Interpreting and Translation for Agri-food Professionals in the Global Marketplace Isabel Peñuelas Gil, María-Teresa Ortego Antón, 2023-12-18 In the context of an increasingly internationalized agri-food sector, this volume explores existing and new tools developed to help professionals with writing, interpreting and translating. Centered on the English-Spanish language pair, the contributions address a variety of terminology issues, the importance of intercultural understanding, the use of corpora, as well as the possibilities offered by automatic translation.

Arquitecturas biológicas 2 Marcos Aresta, 2021-05-19 La Arquitectura puede ser entendida como el resultado construido y expuesto a lo vivenciado por y para el ser humano. Por otro lado, el Diseño, que solo finaliza su ciclo al final de la construcción, es fruto de la manipulación de elementos geométricos. Estos elementos se expresan a través de la composición de superficies tridimensionales que se traducen en la espacialidad originando volúmenes llenos y vacíos, en una realidad aparente y oculta de la forma. Esta misma realidad se caracteriza por la noción del tiempo, que estructura la forma en unos recorridos condicionados por bordes cóncavos y convexos, intercepciones angulosas y ondulantes, en un juego de luz y sombra. Todo esto se justifica por una finalidad funcional, un compromiso energético, un deseo estético y una ambición estructural insertados en un determinado contexto físico-ambiental, socio-cultural y económico. La Forma es apasionante, la Arquitectura es amplia y el Diseño es el conductor de esa pasión y el seductor de esa inmensidad.

Escritura y psicoanálisis Helí Morales Ascencio, 1996 El sujeto se constituye desde lo simbólico. Para el psicoanálisis, un sujeto es efecto del lenguaje, más específicamente es lo que es representado por un significante para otro significante. Pero no sólo eso, el sujeto es efecto de la materialidad del significante hecho trazo. La escritura es la materialidad del decir, es el espacio donde se asienta el lenguaje en su transcurrir. Este libro es el resultado del pasaje al texto escrito de aquello que fuera voz.

The United Kingdom and Spain in the Eighteenth Century Manuel-Reyes García Hurtado, 2024-09-23 This book seeks to bridge a gap in the historiography of Spain and Great Britain by arguing that while the eighteenth century witnessed periods of tension, conflict and hostility between the two powers, their relationship remained multifaceted and significant in

other spheres. Throughout the eighteenth century, Spain and Great Britain passed through phases of open warfare, armed peace and deep suspicion. The British capture of Gibraltar and Menorca dealt a severe blow to the newly established Bourbon dynasty in Spain. Even in times of war, however, not all communication channels were closed, with numerous formal and informal contacts being made despite the volatile political climate and enmities. The contributors of this book go beyond the well-known animosity and conflicts to explore the spectrum of interactions, encompassing cultural exchange, traditional diplomacy, trade and espionage plus a multitude of other facets. This book is a valuable resource for researchers and students interested in the complex relations between Great Britain and Spain during the eighteenth century, as well as for a broader audience of historians and both undergraduate and postgraduate students of history and international relations.

Recontextualización de la poética del siglo XVII en la obra de Jorge Luis Borges Cristina Ortiz, 2008 El cuestionamiento al cual la postmodernidad somete la periodización histórica permite rescatar nociones estéticas del pasado que posibilitan la relectura de textos contemporáneos bajo una nueva luz. En este sentido, el «barroco» es sin duda el concepto que más reformulaciones ha sufrido como categoría estética válida para explicar fenómenos artísticos contemporáneos. La aproximación al debate, sin embargo, se ha focalizado en equiparar la experiencia barroca con rasgos de estilo. Este libro pretende releer la poética del siglo XVII desde su aportación filosófico-conceptual y aplicarla a uno de los escritores más sobresalientes de la literatura universal: Jorge Luis Borges.

Fuera del olvido Tomás Albaladejo Mayordomo, Teodosio Fernández, Blas Matamoro, Consuelo Triviño, Carmen Rubalcaba, Lourdes Romano Gutiérrez, 2000 Los intelectuales españoles e hispanoamericanos de finales del siglo XIX cuestionan los valores de una cultura expansiva, la anglosajona, cuya impetuosa modernidad se impone sobre la tradición humanista de la cultura latina, que incluye a los pueblos mediterráneos. La literatura española del s. XX no puede entenderse sin la literatura hispanoamericana.

La edad de la incertidumbre Jesús Rodero, 2006 Lo fantástico es una presencia constante en la ficción, y en particular en el cuento, del siglo XX en Latinoamérica. Este libro se aproxima a este modo o género narrativo a través del análisis

detallado de algunos de los relatos y autores más significativos (Leopoldo Lugones, Felisberto Hernández, Jorge Luis Borges, Julio Cortázar, Gabriel García Márquez, Isabel Allende o Rosario Ferré) para dar cuenta de la enorme variedad de formas que toma el fenómeno fantástico en América Latina. Formas que van desde lo fantástico tradicional de origen decimonónico hasta lo fantástico alegórico de finales del siglo XX, pasando por el relato neofantástico y/o mágico-realista típico de la generación del boom y predecesores. El amplio espectro y la significación de los autores incluidos hacen de éste un libro esencial y particularmente útil tanto para investigadores especializados como para alumnos de estudios latinoamericanos.

Probing Semantic Relations Alain Auger,Caroline Barrière,2010 Semantic relations are at the core of any representational system, and are keys to enable the next generation of information processing systems with semantic and reasoning capabilities. Acquisition, description, and formalization of semantic relations are fundamentals in computer-based systems where natural language processing is required. Probing Semantic Relations provides a state of the art of current research trends in the area of knowledge extraction from text using linguistic patterns. First published as a Special Issue of Terminology 14:1 (2008), the current book emphasizes how definitional knowledge is conveyed by conceptual and semantic relations such as synonymy, causality, hypernymy (generic specific), and meronymy (part whole). Showing the difficulties and successes of pattern-based approaches, the book illustrates current and future challenges in knowledge acquisition from text. This book provides new perspectives to researchers and practitioners in terminology, knowledge engineering, natural language processing, and semantics.

Borges y Góngora Martha Lilia Tenorio,2022-09-01 Borges vivió en la compañía de Góngora desde su adolescencia; sin darse cuenta, a lo largo de su vida construyó una productiva amistad lírica con él: descubrió sus palabras, su “agasajo legible y hasta memorable”. En Borges y Góngora: un diálogo posible, la autora busca lo que Borges y Góngora tienen en común. Con esta convicción en mente, a partir de los propios versos de los dos poetas, y de los comentarios y algunos textos narrativos del primero, intenta dar cuenta de algunas de las razones de esa comunión entre el poeta cordobés y el bonaerense.
