REIS - Abril/Junio 2000 ,

Planificación del desarrollo Ruth Saavedra Guzmán,2001 Fundamentos conceptuales y metodológicos de la planificación, la cultura de la planificación, la institucionalización del proceso de planificación en Colombia y en busca de un nuevo sistema de planificación en Colombia son los cuatro grandes capítulos que desarrollan los autores de este libro; ellos, como especialistas en el tema, aportan sus puntos de vista en forma atractiva, clara y rigurosa. El libro constituye un importante esfuerzo académico de síntesis, cuando en Colombia el objetivo de mantener el agregado y la unidad nacional ha sido relegado para muchos a un segundo plano. Junto a este gran vacío nacional surgen preguntas pertinentes en el siglo XXI: ¿en qué forma debe reacomodarse la planificación nacional en inmundo globalizado? ¿Cuál será el tamaño óptimo de los Estados nacionales y los entes territoriales para mejorar el bienestar social y el manejo eficiente de los recursos? Edgar Revéiz, autor del prólogo de esta publicación concluye: El empoderamiento de las comunidades será cada vez más un objetivo de la planificación, tanto en el orden nacional como e el local Ver Tabla de contenido.

El derecho humano al desarrollo frente a la mundialización del mercado Nicolás Angulo Sánchez,2005 In seven chapters the author purports to explain development in terms of a human right. A separate generation so to speak of human rights similar to those of the environment, of peace, towards humanitarian help and a universal heritage within an international juridical framework.

Carolina,Guerrero Pardo, Mónica Julieth,2023-04-30 La sociología del individuo se ha propuesto analizar cómo se construye histórica y estructuralmente un cierto tipo de individuo en una sociedad dada. Y ya que la condición social moderna y contemporánea debe entenderse como una experiencia cada vez más singular, estructurada por una sociedad cuya ideología social es el individualismo, este libro espera abrir un espacio discusión y de comprensión a nuevas realidades colombianas y latinoamericanas, en las que se viven las experiencias sociales individuales y el individualismo de nuestros tiempos. Así, se presentan un conjunto de aproximaciones de distinta índole, a partir de las cuales se aborda de manera conjunta la problemática del individuo, tanto desde aspectos estructurales como desde aspectos subjetivos, que evidencian las maneras complejas que en diferentes momentos y contextos sociales se produce y autogestionan los individuos, denotando las peculiaridades, así como los contornos y configuraciones de las pruebas y soportes sociales que se han constituido en tales contextos.

Los Recursos Naturales de la Región de Murcia Miguel A. Esteve Selma, Mercedes Lloréns Pascual del Riquelme,2003 El planteamiento de esta obra ha huido expresamente de las clasificaciones tradicionales de recursos naturales, como las ligadas a su renovabilidad o capacidad de un recurso natural para regenerarse o no en un tiempo dado. Estas clasificaciones que caracterizan o individualizan los recursos uno a uno, aunque muy útiles en muchos aspectos, suelen presentar algunos problemas cuando se profundiza conceptualmente, ya que la mayor parte de los recursos renovables, como todos los biológicos, pueden dejar de serlo por sobreexplotación, a partir de un determinado umbral, o los no renovables, como muchos minerales, pueden mostrar rasgos de renovabilidad inducidos por un reciclaje activo. El libro describe algunos recursos naturales clásicos como el agua, la energía o los minerales que tienen un tratamiento individualizado por distintas razones, pero basa la mayor parte de su contenido en describir sistemas de recursos, como los sistemas agrarios, los forestales o los costeros. El libro se articula en dos partes. En primer lugar se estudian los contextos: naturales (físicos y biológicos), humanos (la población y su hábitat) y económicos (la naturaleza económica de los recursos naturales), que condicionan el tipo, uso y conservación de los recursos en la Región de Murcia. En la segunda parte del libro se realiza un análisis de los recursos naturales, incluyéndose: el agua, como recurso primordial en zonas áridas y semiáridas; otros recursos físicos de carácter estratégico como son los energéticos y mineros, y tres sistemas de recursos naturales, sujetos a aprovechamientos característicos como son los sistemas agrarios, los forestales y el litoral y el medio marino. Para finalizar con un capítulo que introduce en las técnicas actuales de evaluación y seguimiento del Medio Natural mediante Teledetección y Sistemas de Información Geográfica

ECONOMÍA CIRCULAR, ECO-INNOVACIÓN Y CAPITAL HUMANO EN EL SECTOR HOTELERO DE LA FRONTERA NORTE DE MÉXICO Elena Aguilar Esparza, Isaac Leobardo Sánchez Juárez, Rosa María García Almada, 2023-11-08 La economía circular es una alternativa para atenuar el impacto ambiental negativo de la actividad humana sin afectar la conquista de la prosperidad económico-social. El reto para las empresas consiste en implementar estrategias para su transformación en organizaciones sostenibles. En este tenor, resulta indispensable la participación del capital humano de gerentes y empleados para impulsarlas mediante acciones eco-innovadoras. En este libro los autores se enfocan en el sector hotelero de dos importantes ciudades de la frontera norte de México: Tijuana y Juárez. El problema que identifican es el bajo nivel de eco-innovación en las empresas medianas para la adopción de estrategias que se alinean con la economía circular. La investigación que se reporta se centró en la percepción de los gerentes para explicar el efecto del capital humano (gerentes y empleados) sobre la eco-innovación y la economía circular. A través de un enfoque mixto, econométrico e interpretativo fenomenológico, se encontró que la formación académica, experiencia, antigüedad y actitudes ambientales de los gerentes favorecen la gestión de la eco-innovación y son fortalezas para adquirir nuevos conocimientos que impulsen estrategias circulares en las empresas. Respecto al capital humano de los empleados, se reconocen sus capacidades, creatividad y potencial para alinearse al modelo circular y junto con su experiencia en el giro hotelero, antigüedad, capacitación y comprensión de las políticas ambientales, impactan positivamente sobre la eco-innovación en procesos, en los cuales se cuidan los recursos a la vez que se aportan beneficios para las empresas y el ambiente. Esta obra aporta nuevos conocimientos sobre la economía circular en el sector hotelero de la frontera norte de México, propone integrar en las empresas un capital humano sostenible, especializado en eco-innovaciones y economía circular a través de la educación formal e informal, lo que redundaría en beneficios económicos, sociales y ambientales. Como es natural, también destaca la importante participación del gobierno para impulsar, difundir y formular los lineamientos sobre la economía circular en dicho sector.

Persona, no consumidor Javier Rovira, 2017-04-24 ¿Es usted fan de algún equipo de fútbol? ¿Le gustan los desfiles de moda? ¿Disfruta una buena charla con sus amigos o amigas? ¿Es un friki de La guerra de las galaxias? ¿De Harry Potter? ¿De Juego de tronos? ¿Ha pensado alguna vez que le gustaría ser un elfo? ¿Se emociona en cierto tipo de ceremonias? ¿Es de los que se pone una copa de vino y música para cocinar? Todos estos comportamientos y muchos más, son la expresión cultural

actual de conductas equivalentes que se han dado desde tiempo inmemorial. Miles de años después de haber nacido como especie y a pesar de lo tecnológicos que nos consideremos, seguimos manteniendo nuestras palancas de actuación más primitivas y tribales. En este libro se ofrece una introducción a una visión evolutiva de la persona y se propone hacer una revisión imprescindible del comportamiento del consumidor, para convertirlo en el de la persona como consumidor incorporando, en la necesaria evolución de los modelos, lo que las técnicas y las nuevas disciplinas nos van mostrando. Al hacerlo no queda más remedio que partir de lo que nos debe guiar, que ya no debe ser el consumidor, porque éste es, meramente, un rol de algo mucho más grande y complejo: la persona.

Plenitud Sharon Watkins, 2015-05-29 **C**ómo llevamos el evangelio liberador de Jesús al mundo hoy? La líder nacional Sharon Watkins nos dice que envuelve unirnos alrededor de las diferencias, misericordia y apertura. Lo que en realidad importa es la relación con el Dios vivo y amoroso; un Dios que nos llama a amarnos unos a los otros, a crear comunidades para cuidar y equiparnos para la plenitud de modo que el amor y la esperanza que conocemos por medio de nuestra relación con Cristo pueda verdaderamente ser llevada desde nuestras puertas hasta los últimos confines de la tierra.
