**Social Justice and Islamic Economics** Toseef Azid, Lutfi Sunar, 2019-02-25 Under the rule of the current economic order, social injustice is ever-increasing. Issues such as poverty, inhumane working conditions, inadequate wages, social insecurity and an unhealthy labor market continue to persist. Many states are also unable to produce policies capable of resolving these problems. The characteristics of the capitalist system currently render it unable to provide social justice. In fact, on the contrary, the system reinforces these injustices and prevents economic and social welfare from reaching the masses. Many Muslim scholars have analyzed and, indeed, criticized this system for years. This book argues that an alternative and more equitable theoretical and practical economical order can be developed within the framework of Islamic principles. On the other hand, the experiences of societies under the rule of Muslim governments do not always seem to hold great promise for an alternative understanding of social justice. In addition, the behaviors of Muslim individuals within their economic lives are mostly shaped by the necessities of daily economic conditions rather than by the tenets of Islam that stand with social justice. Until 1990s, studies of Islamic economics made connections between finance and the

notion of social justice, but work conducted more recently has neglected this issue. It is therefore evident that the topic of social justice needs to be revisited in a more in-depth manner. Filling an important gap in existing literature, the book uniquely connects social justice and Islamic finance and economics on this topic. Theory, practice and key issues are presented simultaneously throughout this book, which is based on the writings of a number of eminent scholars.

**Loose Leaf for Law for Business** Eric L. Richards, Terry M. Dworkin, A. James Barnes, 2014-01-22 Overview: Law for Business has provided students with a comprehensive, yet concise treatment of the legal issues of fundamental importance to business students and the business profession. The cases, which have always been a strong feature, are edited and re-written by the authors, who divide the material into three categories: facts, issues, decisions. The authors, Barnes, Dworkin, and

Richards, choose cases that are appropriate to explain precedent and history as well as include “hot topic” cases that relate to current events. In addition to case applications, the authors use such techniques as content summaries to apply concepts to practice. Effective managers and employees must develop knowledge of both law and business because people involved in business also are involved in, and greatly affected by, the laws concerning business.
