The Food Revolution John Robbins, 2001-07-01 Fears of Frankenfood, e-coli and mad cow meat abound. If, indeed, we are what we eat, what in the world are we becoming? John Robbins, who revolutionized how we think about food, reveals the truth about our already deadly diet. He boldly posits that, collectively, our personal diet can save ourselves and the world. If, according to chaos theory, the beating of a butterfly's wing can cause a hurricane in another part of the world, try this out for chaotic cause and effect: monarch butterflies are dying in droves due to genetically-engineered corn growing in the Midwest. There is also a direct correlation between the Big Mac in your hand and the mile-wide river now running across the North Pole. Learn the truth about foods we are eating that are, in Robbins' words, unsafe on any plate.

Prevent and Reverse Heart Disease Caldwell B. Esselstyn Jr. M.D.,2007-02-01 Prevent and Reverse Heart Disease challenges conventional cardiology by posing a compelling, revolutionary idea-that we can, in fact, abolish the heart disease epidemic in this country by changing our diets. Drawing on the groundbreaking results of his twenty-year nutritional study, Dr. Caldwell B. Esselstyn, Jr., a former surgeon, researcher, and clinician at the Cleveland Clinic, convincingly argues that a plant-based, oil-free diet can not only prevent and stop the progression of heart disease, but also reverse its effects. Furthermore, it can eliminate the need for expensive and invasive surgical interventions, such as bypass and stents, no matter how far the disease has progressed. Dr. Esselstyn began his research with a group of patients who joined his study after traditional medical procedures to treat their advanced heart disease had failed. Within months of following a plant-based, oil-free diet, their angina symptoms eased, their cholesterol levels dropped significantly, and they experienced a marked improvement in blood flow to the heart. Twenty years later, the majority of Dr. Esselstyn's patients continue to follow his program and remain heart-attack proof. Prevent and Reverse Heart Disease explains the science behind these dramatic results, and offers readers the same simple, nutrition-based plan that has changed the lives of his patients forever. In addition, Dr. Esselstyn provides more than 150 delicious recipes that he and his wife, Ann Crile Esselstyn, have enjoyed for years and used with their patients. Clearly written and backed by irrefutable scientific evidence, startling photos of angiograms, and inspiring personal stories, Prevent and Reverse Heart Disease will empower readers to take charge of their heart health. It is a powerful call for a paradigm shift in heart-disease therapy.

Fiber Fueled Will Bulsiewicz, MD, 2031-01-07 The instant New York Times, USA Today, and Publisher's Weekly bestseller A bold new plant-based plan that challenges popular keto and paleo diets, from an award-winning gastroenterologist. The benefits of restrictive diets like paleo and keto have been touted for more than a decade, but as renowned gastroenterologist Dr. Will Bulsiewicz, or Dr. B, illuminates in this groundbreaking book, the explosion of studies on the microbiome makes it

abundantly clear that elimination diets are in fact hazardous to our health. What studies clearly now show--and what Dr. B preaches with his patients--is that gut health is the key to boosting our metabolism, balancing our hormones, and taming the inflammation that causes a host of diseases. And the scientifically proven way to fuel our guts is with dietary fiber from an abundant variety of colorful plants. Forget about the fiber your grandmother used to take--the cutting-edge science on fiber is incredibly exciting. As Dr. B explains, fiber energizes our gut microbes to create powerhouse postbiotics called short-chain fatty acids (SCFAs) that are essential to our health. SCFAs are scientifically proven to promote weight loss, repair leaky gut, strengthen the microbiome, optimize the immune system, reduce food sensitivities, lower cholesterol, reverse type 2 diabetes, improve brain function, and even prevent cancer. Restrictive fad diets starve the gut of the critical fiber we need, weaken the microbes, and make our system vulnerable. As a former junk-food junkie, Dr. B knows firsthand the power of fiber to dramatically transform our health. The good news is that our guts can be trained. Fiber-rich, real foods--with fruits, vegetables, whole grains, seeds, nuts, and legumes--start working quickly and maintain your long-term health, promote weight loss, and allow you to thrive and feel great from the inside out. With a 28-day jumpstart program with menus and more than 65 recipes, along with essential advice on food sensitivities, *Fiber Fueled* offers the blueprint to start turbocharging your gut for lifelong health today.
