A Journey Through Time H G Tannhaus,2020-04-20 We trust in the linear, forever the same shape of the past, until eternity. But the differences between the past, presence and future are nothing but an illusion.

Coronations János M. Bak,2024-03-29 Fascination with royal pomp and circumstance is as old as kingship itself. The authors of *Coronations* examine royal ceremonies from the ninth to the sixteenth century, and find the very essence of the monarchical state in its public presentation of itself. This book is an enlightened response to the revived interest in political history, written from a perspective that cultural historians will also enjoy. The symbolic and ritual acts that served to represent and legitimate monarchical power in medieval and early modern Europe include not only royal and papal coronations but also festive entries, inaugural feasts, and rulers' funerals. Fifteen leading scholars from North America, Britain, France, Germany, Poland, and Denmark explore the forms and the underlying meanings of such events, as well as problems of relevant scholarship on these subjects. All the contributions demonstrate the importance of in-depth study of rulership for the understanding of premodern power structures. Emphasis is placed on interdisciplinary approaches, drawing on the findings of ethnography and anthropology, combined with rigorous critical evaluation of the written and iconic evidence. The editor's historiographical introduction surveys the past and present of this field of study and proposes some new lines of inquiry. For 'reality' is not a one-dimensional matter: even if we can establish what actually transpired, we still need to ask how it was perceived by those present. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

The Cultural Context of Medieval Learning J.E. Murdoch,E.D. Sylla,2012-12-06 Proceedings of the First International Colloquium on Philosophy, Science, and Technology in the Middle Ages - September 1973

New Perspectives on Contemporary German Science Fiction Lars Schmeink,Ingo Cornils,2022-04-22 New Perspectives on Contemporary German Science Fiction demonstrates the variety and scope of German science fiction (SF) production in literature, television, and cinema. The volume argues that speculative fictions and explorations of the fantastic provide a critical lens for studying the possibilities and limitations of paradigm shifts in society. Lars Schmeink and Ingo

Cornils bring together essays that study the renaissance of German SF in the twenty-first century. The volume makes clear that German SF is both global and local—the genre is in balance between internationally dominant forms and adapting them to Germany's reality as it relates to migration, the environment, and human rights. The essays explore a range of media (literature, cinema, television) and relevant political, philosophical, and cultural discourses.

High Magic U. D. (Frater), Frater U.:D., 2005 Of course, Magic is Magic wherever. But Ceremonial Magic - with or without a k ending - is perceived as largely European in origin and practice. The Golden Dawn, Aurum Solis, O.T.O were European and even AMORC, B.O.T.A., G.B.G. were mostly European inspired. As valid as these esoteric orders were and are, they are at best schools and the knowledge taught is now widely available. What is key is not the knowledge but the self-accomplishment that comes only through personal experience (otherwise known as "self-initiation"). The essence of Magic is a simple formula based on the exercise of Will, Imagination, and Gnosis or Magical Trance. It is a "technology" and must be mastered like any technology through understanding and practice. Like playing the piano, it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well. And, what for? Not to perform tricks or miracles. Not to wear fancy robes and chant barbarous words. Not to reach high degrees with grand titles in a secret order. No, it is to transform and transmute your own self and thus to become more than you were, not merely to accelerate normal human evolution but to actually move beyond and be a co-creator. And to finally answer those questions: Who am I? Where did I come from? Where am I going? High Magic is an active program for self-discovery and Self-Realization. This book by a famed contemporary German magician self-instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations. Each step is thorough without extravagance; the program is effective and entirely self-directed (as must be all real learning); the book is encyclopedic in depth and inclusive even of chaos and cyber magic. Tables and Charts simplify the learning process. The system starts with immediate immersion in ritual practice starting with the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic, Ritual Magic, Elemental Magic, the Greater Ritual of the Pentagram, Planetary Magic, the Hexagram Ritual, Mantra Meditation, the Magical Gaze, Magical Trance, the Pan Ritual, Money Magic, Talisman Magic, Moon Magic, Chaos Magic and Cyber Magic. In each case, practice is used to instruct - nothing is presented as "theory only." You will find everything analyzed, explained and justified with refreshing and truly uncommon common sense! The author fully dispels the myths and subterfuges of archaic magical orders and explores the role of the Unconscious Mind, the issues of Religion and Mysticism, the nature of High and Low Magic, the function of Myth and the role of Drama in Ritual, the Magical Nature of Reality and Magical Perception, Dream Work in relation to Magical Training, the Magical Imagination and training for Visualization, Psychic Protection, Invocation and Evocation, the Calling and Movement of Energies, Charging, Paradigm Shifting, what is really

means "to Keep Silent, " the power of Intention & definition of Magical Goals, the ritual use of Symbols and Gestures, the power of Words, the Magician's Universe, the magical pronunciation of Hebrew Letters, the Magician's Tools, Mantric Sigils, the IAO formula, and much more. High Magic is as central to Western culture as are science, technology, the rule of law, democracy and the entrepreneurial economy. Its practice and application should be part of your daily life starting now.

Hidden Symbolism of Alchemy and the Occult Arts Herbert Silberer, 2020-09-28

The Emerald Tablet Hermes Trismegistus, Isaac Newton, 2017-05-15 The Emerald Tablet, also known as the Smaragdine Table, or Tabula Smaragdina, is a compact and cryptic piece of the Hermetica reputed to contain the secret of the prima materia and its transmutation. It was highly regarded by European alchemists as the foundation of their art and its Hermetic tradition. The original source of the Emerald Tablet is unknown. Hermes Trismegistus is the author named in the text. The layers of meaning in the Emerald Tablet have been associated with the creation of the philosopher's stone, laboratory experimentation, phase transition, the alchemical magnum opus, the ancient, classical, element system, and the correspondence between macrocosm and microcosm.

The Fallen Julia Noyo, 2022-11-30 My name is Sath... My name is Sathariel, actually. I am one of those who people call ha-Satan. Yes, it means "adversary" in Aramaic and yes, it is "adversary of God". But for some reason, everyone has forgotten that those who you nicknamed like this, were first and foremost the defenders of people, who stand by you before a Heavenly court. It was providence we didn't choose. It was decided instead for us. You, people, have given us many names, but none of them was correct, and you people, have given us functions completely unfamiliar to us. We were deities to you at first, then we became the outcasts. And we were Iyrin, the Watchers, who guard and protect you. And who decides if we've done our jobs well? It would be foolish to make excuses now. Who am I to do this? My name is Sathariel and it means "the one who is on the other side of God". But I'm just an archivist who writes time. Every moment of time, from the beginning of time. Who am I? I'm just one of the Brethren, one among two hundred of "the fallen". But now... now I want to tell you our real story.

"The" Six Books of Proclus Proclus, 1816

Secrets of Nature William R. Newman, Anthony Grafton, 2001 A fresh look at the role of astrology and alchemy in Renaissance thinking and everyday life.

The Book of Secrets Daniel Pineda, 2011-03-01 A comprehensive guidebook to over one hundred occult secrets from throughout the world and throughout the ages. From the strange symbols on a one-dollar bill to the secret signs of the Knights Templar and Freemasons, invisible societies, and the world of magic and alchemy, The Book of Secrets is a comprehensive introduction to the world of secret and esoteric knowledge throughout history. In the mystery tradition, "secrets" are levels of consciousness that are hidden from our normal mental state, the acquisition of a new point of view. The Book of Secrets delves into the world of the "occult," the initiated secret traditions of the fascinating unseen spiritual

world: its symbols, secret societies, and seers. You'll discover: Key Concepts: the Great Work, the Universal Force, Polarity, the Four Elements, Magick and Mysticism, Esoteric Anatomy, Qabalah, Alchemy, Astrology, the Astral Plane, and more Symbolism: More than one hundred secrets symbols, words, objects, including their meanings and the secret powers they invoke: Animals, spiritual beings, and sacred objects Secret Societies and Holy Orders: The gatekeepers and the transmitters of sacred knowledge: Freemasons, O.T.O., Cathars, Templars, Assassins. Pineda places them all in history and geography and explains who they are/were and what they stood for Luminaries and Seers: More than two hundred legends and historical personages: Hermes Trismegistus, Jesus, Siddhartha, Osiris, and other seers from the Middle Ages, the Renaissance, the nineteenth and twentieth centuries From video games such as Limbo and Castlevania to TV shows and movies to comic book heroes, or Dan Brown's novels, secret symbols and societies fascinate. Pineda provides a comprehensive introduction to secret knowledge for readers who want to know more. Praise for *The Book of Secrets* "This erudite and sweeping survey of the esoteric realm investigates such diverse topics as mystical doctrines, occult symbols, magical rituals, secret societies, the lives of great adepts, and more. . . . Daniel Pineda displays rare versatility, writing with inspiration, clarity, and humility." —James Wasserman, editor of Aleister Crowley and the Practice of the Magical Diary and author of *An Illustrated History of Solomon's Temple*

The Six Books of Proclus, the Platonic Successor, on the Theology of Plato Proclus (Diadochus), 1816

Alchemy: The Great Work Cherry Gilchrist, 2015-06-04 'Packed with strange stories and shiny nuggets of information, Alchemy: the Great Work is erudite but reads very clearly. But what I admire about it most is how enlightening and enlivening it is.' - Jonathan Black Alchemy is the art of transformation. At its simplest, the alchemist turns base metals into gold. However this is only one dimension of alchemy - at a more sophisticated level the alchemist's 'base metal' is symbolic of himself that needs to be worked upon and the 'gold' produced is the alchemist himself in his or her quest to perfect his own nature. In short, true alchemy is a discipline involving physical, physiological and spiritual work aimed at producing wholeness and enlightenment. From the origins of alchemy, both reputed and documented, Cherry Gilchrist's lively and sympathetic narrative takes the reader from the alchemical interests of the ancient Egyptians to the flowering of alchemy in the seventeenth century. She also elucidates the complexities of alchemical symbolism and examines the ways in which alchemy has developed in the twentieth century. With an introduction by Jonathan Black
