

The Black Cube Of Saturn

Greg Castle

The Cabal of Moloch and Saturn Cosmology David Klooz, 2023-11-15 This book is a short description of how Zionist zealots have planned and implemented messianic protocols since 3,000 BCE by writing a bible that stole creation myths from the Babylonian Enuma Elish and the Egyptian Book of the Dead and by stealing the sacred stones of the Egyptian Ark of the Great Pyramid under the leadership of Akhenaten (Moses) and fleeing to Palestine where they, once again, took over the land occupied by the Canaanites and called it Israel. Archeologic and genetic data support that both Jews and Palestinians came from ancient Canaanites, who extensively mixed with Egyptians, Mesopotamian, and Anatolian peoples in ancient times. Thus, Palestinian-Jewish rivalry is based solely on cultural and religious, but not in genetic differences. Does anyone really believe that the storm God El, then Baal, then combined with Yahweh wrote the bible and decided that Jews would be the chosen people. Since the Spring of 2020, when mandated Covid-19 vaccines began, excess deaths have increased dramatically across the globe to about 20%, while unknown causes of death have increased significantly. The numerous lockdowns (stay at home of the workforce), fear campaigns, COVID-19 policy mandates imposed on approximately 193 member states of the United Nations have also contributed to undermining and destabilizing the very fabric of civil society and its institutions including education, culture and the arts, social gatherings, sports, entertainment; all public sector activities including physical and social infrastructure, social services, law enforcement; all major private sector activities which characterize national, regional and local economies including small, medium and large corporate enterprises, family farms, industry, wholesale and retail trade, the urban services economy, transport companies, airlines, hotel chains; the structures of the global economy including international commodity trade, investment, import and export relations between countries, while the entire landscape of the global economy has been shattered. Each culture has a 'Creation Myth' that is contained in their own understanding of those cataclysm events that occurred between 10,500 BCE and 685 BCE. The West has primarily used the myth in the Judeo-Christian bible. However, you would think in the year 2020 people would understand that the bible is fiction and has significant reasons for concern, such as the similarities of stories; obvious rehashing of numerous previous character; unavoidable contradictions; significant moral problems, including rape, murder and incest, and an abundance of nagging questions. Unless you are mindless, one can easily understand that a book like this can be used mainly for control, but in some hands it can be used to create a self-fulfilling prophecy. The Bible Is

Really the Story of Creation of the Solar System. The Bible was initially stories that were written down and cobbled together and tales told verbally by their descendants over thousands of years that tried to explain the birth of the present Solar System, and what the survivors witnessed. It began in about 10,500 BCE and ended about 685 BCE. Millions of years ago, our Earth and was created by an expulsion of plasma from its brown dwarf star, now known as the Planet Saturn. Mars was also created from a plasma expulsion from the brown dwarf, when it came under electrical stress in the plasma Universe. Saturn, as a brown dwarf, with the Earth and Mars within its plasma glow mode, had an atmosphere of salt, hydrocarbons and water that misted down on both planets for millions or billions of years, providing its oceans and oil pockets. Brown dwarfs are known to be the best home for the development of life since the glow mode provides one warm temperature with no seasons and promotes growth under its ultraviolet and infrared atmosphere. It has recently been discovered that Saturn is the only planet with the same molecular type of water as Earth. Our Earth does not wobble around its pole, as is currently believed, every 25,920 years due to solar-lunar forces acting on the Earth. It was known long ago by the Ancients that the so called change in some stars 'precessing' against the sky was caused by the path of our sun and planets and other stars travelling and revolving around electric Birkeland Current filaments that circle around certain stars; the star Arcturus, the star Alcyone and the star Sirius. The revolution of our current Sun with Sirius occurs every 25,000 years, with the Arcturus filament stream every 550,000 years and with Alcyone, and the Pleiades star system, every 26-27 million years. This last cycle is important since it corresponds to the same 26-27 million year extinction cycle of our Earth. It is believed that Earth's extinction level events occurred as the Saturnian System with Earth and Mars within its orbit crossed the position of our current Sun and its planets every 26-27 million years, resulting in the mass extinctions. The biology of Earth is such a complete accident, and so utterly unlikely that it will probably not have ever been duplicated anywhere, at anytime, among the billions of other star systems. But here on Earth, all of it, especially the rise of complex species since the Cambrian, 560 million years ago, can be attributed to a series of cataclysmic plasma strikes by Saturn, each of a very long duration: biologists claim 10,000 years for the extinction events. At about 10,500 BCE, the Earth, at that time a planet of the Sun, made an electric field contact with Saturn, causing 1500 years of darkness on Earth. The period of darkness is recognized by many of the world's creation myths and was recorded in the illustrated graphic books of Mesoamerica, references to which are made in the Colonial period documents. Climatologically, the period is identified today as the Younger Dryas, when for some 1500 years Earth got as cold as it had ever been. Over the next 7000 years the orbit of Earth, apparently equal to the orbit of Saturn at that time, but below Saturn, progressively moved laterally to have the Earth's orbital path eventually travel below the centre of Saturn. Thus, between 10,500 BCE and 3147 BCE, earth was part of a strange configuration of stacked planets, a condition which provided long summers and a mild climate in the northern hemisphere. Planets, dominated by the giant form of Saturn, stood above the north horizon and close to Earth but measured in millions of miles and were taken by

humans to be the Gods who supported them and for whose benefit they labored at agriculture and conducted trade. In 4070 BCE, Saturn dropped its coma. This had been the 'chaos before creation', which had lasted some 7,000 years and had obscured Saturn and its companion satellites. Saturn went Nova, and switched to arc mode. In a mass expulsion Saturn produced its rings and a new satellite, Venus. Saturn lit up more brilliantly than the Sun. For humans of Earth, who had not clearly seen the real Sun for thousands of years because of the shadow of the Younger Dryas, followed by the obscurity of the enclosing plasmasphere of Saturn, this was the creation, the start of time, and the first showing of the land and its resident Gods, the satellites of Saturn. Saturn was universally called the Sun throughout the world at this time. In 3147 BCE, as Mars began the oscillate between Venus and Earth this configuration of standing planets became unstable and broke apart, with the three large planets moving away from the Sun, while Earth, Venus and Mars were released to their overlapping inner orbits. The breakup produced a stupendous flood waters, which had been held at the south polar region due to gravitational attraction of Saturn for some 7,000 years. The water held at the South Pole was due to the lifting up of the Earth's crust in the Arctic, and the sinking toward the Earth's interior in Antarctica. This was the end of the 'Golden Age'. When the Solar System re-arrangement was complete it formed the basis of all religions, myths and mystery schools.

New Dimensions/cube of Space, Hidden in a secret book of cosmology, written in the ancient Hebrew tongue, long forgotten but not lost by mankind, is a description of a mysterious cube formed from the twenty-two letters of the Hebrew alphabet. This cube of letters is constructed of a center, three interior dimensions, six faces, and twelve edges. These twenty-two components form the cube, and also reveal a map that clearly shows where we have come from, where we are now, and where we are going in our evolutionary journey toward complete spiritual awakening. In *New Dimensions for the Cube of Space*, David Allen Hulse explains that this cube of letters cannot reveal its deepest secrets until it is clothed in the cards of the tarot, creating a map of the cosmos referred to as the Cube of Space. Then, and only then, can this mystical cube speak directly to our souls and show us the way, or the true path of initiation we all must eventually travel. He presents a fascinating description of how he attained his insights along with a clear exposition of the Cube of Space as a path of initiation. Hulse illustrates his insights using the original B.O.T.A. tarot deck, designed by Paul Foster Case. The clear and simple imagery of this deck is very helpful for understanding every nuance of the symbolic material in the story of the soul's journey around the six faces of the cube. However, the popular Waite deck, or any other Tarot deck can be used in studying the Cube of Space. Included is the material needed for the construction of a model of the Cube of Space and Hulse recommends that the reader assemble this model, as it will greatly facilitate a clear understanding of the symbolic meaning behind each of the of the twenty-two directions of space delineated by the cube. Includes a color insert for construction of your own Cube!

Myths Unveiled Malik Bade,2025-02-13 People's belief on faith and religion in fact comes by an accident of geography, ingrained cultural heritages which shapes what life is viewed for the many millions to billions around the world. However, any critical thinker equipped with the means to delve deeply into the origins of many of the most well-known religious concepts would recognise a recurrent pattern and theme. From the so-called Pagans to our contemporary worldviews, the same concepts are applied in various manners. Upon careful reflection, reading, and investigation of sources and reference materials from all directions, it became evident that many of the texts were not based on actual events. When you truly go into its origins, however, you will find that it comes from a higher spiritual meaning that describes esoteric messages. Such are observations of the sky, planets, stars, and time zones, which all play a part in the many stories that were circulated and burrowed throughout the course of history. Our current system hasn't worked for decades; on the contrary, it's time to reconsider and piece things together.

The Secrets of Tenet and the Sator Square François-Marie Périer,Romain Teixeira,2023-12-14 From the Early Christians to Christopher Nolan. What if the famous Magic Square Sator, engraved two millenia ago on the walls of Pompeii shortly before the eruption of Vesuvius, attributed to the Early Christians, and the inspiration for Christopher Nolan's film Tenet, released in 2020, had been announcing the troubled and decisive times we are living? Sator, Arepo, Tenet, Opera, Rotas: a 25 letters mandala of which numerous versions dot ancient, medieval or modern Europe, and a two thousand years old mystery.

Like a living heart where ancient traditions and religions converge with contemporary discoveries in physics, such as the reversibility of Time and the question of Artificial Intelligence, the Magic Square takes us through the arcane of the Tarot, Gnosis, Hebrew Wisdom and their links to Egypt, Christian Mysticism and the Renaissance. It also allows us to decipher for the first time the work of Christopher Nolan, also director of *The Prestige*, *Batman*, *Interstellar*, *Inception* and *Oppenheimer*. In the center of the Sator Square, a cross is formed by Tenet, the name of the director of the CIA at the time of September 11, 2001. Space and Time, Eternity, the destiny of Human kind, its quest for freedom are simultaneously hidden and revealed in the Sator Square, as well as C.G.Jung's necessary reconciliation of the opposites at the crossing point between the Pisces era and the Aquarian era we are encountering. We live in a twilight World is the device of Tenet. But the Sator Square also announced us the dawn of a new one.

The Bible Conspiracy David Klooz, 2025-02-23 Most people are not aware that numerous cataclysmic events significantly shaped Earth's history, including advanced civilizations like Atlantis and Lemuria, which were destroyed and forgotten over time. Nor do many know that Earth was once part of a system orbiting Saturn, and that major cosmic events involving Saturn, Jupiter, and other planets influenced Earth's development and ancient mythologies and religions. Also, very few individuals realize that many biblical characters, including Jacob, Moses and King David, were based on historical Egyptian figures, and that the Bible was heavily influenced by Egyptian texts, rituals, religion, morals and artifacts. Moreover, few are aware of the influence of ancient mystery schools on the development of philosophical and religious thought, suggesting that secret societies have preserved and transmitted esoteric and occult knowledge through the ages to only the initiates of those societies. The concept of a plasma and an electric universe proposes that electrical forces play a critical role in cosmic events and planetary interactions, challenging traditional gravitational theories. Plasma is also related to the real purpose and mysteries surrounding the Great Pyramid, whose construction reflects sophisticated scientific knowledge of the Earth, Solar System and Universe. In the end, readers will understand that like most stories, this one is about the psychopathic need of the few for control and the bending of humankind's will, in this case by means of religion and money - the worst two innovations of humankind. There have never been wars between civilizations, but only Class Wars that create them. This is

the story of an ancient priestly cult that, through esoteric and occult knowledge, has been able to create and control events that keep humankind in chains.

The Fraternitas Saturni Stephen E. Flowers, 2018-06-19 The most in-depth work in English on the most influential

secret magic group of 20th-century Germany, the Fraternitas Saturni, or Brotherhood of Saturn • Explores the history of the Order from its founding the late 1960s • Transcribes many rituals and practices in such detail that readers will be able to undertake their own experiential work • Examines the Order's teachings on cosmology, the Kabbalah, the Saturnian Sacraments, electrical magic, and sexual mysticism--the Yoga of the Dark Light • Includes biographies of prominent members, including founder Gregor A. Gregorius, Karl Spiesberger (Frater Eratus), and Albin Grau (Master Pacitius) The most influential magical group in Germany during the 20th century, the Fraternitas Saturni, or Brotherhood of Saturn, is still the most active and important magical society in Germany today. But from its formal beginnings in 1926 in Weimar Berlin until around 1970 it was almost totally secret. Most of what is known about the Order in the English-speaking world is fragmentary and focuses exclusively on the sensational sex-magic practices and Luciferian tendencies of this magical lodge. Presenting the most in-depth work in English on the Fraternitas Saturni, Stephen Flowers examines the history of the Order from the mid-1920s to the late 1960s when the Order was fundamentally reformed. He details their path of initiation, secret doctrines, ritual practices, and magical formulas and offers biographies of the Order's most prominent members, including founder Gregor A. Gregorius, Karl Spiesberger (Frater Eratus), Albin Grau (Master Pacitius), and Franz Saettler (Dr. Musallam). Exploring the Brotherhood's guiding principles, he shows that at the heart of Saturnian ideology is the idea of Saturn-Gnosis: the interplay of opposing forces in the universe leading to the realization of the individual self as a god-like entity. He examines the Order's teachings on cosmology, the Kabbalah, the Saturnian Sacraments, electrical magic, sex-cosmology, sex-magic rites, and sexual mysticism--the Yoga of the Dark Light--and transcribes many of their actual rituals and practices, including the highly controversial Gradus Pentalphae, in such detail that readers will be able to undertake their own experiential work. Explaining the meanings of all 33 grades of the Order, the author also looks at the infamous Freemasonic Order of the Golden Centurium, the cult of Adonism, the links between Thelema and the Fraternitas Saturni, and the rare teachings of Master Pacitius (Albin Grau), the visual genius behind the film Nosferatu. He also includes rare reports by Aleister Crowley concerning his interaction with some of the forerunners to the Order and letters from the Order's founder, Gregor A. Gregorius, to the "Great Beast."

Confronting Antisemitism in Modern Media, the Legal and Political Worlds Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2021-05-10 This volume documents the transformation of age-old antisemitic stereotypes into a new form of discrimination, often called New Antisemitism or Antisemitism 2.0. Manifestations of antisemitism in political, legal, media and other contexts are reflected on theoretically and contemporary developments are analyzed with a special focus on online hatred. The volume points to the need for a globally coordinated approach on the political and legal levels, as well as with regard to the modern media, to effectively combat modern antisemitism.

Life, One Big Existential Crisis Kerry Louise Stalker, 2021-01-25 Life, One Big Existential Crisis takes the reader on an epic journey. It starts by asking 'What's the point?' then ventures down the psychological, philosophical, spiritual, cosmological, and conspiratorial rabbit hole to answer this great ontological question. In short, the spirit world is real. A spiritual battle is taking place and our souls are the prize for either the kingdom of darkness or kingdom of light. Pushing Ice Alastair Reynolds, 2020-04-21 Pushing Ice is the brilliant tale of extraordinary aliens, glittering technologies, and sweeping space opera from award-winning science fiction author Alastair Reynolds. 2057. Humanity has raised exploiting the solar system to an art form. Bella Lind and the crew of her nuclear-powered ship, the Rockhopper, push ice. They mine comets. And they're good at it. The Rockhopper is nearing the end of its current mission cycle, and everyone is desperate for some much-needed R & R, when startling news arrives from Saturn: Janus, one of Saturn's ice moons, has inexplicably left its natural orbit and is now heading out of the solar system at high speed. As layers of camouflage fall away, it becomes clear that Janus was never a moon in the first place. It's some kind of machine -- and it is now headed toward a fuzzily glimpsed artifact 260 light-years away. The Rockhopper is the only ship anywhere near Janus, and Bella Lind is

ordered to shadow it for the few vital days before it falls forever out of reach. In accepting this mission, she sets her ship and her crew on a collision course with destiny -- for Janus has more surprises in store, and not all of them are welcome.

The Eye of Ra David Klooz, 2020-05-29 "...a large planet stood above the North Pole for a very long time." That is what all the mythology throughout the world uniformly states. Mythology from every nation, region, tribe, and period, in thousands of languages, in hundreds of forms, from every continent; they all resound, "a large planet stood above the North Pole for a very long time." Every country is accounted for except those located more than 10 degrees below the equator. The mythology of regions as far removed from each other as Siberia, North Africa, and Guatemala all agree. As others have indicated, I will also suggest that this planet was Saturn and that Saturn was initially a brown dwarf star that created Earth, Mars and later Venus. In order to put the story into context, I will make it abundantly clear that the framework will be based upon plasma physics and the existence of the aether. The Solvay Conference, founded by the Belgian industrialist Ernest Solvay in 1912, was considered a turning point in the world of physics. Located in Brussels, the conferences were devoted to outstanding open problems in both physics and chemistry. The most famous conference was the October 1927 Fifth Solvay International Conference on Electrons and Photons, where the world's most so-called notable physicists met to discuss the newly formulated quantum theory. The leading figures were Albert Einstein and Niels Bohr. "Settled Science" and "Consensus Science" began at this time and it is also the moment we stopped doing real physics in the 20th and 21st centuries. The bold theoretical and experimental era of physics, by the likes of Maxwell, at the very dawn of science, as we know it, ended abruptly at the start of the 20th Century. That was when our currently accepted, and very different, view of "physics", everything from the "Big Bang" Expanding Universe Cosmology, to Relativistic limitations imposed by "flat" space and non-simultaneous time, complicated by a non-intuitive "Quantum Mechanics" of suddenly uncertain atomic "realities", all took a very different turn from where they had been headed. The quantum theory discarded the basic physics principle of cause followed by effect. Einstein was disenchanted with the Heisenberg Uncertainty Principle and created his own fatal damage when his "thought experiment" made-up the theory of relativity. He isolated his arbitrary observer from the rest of the universe, discarded the absolute standards of length and time, invented an imaginary proper clock that does not exist, removed the aether, and the effect of gravity became an illusion. Make sure you understand this was not done using any scientific method, i.e., observation, experimentation and replication, but by what became known as a "thought experiment". Einstein should have kept his day job in the post office, as he has set physics, the so-called Queen of the Sciences back 100 years. This conference was also the culmination of the struggle between Einstein and the scientific realists, who wanted strict rules of scientific method as laid out by Charles Peirce and Karl Popper, versus Bohr and the instrumentalists, who wanted looser rules based on 'expected' outcomes, regardless of causes and effects. Starting at this point, the instrumentalists won, instrumentalism having been seen as the norm ever since. And that has been the insurmountable

problem with science ever since, the loss of the scientific method and accepting causes without effects and conversely. These are all unforgivable losses to the great physicists of the past. We were propelled nearly 2,000 years into past to the Greek Ptolemaic era when geometric symmetry and mathematical beauty dictated that endless the ad-hoc epicycles be added to perfect circular planetary orbits in order to match appearances. That dogma lasted almost 1500 years. How long will we allow relativity dogma and its taboos to persist? It should be no surprise that since that fateful conference in 1927, science has failed to produce any fundamental breakthroughs anything like the 19th century, when some of the finest experimental physicists, such as Ampere, Gauss, Faraday, and Maxwell were discovering the secrets of electricity and electromagnetism. The electric universe and plasma physics and cosmology follows the lead of these experimenting electrical pioneers. According, I will also discard the “thought experiments” of Einstein and defer to real scientists, namely Tesla, Maxwell, Thornhill, and others, who long ago recognized that all perceptible matter comes from a primary substance, of a tenuity beyond conception and filling all space, the Akasha, or luminiferous aether, which is acted upon by the life-giving Prana or creative force, calling into existence, in never ending cycles, all things and phenomena. This primary substance, thrown into infinitesimal whirls of prodigious velocity, becomes gross matter; the force subsiding, the motion ceases and matter disappears, reverting to the primary substance. The structure and nature is most likely a vortex, appearing like a donut from above or below. What I will attempt to present to you in the book, is the real story of our history and the real fact that we, and the universe and everything in it, is electric in nature. I will present facts and evidence that demonstrate that all religions, mystery schools, the Bible, and other religious books are nothing more than a rewritten and edited story of a solar system wide cataclysm. A story that was written, rewritten and edited to make it appear that Jewish people were the ‘Chosen People of God’, We will see that all the pyramids, especially those on the Giza Plateau were built as an energy gathering, converting and storing machines to try to save the Earth and Mankind from the electromagnetic perturbations caused by the Sirius System (the Sun’s binary twin) that occurs approximately every 24,000 years. The Great Pyramid was not a weapon, and certainly not a death star used to explode planets. There has been no atomic wars on Earth and no landings by ‘alien’ beings on Earth, nor on any other planet in our solar system. There is no Planet X and there is no Nibiru. The so-called ‘Planet of the Crossing’ is actually the star Sirius, the Sun’s binary twin. We will see that all the five visible planets, Saturn, Mercury, Mars, Jupiter, Venus and the two luminaries, the Moon and our current Sun, became the Gods, with several of them, coming down to Earth from the Heavens to write our history only a few thousand years ago. We will also see and understand that the vast amount of cratering and channels on all of the planets in our solar system are not the result of random meteor or comet strikes, wind or water erosion, but are the results of electrical arcing between planets that has scarred the surface of the planets and has been demonstrated and replicated, in exact detail, in plasma laboratories. We will examine the Exodus, within the context of the Earth in upheaval from a natural solar system-wide cataclysm, and how

Akhenaton, Moses and the Ark are main characters in the event. We will also examine Mount Sinai and its real identity and location, as well as, the Sacred Stone(s), its use, who stole them, and why. This story does not depend on miracles or faith, but is based upon evidence, both ancient and current. It is our genuine history that has been kept from us in order to maintain control by those in power. If you can not see the truth in this story and you want to believe in religions or the current false, consensus or settled 'science', you must believe them in one of three ways: by faith; by ignorance; or by indoctrination: by faith, because you cannot believe something which does not have adequate scientific evidence except as a philosophical viewpoint; by ignorance, because the only way to be certain in your mind that these theories could work, is because you do not have all the facts; or, if you have been so far indoctrinated you have not made a logical conclusion with your own rational mind, you may have never even tried to question what you have been told to believe. You must decide for yourself what you will believe. If you decide to believe in today's biblical religious myths or "consensus and settled pseudoscience of the quackademics and media", that is fine, just realize that none are supported by true science using the Scientific Method. They are myths, and not even good ones, at that. Just remember, believing this nonsense and everything else the 'authorities' say is just what they want, i.e., no change in the status quo and leave the thinking to them.

The Game of Saturn Peter Mark Adams, 2017-06-01 2017 Esoteric Book of the Year As voted by the membership of the Occult of Personality's Chamber of Reflection Dr. Joscelyn Godwin, Colgate University, emeritus "Besides gratifying the bibliophile, the contents follow scholarly principles, and the notes and documentation are as thorough as one could wish Even if only partially provable, *The Game of Saturn* opens a new and darker vista on the pagan Renaissance. No student of that current should ignore it" *Renaissance Quarterly* Volume LXXI, No. 2 Niketas Siniosoglou. National Hellenic Research Foundation, Athens "The *Game of Saturn* by Peter Mark Adams is a fascinating read. The author calls it "a literary detective story", but this may well be an understatement ... Adams decodes astral, alchemical, and sexual associations that are plausible, and shows how they may have been redeployed into visual format ... *The Game of Saturn* is a stimulating read, and it is difficult to put it down. It will appeal to all scholars of Renaissance intellectual history, esotericism, and Plethon. Published by Scarlet Imprint, the book is a rare example of fine printmaking, featuring beautiful reproductions of the Sola-Busca deck." *Aries - Journal for the Study of Western Esotericism* 18 (2018) 287-304. *The Game of Saturn* is the first full length, scholarly study of the enigmatic Renaissance masterwork known as the Sola-Busca tarot. It reveals the existence of a pagan liturgical and ritual tradition active amongst members of the Renaissance elite and encoded within the deck. Beneath its beautifully decorated surface, its imagery ranges from the obscure to the grotesque; we encounter scenes of homoeroticism, wounding, immolation and decapitation redolent of hidden meanings, violent transformations and obscure rites. For the first time in over five hundred years, the clues embedded within the cards reveal a dark Gnostic grimoire replete with pagan theurgical and astral magical rites. Careful analysis demonstrates that the presiding deity of this 'cult

object' is none other than the Gnostic demiurge in its most archaic and violent form: the Afro-Levantine serpent-dragon, Ba'al Hammon, also known as Kronos and Saturn, though more notoriously as the biblical Moloch, the devourer of children. Conveyed from Constantinople to Italy in the dying years of the Byzantine Empire, the pagan Platonist George Gemistos Plethon sought to ensure the survival of the living essence of Neoplatonic theurgy by transplanting it to the elite families of the Italian Renaissance. Within that violent and sorcerous milieu, Plethon's vision of a theurgically enlightened elite mutated into its dark shadow - a Saturnian brotherhood, operating within a cosmology of predation, which sought to channel the draconian current to preserve elite wealth, power and control. This development marks the birth of an 'illuminated elite' over three centuries before Adam Weishaupt's 'Illuminati.' The deck captures the essence of this magical tradition and constitutes a Western terma whose talismanic properties may serve to establish an initiatory link with the current. This work fully explores the historical context for the deck's creation against the background of tense Ferrarese-Venetian diplomatic intrigue and espionage. The recovery of the deck's encoded narratives constitutes a significant contribution to Renaissance scholarship, art history, tarot studies and the history of Western esotericism.
