**William C. Johnson**

*James Baldwin in Context* D. Quentin Miller, 2019-08-01 *James Baldwin in Context* provides a wide-ranging collection of approaches to the work of an essential black American author who is just as relevant now as he was during his turbulent heyday in the mid-twentieth century. The perspectives range from those who knew Baldwin personally, to scholars who have dedicated decades to studying him, to a new generation of scholars for whom Baldwin is nearly a historical figure. This collection complements the ever-growing body of scholarship on Baldwin by combining traditional inroads into his work, such as music and expatriation, with new approaches, such as intersectionality and the Black Lives Matter movement.

**Becoming a Teacher** Melinda D. Anderson, 2020-09-01 An illuminating guide to a career as a teacher written by acclaimed journalist Melinda D. Anderson and based on the real-life experiences of a master teacher—essential reading for anyone considering a path to this profession that changes lives. Go behind the scenes and be mentored by the best in the business to find out what it's really like, and what it really takes, to become a teacher. Educators are the bedrock of a healthy society, and the exceptional ones have a lasting impact. The best teachers surpass mere instruction to cultivate and empower students beyond school. In LaQuisha Hall's classroom, students are "scholars," young ladies are "queens," and young men are "kings." The Baltimore high school English teacher's pioneering approach to literacy has earned her teacher of the year accolades, and has established her as a visionary mentor to the young black men and women of Baltimore. Acclaimed education writer Melinda D. Anderson shadows Mrs. Hall to reveal how this rewarding profession changes lives. Learn about Hall's path to prominence, from the challenging realities of her rookie year to her place of excellence in the classroom. Learn from Hall's inspiring approach and confront the critical issues of race, identity, and equity in education. Here is how the job is performed at the highest level.

Landscapes of the New West Krista Comer, 1999 In the early 1970s, empowered by the civil rights and women's movements, a new group of women writers began speaking to the American public. Their topic, broadly defined, was the postmodern American West. By the mid-1980s, their combined works made for a bona fide literary groundswell in both

critical and commercial terms. However, as Krista Comer notes, despite the attentions of publishers, the media, and millions of readers, literary scholars have rarely addressed this movement or its writers. Too many critics, Comer argues, still enamored of western images that are both masculine and antimodern, have been slow to reckon with the emergence of a new, far more feminine, postmodern, multiracial, and urban west. Here, she calls for a redesign of the field of western cultural studies, one that engages issues of gender and race and is more self-conscious about space itself\_ especially that cherished symbol of western authenticity, open landscape. Surveying works by Joan Didion, Wanda Coleman, Maxine Hong Kingston, Leslie Marmon Silko, Barbara Kingsolver, Pam Houston, Louise Erdrich, Sandra Cisneros, and Mary Clearman Blew, Comer shows how these and other contemporary women writers have mapped new geographical imaginations upon the cultural and social spaces of today's American West.

Counting Descent Clint Smith, 2020-01-06 From the author of *How the Word is Passed: A Reckoning with the History of Slavery Across America* \* Winner, 2017 Black Caucus of the American Library Association Literary Award \* Finalist, 2017 NAACP Image Awards \* One Book One New Orleans 2017 Book Selection \* Published in *The New Yorker*, *The New York Times Magazine*, *Poetry Magazine*, *The Paris Review*, *New Republic*, *Boston Review*, *The Guardian*, *The Rumpus*, and *The Academy of American Poets* So many of these poems just blow me away. Incredibly beautiful and powerful. -- Michelle Alexander, Author of *The New Jim Crow* *Counting Descent* is a tightly-woven collection of poems whose pages act like an invitation. The invitation is intimate and generous and also a challenge; are you up to asking what is blackness? What is black joy? How is black life loved and lived? To whom do we look to for answers? This invitation is not to a narrow street, or a shallow lake, but to a vast exploration of life. And you're invited. -- Elizabeth Acevedo, Author of *Beastgirl & Other Origin Myths* These poems shimmer with revelatory intensity, approaching us from all sides to immerse us in the America that America so often forgets. -- Gregory Pardlo *Counting Descent* is more than brilliant. More than lyrical. More than bluesy. More than courageous. It is terrifying in its ability to at once not hide and show readers why it wants to hide so badly. These poems mend, meld and imagine with weighted details, pauses, idiosyncrasies and word patterns I've never seen before. -- Kiese Laymon, Author of *Long Division* Clint Smith's debut poetry collection, *Counting Descent*, is a coming of age story that seeks to complicate our conception of lineage and tradition. Do you know what it means for your existence to be defined by someone else's intentions? Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward.

**A Political Companion to James Baldwin** Susan J. McWilliams, 2017-11-15 "Uniformly excellent" essays on the work of

the renowned author and his “extraordinary relevance in the present moment” (Choice). In seminal works such as *Go Tell It on the Mountain*, *Notes of a Native Son*, and *The Fire Next Time*, acclaimed author and social critic James Baldwin expresses his profound belief that writers have the power to transform society, engage the public, and inspire and channel conversation to achieve lasting change. While Baldwin is best known for his writings on racial consciousness and injustice, he is also one of the country’s most eloquent theorists of democratic life and the national psyche. In this book, prominent scholars assess the prolific author's relevance to present-day political challenges. Together, they address Baldwin as a democratic theorist, activist, and citizen, examining his writings on the civil rights movement, religion, homosexuality, and women’s rights. They investigate the ways in which his work speaks to and galvanizes a collective American polity, and explore his views on the political implications of individual experience in relation to race and gender. This volume not only considers Baldwin’s works within their own historical context, but also applies the author’s insights to recent events such as the Obama presidency and the Black Lives Matter movement, emphasizing his faith in the connections between the past and present. These incisive essays will encourage a new reading of Baldwin that celebrates his significant contributions to political and democratic theory.

*Academic Reading - Second Edition* Janet Giltrow, 2002-03-21 This reader has been designed to accompany Giltrow’s *Academic Writing*, one of the key principles of which is that there is a close connection between the processes of reading and of writing academic prose. Each reading is preceded by introductory commentary, questions, and suggestions for discussion, and the book also includes a brief general introduction. As with Giltrow’s *Academic Writing*, her *Academic Reading* is a challenging text. At its core are examples of actual academic writing of the sort that students must learn to deal with daily, and to write themselves. As newcomers to the scholarly community, students can find that community’s ways of reading and writing mysterious, unpredictable and intimidating. *Academic Reading* demystifies the scholarly genres, shedding light on their discursive conventions. Throughout, *Academic Reading* respects the student writer; it engages the reader’s interest without ever condescending, and it avoids entirely the arbitrary and the dogmatic. The second edition is expanded to include twenty-one selections, nineteen of which come from scholarly publications, and more than half of which are new to this edition.

**Why Teaching Matters** Paul Farber, Dini Metro-Roland, 2020-02-20 *Why Teaching Matters* is an introductory guide to core elements of teaching, getting to the heart of what teaching is, and why it matters. Paul Farber and Dini Metro-Roland introduce the following 8 elements which encompass the many issues, themes and social complexities of teaching: - Conveying Care - Enacting Authority - Cultivating Virtue - Interpreting Subject matter - Rendering Judgment - Articulating

**Purpose - Establishing a Sense of Place - Engaging Presence** The focus on the elements of practice frames discussion of teaching as an essential human activity and highlights the kinds of significant issues that teachers face, including technology, social inequality, and the management and evaluation of their work. As a philosophical guide, it introduces and draws upon a range of thinkers, including Nel Noddings, Hannah Arendt, Hans-Georg Gadamer, Danielle Allen, and James Baldwin whose work informs a deeper understanding of teaching. The theoretical discussions are grounded with examples and anecdotes from the classroom so that theory is always connected with practice, and questions for further inquiry appear at the end of each chapter. Intended for students of education and for new and experienced teachers alike, as well as anyone interested in the impact of teaching, *Why Teaching Matters* explores the inherent complexity and challenges of teaching, offering a comprehensive account of the many ways in which teaching matters.

**Preparing Antiracist Teachers** Christine Montecillo Leider, Christina L. Dobbs, Erin Nerlino, 2024-12-27 *Preparing Antiracist Teachers: Fostering Antiracism and Equity in Teacher Preparation* examines multiple strategies and theories for developing antiracist attitudes and actions in teachers and teacher candidates. This textbook uses critical consciousness as a framework to help practitioners and scholars to facilitate the process of doing antiracist work. The book is divided into three sections, with Part 1 focusing on critical reflection, which refers to a social analysis and moral rejection of societal inequities, such as social, economic, racial/ethnic, and gender inequities, that constrain well-being and human agency. It shows that those who are critically reflective view social problems and inequalities in systemic terms and are therefore better able to address them. Part 2 examines sociopolitical efficacy, which refers to the perceived capacity to effect social and political change by individual and/or collective activism. Part 3 centers on critical action, that is, individual or collective action taken to change aspects of society, such as institutional policies and practices, that are perceived to be unjust. This is a broad view of activism that can include participation in activities such as voting, community organizing, and peaceful protests. Showcasing both USA-based and international case studies, *Preparing Antiracist Teachers* will support teacher educators in their work by presenting nuanced and important means of teacher education for antiracism and critical consciousness. It will also benefit those studying related courses, including Teacher Education, Social Justice Education, and Multicultural Education.

**Teaching as Protest** Robert S. Harvey, Susan Gonzowitz, 2022-02-21 *Teaching as Protest* explores how K-12 teachers can expand the boundaries of their profession with anti-oppressive, community-building pedagogies. Now more than ever, students are looking to their schools to make meaning of our nation's complicated and compounded traumas, namely those at the intersection of race, class, gender, and power. This book provides historical and philosophical perspectives into liberatory

instructional work, while offering planning, preparation, and practice tools whose modalities recognize identity and mindsets, emphasizing schools that predominantly serve Black students. By moving beyond conventional tools and tasks such as standards, lesson-planning, and grade-team meetings and into more emancipatory, student-centered approaches, teachers can answer the call to a more just and radical demonstration of protest intended to disrupt and dismantle oppression, racism, and bias.

**Called Beyond Our Selves** Erin VanLaningham, 2024 Higher education today faces challenges from all sides, but college can provide young people with an opportunity to explore what it means to live a meaningful life. Increasingly, undergraduate education encourages students to reflect on their many callings in life, but this does not need to be a purely individual pursuit. This volume provides an argument for helping students to think about the interconnectedness of individual and communal life as they reflect on their various vocations.

**Teaching for Dissent** Sarah Marie Stitzlein, 2015-11-17 Teaching for Dissent looks at the implications of new forms of dissent for educational practice. The reappearance of dissent in political meetings and street protests opens new possibilities for improved democratic life and citizen participation. This book argues that this possibility will not be fulfilled if schools do not cultivate the skills necessary for our citizens to engage in political dissent. The authors look at how practices in schools, such as the testing regime and the 'hidden curriculum', suppress students' ability to voice ideas that stand in opposition to the status quo. Teaching for Dissent calls for a realignment of the curriculum and the practices of schooling with a guiding vision of democratic participation.

**Talking About Race** Steven Grineski, Julie Landsman, Robert Simmons III, 2023-07-03 What is it that gives many of us White people a visceral fear about discussing race? Do you realize that being able to not think about or talk about it is a uniquely White experience? Do you warn your children about how people might react to them; find store staff following or watching you; get stopped by the police for no reason? The students of color in your classroom experience discrimination every day, in small and large ways. They don't often see themselves represented in their textbooks, and encounter hostility in school, and outside. For them race is a constant reality, and an issue they need, and want, to discuss. Failure to do so can inhibit their academic performance. Failure to discuss race prevents White students from getting a real, critical and deep understanding of our society and their place in it. It is essential for the well-being of all students that they learn to have constructive conversations about the history of race in this country, the impact of racism on different ethnic communities, and how those communities and cultures contribute to society. The need to model for our students how to talk openly and comfortably about race is critical in America today, but it is still an issue that is difficult to tackle. To overcome the common

fear of discussing race, of saying “something wrong”, this book brings together over thirty contributions by teachers and students of different ethnicities and races who offer their experiences, ideas, and advice. With passion and sensitivity they: cover such topics as the development of racial consciousness and identity in children; admit their failures and continuing struggles; write about creating safe spaces and the climate that promotes thoughtful discussion; model self-reflection; demonstrate the importance of giving voice to students; recount how they responded to racial incidents and used current affairs to discuss oppression; describe courses and strategies they have developed; explain the “n” word; present exercises; and pose questions. For any teacher grappling with addressing race in the classroom, and for pre-service teachers confronting their anxieties about race, this book offers a rich resource of insights, approaches and guidance that will allay fears, and provide the reflective practitioner with the confidence to initiate and respond to discussion of race, from the pre-school and elementary classroom through high school.

**Developing the Multicultural Process in Classroom Instruction** H. Prentice Baptiste, Mira Lanier Baptiste, 1979 A companion volume to Multicultural Education, also published by UPA, this handy 8 1/2 x 11 volume provides teachers, students, and government workers with up-to-date field tested competencies written by the authors for their teaching and consulting work.

**Critical Encounters in Secondary English** Deborah Appleman, 2023-12-22 Grounded in solid theory with new field-tested classroom activities, the fourth edition of Critical Encounters in Secondary English continues to help teachers integrate the lenses of contemporary literary theory into practices that have always defined good pedagogy. The most significant change for this edition is the addition of Critical Race Theory (CRT) as an analytical lens. CRT offers teachers fresh opportunities for interdisciplinary planning and teaching, as it lends itself to lessons that encompass a variety of disciplines such as history, sociology, psychology, and science. As with the previous edition, each chapter concludes with a list of suggested nonfiction pieces that work well for the particular lens under discussion. This popular text provides a comprehensive approach to incorporating nonfiction and informational texts into the literature classroom with new and revised classroom activities appropriate for today’s students. Book Features: Helps both pre- and inservice ELA teachers introduce contemporary literary theory into their classrooms. Offers lucid and accessible explications of contemporary literary theory. Provides dozens of innovative and field-tested classroom activities. Tackles the thorny issue of Critical Race Theory in helpful and practical ways. Praise for the Third Edition “What a smart and useful book! It provides teachers with a wealth of knowledge and material to help their students develop critical perspective and suppleness of thought.” —Mike Rose, University of California, Los Angeles “This Third Edition proves that Appleman still has her hand on the pulse of the rapidly changing landscape of education.” —Ernest Morrell, Teachers College, Columbia University “This new edition of Deborah Appleman’s now classic book demonstrates even more dramatically than previously how the critical theories she so skillfully

teaches serve not only as lenses for the reading of literature, but as tools for discovering, interrogating, and challenging injustice, hypocrisy, and the hidden power relations that students are likely to encounter.” —Sheridan Blau, Teachers College, Columbia University
