English Transcription Course Maria Lecumberri, J. A. Maidment, 2014-03-18 Have you ever been confused by the fact that the words 'though' and 'bough' are pronounced differently, or frustrated by the realisation that 'hint' and 'pint' don't rhyme? It is well known that the spelling system of English is notoriously unhelpful as an indicator of how to pronounce English words. Spoken and written representations of English are mutually inconsistent, making it difficult to interpret the 'logic' of the language. Learning to transcribe English phonetically, however, provides an accurate visual interpretation of pronunciation: it helps you to realise what you actually say, rather than what you think you say. English Transcription Course is the ideal workbook for anyone wishing to practice their transcription skills. It provides a series of eight lessons, each dealing with a particular aspect of pronunciation, and introduces and explains the most important features of connected speech in modern British English - such as assimilation, elision and weak forms, concentrating on achieving a relaxed, informal style of speech. Each lesson is followed by a set of exercises which allow for extensive practise of the skills learnt in both current and previous chapters. Students can check their progress with the 'model' answers provided in the appendix.

The Logic of English Words Logophilia Education,2018-06-27 Logophilia Education (estd. August, 2010) is the first and only Etymology Education organisation in the world. We're passionate in our belief that a strong and sophisticated vocabulary is the most essential skill that students should possess. Why? Anything you study is written in words. All subjects have their own terminology. Without a strong understanding of English words you will never really study well, and will end up finding shortcuts to learning (e.g. rote-memorising, using mnemonics, and so forth). Logophilia, therefore, teaches the structure of English words with the intent of getting students to become very strong in vocabulary, and dictionary-independent. This method of teaching, done through Logophilia's unique pedagogy, is called Etymology Education. We promote Etymology awareness as a life skill, and aim to get it into mainstream school curricula worldwide, thereby simplifying and sophisticating language comprehension for everyone. We teach (experiential vocabulary programmes), quiz (the Logo+philia™ Gala Olympiad), & write (books, blogs, apps, and vocabulary-learning aids), to help you see the logic of English words.

English Language Education and Assessment David Coniam,2014-07-06 This volume gathers contributions in the closely linked fields of English language assessment and language education. The contributors from China and Hong Kong represent a mixture of established and new scholars. Areas covered in the language education section range across major

developments in the redefining of Hong Kong's secondary and tertiary curricula, as well as the huge field of China's vocational education curriculum. Regarding assessment, the contributions reflect major changes in the marking of examinations in Hong Kong, whereby all examinations from 2012 onwards are marked onscreen, to quality control issues in the administration of China's College English Test, which is taken by over 10 million candidates every year.
