Managerial Accounting: Asia-Pacific Edition John Sands, Lanita Winata, Sophia Su, Maryanne Mowen, Don Hansen, Dan L. Heitger, 2018-10-01 Managerial Accounting is characterised by a strong pedagogical framework and a dynamic and practical approach that directly demonstrates how students can develop their careers in real life. The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method, and uses [Staircase] exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book. This title uses easy-to-understand, student-friendly language, uncomplicated examples, a logical discussion of concepts that matches student learning processes, and clear visual explanations that support student understanding.

Managerial Accounting John J. Wild, 2007 Wild's Managerial Accounting responds to the market's request for a book with a balance between large and small business, and one that is contemporary yet succinct and assessable for

today's students. With numerous innovative features, the author focuses on "Three C's": Clear presentation of accounting concepts, Concise coverage to help students focus on important material, and Cutting-edge technology to engage students and improve their chances for success. The author provides a balance of small and large business examples, integration of new computerized learning tools, superior end-of-chapter materials, and highly engaging pedagogical learning structures. Technology tools such as Homework Manager provide students with further advantages as they learn and apply key accounting concepts and methods.

Ebook: Managerial Accounting - Global Edition Ronald Hilton, David Platt, 2014-09-16 We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Accounting: Information for Business Decisions Billie Cunningham, Loren Nikolai-HCP, John Bazley, Marie Kavanagh, Sharelle Simmons, 2018-01-01 A business focused introduction to Accounting for all students - not just those intending to be Accounting majors. Lead students through the real-world business cycle and how accounting information informs decision-making. Students learn how to base decisions on two kinds of accounting information - managerial and financial. Departing from the traditional approach taken by other introductory accounting textbooks, students apply both managerial and financial approaches within the topics examined in each chapter. The conversational writing engages students in the theoretical content and how it applies to contemporary real-world scenarios. The new edition updates includes the fully integrated Cafe Revive case study. Students follow a retail coffee business through the book to learn about applying accounting issues in the real world.

Accounting, Chapters 1-23 Charles T. Horngren, 1995-07 The Demo Docs System of instruction replicates the classroom experience by providing more I get it moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or get it) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the I get it moments outside of class-keeping both you and the students on track.
