focuses in on symbolic racism, a new form of racism in America caused by the stubbornly powerful stereotype of the ghetto embedded in the white imagination, which subconsciously connects all Black people with crime and poverty regardless of their social or economic position. White people typically avoid Black space, but Black people are required to navigate the “white space” as a condition of their existence. From Philadelphia street-corner conversations to Anderson’s own morning jogs through a Cape Cod vacation town, he probes a wealth of experiences to shed new light on how symbolic racism makes all Black people uniquely vulnerable to implicit bias in police stops and racial discrimination in our country. An unwavering truth teller in our national conversation on race, Anderson has shared intimate and sharp insights into Black life for decades. Vital and eye-opening, *Black in White Space* will be a must-read for anyone hoping to understand the lived realities of Black people and the structural underpinnings of racism in America.

Civil Rights and the Making of the Modern American State Megan Ming Francis, 2014-04-21 This book extends what we know about the development of civil rights and the role of the NAACP in American politics. Through a sweeping archival analysis of the NAACP's battle against lynching and mob violence from 1909 to 1923, this book examines how the NAACP raised public awareness, won over American presidents, secured the support of Congress, and won a landmark criminal procedure case in front of the Supreme Court.

The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism John Stone, Rutledge M. Dennis, Polly Rizova, Xiaoshuo Hou, 2020-10-19 A broad examination of the rise of nationalism, populism, xenophobia, and racism throughout the world *The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism* provides expert insight into the complex, interconnected factors that are influencing patterns of human relations worldwide in a time of rising populist nationalism, intensified racial and religious tensions, and mounting hostilities towards immigrants and minorities. Analyzing the underlying forces which continue to drive global trends, this volume examines contemporary patterns based on the most recent evidence spanning five continents—offering a diversity of interpretations, models and perspectives that address the challenges facing the study of race, ethnicity, and nationalism. The Companion features original contributions by both established experts and emerging scholars that explore an expansive range of theoretical, historical, and empirical case studies. Organized into five sections, the text first discusses growing trends in the United States, the significance of populism in major societies around the globe, and how global changes are influencing regional variations in race, ethnicity, and nationalism. An investigation of global migration patterns is followed by examination of conflict and violence, from urban

riots and boundary disputes to warfare and genocide. The final section focuses on the policy debates resulting from changing patterns and their impact on politics, the economy, and society. Timely and highly relevant, this book: Discusses contemporary issues such as the failure of school systems to provide equal opportunities to minorities, the evolution of the School-to-Prison pipeline, and the Black Lives Matter movement Explores shifts in American race relations, the influence of social media and the internet, and the links between increased globalization and contemporary forms of nationalism, racism, and populism Features essays on national and ethnic identity in China, Japan, and South Korea, India, Central Asia, Africa, Latin America, and Europe Analyzes policies regarding borders, immigration, refugees, and human rights in different countries and regions Offers perspectives on the radicalization of social movements, the creation of ethnic, linguistic and other boundaries between groups, and the models used to understand intractable conflicts in many global settings The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism is an indispensable resource for scholars, researchers, instructors, and students across the social sciences, including sociology, political science, global affairs, economics, comparative race and ethnic relations, international migration, social change, and sociological theory.

Illiberal Reformers Thomas C. Leonard, 2017-01-24 In *Illiberal Reformers*, Thomas Leonard reexamines the economic progressives whose ideas and reform agenda underwrote the Progressive Era dismantling of laissez-faire and the creation of the regulatory welfare state, which, they believed, would humanize and rationalize industrial capitalism. But not for all. Academic social scientists such as Richard T. Ely, John R. Commons, and Edward A. Ross, together with their reform allies in social work, charity, journalism, and law, played a pivotal role in establishing minimum-wage and maximum-hours laws, workmen's compensation, progressive income taxes, antitrust regulation, and other hallmarks of the regulatory welfare state. But even as they offered uplift to some, economic progressives advocated exclusion for others, and did both in the name of progress. Leonard meticulously reconstructs the influence of Darwinism, racial science, and eugenics on scholars and activists of the late nineteenth and early twentieth centuries, revealing a reform community deeply ambivalent about America's poor. Economic progressives championed labor legislation because it would lift up the deserving poor while excluding immigrants, African Americans, women, and 'mental defectives,' whom they vilified as low-wage threats to the American workingman and to Anglo-Saxon race integrity. Economic progressives rejected property and contract rights as illegitimate barriers to needed reforms. But their disregard for civil liberties extended much further. *Illiberal Reformers* shows that the intellectual champions of the regulatory welfare state proposed using it not to help those they portrayed as hereditary inferiors, but to exclude them. -- Provided by publisher.

Unsettled Eric Tang, 2015-10-26 After surviving the Khmer Rouge genocide, followed by years of confinement to international refugee camps, as many as 10,000 Southeast Asian refugees arrived in the Bronx during the 1980s and '90s. *Unsettled* chronicles the unfinished odyssey of Bronx Cambodians, closely following one woman and her family for several

years as they survive yet resist their literal insertion into concentrated Bronx poverty. Eric Tang tells the harrowing and inspiring stories of these refugees to make sense of how and why the displaced migrants have been resettled in the “hyperghetto.” He argues that refuge is never found, that rescue discourses mask a more profound urban reality characterized by racialized geographic enclosure, economic displacement and unrelenting poverty, and the criminalization of daily life. Unsettled views the hyperghetto as a site of extreme isolation, punishment, and confinement. The refugees remain captives in late-capitalist urban America. Tang ultimately asks: What does it mean for these Cambodians to resettle into this distinct time and space of slavery’s afterlife?
