Challenge them! What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships - and you'd be wrong. Matthew Dixon, Brent Adamson, and their colleagues at CEB have studied the performance of thousands of sales reps worldwide. Their conclusion? The best salespeople don't just build relationships with customers. They challenge them. Any sales rep, once equipped with the tools in this book, can drive higher levels of customer loyalty and, ultimately, greater growth. **The Challenger Customer** Brent Adamson, Matthew Dixon, Pat Spenner, Nick Toman, 2015-09-08 Four years ago, the bestselling authors of *The Challenger Sale* overturned decades of conventional wisdom with a bold new approach to sales. Now their latest research reveals something even more surprising: Being a Challenger seller isn't enough. Your success or failure also depends on who you challenge. Picture your ideal customer: friendly, eager to meet, ready to coach you through the sale and champion your products and services across the organization. It turns out that's the last person you need. Most marketing and sales teams go after low-hanging fruit: buyers who are eager and have clearly articulated needs. That's simply human nature; it's much easier to build a relationship with someone who always makes time for you, engages with your content, and listens attentively. But according to brand-new CEB research—based on data from thousands of B2B marketers, sellers, and buyers around the world—the highest-performing teams focus their time on potential customers who are far more skeptical, far less interested in meeting, and ultimately agnostic as to who wins the deal. How could this be? The authors of *The Challenger Customer* reveal that high-performing B2B teams grasp something that their average-performing peers don't: Now that big, complex deals increasingly require consensus among a wide range of players across the

organization, the limiting factor is rarely the salesperson's inability to get an individual stakeholder to agree to a solution. More often it's that the stakeholders inside the company can't even agree with one another about what the problem is. It turns out only a very specific type of customer stakeholder has the credibility, persuasive skill, and will to effectively challenge his or her colleagues to pursue anything more ambitious than the status quo. These customers get deals to the finish line far more often than friendlier stakeholders who seem so receptive at first. In other words, Challenger sellers do best when they target Challenger customers. The Challenger Customer unveils research-based tools that will help you distinguish the Talkers from the Mobilizers in any organization. It also provides a blueprint for finding them, engaging them with disruptive insight, and equipping them to effectively challenge their own organization.

**The Effortless Experience** Matthew Dixon,Nick Toman,Rick DeLisi,2013-09-12 Everyone knows that the best way to create customer loyalty is with service so good, so over the top, that it surprises and delights. But what if everyone is wrong? In their acclaimed bestseller *The Challenger Sale*, Matthew Dixon and his colleagues at CEB busted many longstanding myths about sales. Now they've turned their research and analysis to a new vital business subject—customer loyalty—with a new book that turns the conventional wisdom on its head. The idea that companies must delight customers by exceeding service expectations is so entrenched that managers rarely even question it. They devote untold time, energy, and resources to trying to dazzle people and inspire their undying loyalty. Yet CEB's careful research over five years and tens of thousands of respondents proves that the “dazzle factor” is wildly overrated—it simply doesn't predict repeat sales, share of wallet, or positive word-of-mouth. The reality: Loyalty is driven by how well a company delivers on its basic promises and solves day-to-day problems, not on how spectacular its service experience might be. Most customers don't want to be “wowed”; they want an effortless experience. And they are far more likely to punish you for bad service than to reward you for good service. If you put on your customer hat rather than your manager or marketer hat, this makes a lot of sense. What do you really want from your cable company, a free month of HBO when it screws up or a fast, painless restoration of your connection? What about your bank—do you want free cookies and a cheerful smile, even a personal relationship with your teller? Or just a quick

in-and-out transaction and an easy way to get a refund when it accidentally overcharges on fees? The Effortless Experience takes readers on a fascinating journey deep inside the customer experience to reveal what really makes customers loyal—and disloyal. The authors lay out the four key pillars of a low-effort customer experience, along the way delivering robust data, shocking insights and profiles of companies that are already using the principles revealed by CEB's research, with great results. And they include many tools and templates you can start applying right away to improve service, reduce costs, decrease customer churn, and ultimately generate the elusive loyalty that the "dazzle factor" fails to deliver. The rewards are there for the taking, and the pathway to achieving them is now clearly marked.

**SPIN® -Selling** Neil Rackham, 2020-04-28 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

**Let's Get Real or Let's Not Play** Mahan Khalsa, Randy Illig, 2008-10-30 The new way to transform a sales culture with clarity, authenticity, and emotional intelligence. Too often, the sales process is all about fear. Customers are afraid that they will be talked into making a mistake; salespeople dread being unable to close the deal and make their quotas. No one is happy. Mahan Khalsa and Randy Illig offer a better way. Salespeople, they argue, do best when they focus 100 percent on

helping clients succeed. When customers are successful, both buyer and seller win. When they aren't, both lose. It's no longer sufficient to get clients to buy; a salesperson must also help the client reduce costs, increase revenues, and improve productivity, quality, and customer satisfaction. This book shares the unique FranklinCovey Sales Performance Group methodology that will help readers:

- Start new business from scratch in a way both salespeople and clients can feel good about
- Ask hard questions in a soft way
- Close the deal by opening minds

***ALWAYS BE QUALIFYING*** Darius Lahoutifard, 2023-10-21 In the past few years, companies large and small have called on me to get help with their non-performing sales team. The described symptoms are different from one company to another. Some need more revenue. Others complain about unreliable forecasts, with deals slipping constantly from one quarter to another before being lost or even abandoned a few quarters later. Some CEOs notice unproductive sales teams with an unusually high number of non-quota-carrying people needed in the sales force, hitting the bottom line hard. All these symptoms are related to the same illness: inability to qualify. Since most sales teams put in place organizations including SDR (Sales Development Representatives) or BDR (Business Development Representatives) who qualify leads for Account Managers, there is a wrong unstated assumption, widely spread, that once a lead is qualified, the inside sales or field sales will have to work on them until they are won or lost. Ongoing qualification is often the issue. Qualification is not a binary step of the sales process. Qualification is a mindset and a habit to apply throughout the sales process, from the first call to closing. This book covers both the Why and the How of sales qualification. I was an early sales leader at PTC where the MEDDIC methodology took shape. I am also the founder of MEDDIC Academy, the first platform to bring the qualification methodology online. This book describes the M.E.D.D.I.C. and the MEDDPICC® sales methodology in depth. This is not a book of theories, research, or academic concepts but pure execution techniques with practical recipes. At a high level, MEDDIC is a checklist that helps sales professionals reveal the gaps in an opportunity and execute correctly to fill those gaps and close the deal or drop it early. This book is an excellent complement to the training and workshops we deliver online and in-person globally.

***Behind the Cloud*** Marc Benioff, Carlye Adler, 2009-10-19 How did salesforce.com grow from a start up in a rented apartment into the world's fastest growing software company in less than a decade? For the first time, Marc Benioff, the visionary founder, chairman and CEO of salesforce.com, tells how he and his team created and used new business, technology, and philanthropic models tailored to this time of extraordinary change. Showing how salesforce.com not only survived the dotcom implosion of 2001, but went on to define itself as the leader of the cloud computing revolution and spark a \$46-billion dollar industry, Benioff's story will help business leaders and entrepreneurs stand out, innovate better, and grow faster in any economic climate. In *Behind the Cloud*, Benioff shares the strategies that have inspired employees, turned customers into evangelists, leveraged an ecosystem of partners, and allowed innovation to flourish.

***The Three Value Conversations: How to Create, Elevate, and Capture Customer Value at Every Stage of the***

**Long-Lead Sale** Erik Peterson,Tim Riesterer,Conrad Smith,Cheryl Geoffrion,2015-06-05 The three conversations B2B sale pros must have with customers to control every step of long lead buying cycle The Three Value Conversations provides the tools and methods you need to differentiate you and your solution from the competition, elevate value to the right decision maker, and maximize all sales opportunities across the entire long lead buying cycle. Based on extensive research, the authors' program enables salespeople to articulate value in three essential conversations with the customer: the Differentiation Conversation (creating value), the Justification Conversation (elevating the value to the right level of decision maker), and the Maximization Conversation (capturing that value and maximizing the size of your opportunities).

*The JOLT Effect* Matthew Dixon,Ted McKenna,2022-09-20 From the bestselling co-author of *The Challenger Sale*, a paradigm-shattering approach to overcoming customer indecision and closing more sales In sales, the worst thing you can hear from a customer isn't "no." It's "I need to think about it." When this happens, deeply entrenched business advice says to double down on your efforts to sell a buyer on all the ways they might win by choosing you and your business. But this approach backfires dramatically. Why? Because it completely gets wrong the primary driver behind purchasing decision-making: once purchase intent is established, customers no longer care about succeeding. What they really care about is not failing. For years, sales expert Matthew Dixon has been busting longstanding business myths. Now in *The JOLT Effect*, he and co-author Ted McKenna turn their trademark analysis and latest research to the vital and growing problem of customer indecision—and offer a shocking new approach that turns conventional wisdom on its head. Drawing on a brand-new, first-of-its-kind study of more than two and a half million sales conversations from across industry, they reveal the surprising truth that high-performing sales reps grasp and their average-performing peers don't: only by addressing the customer's fear of failure can you get indecisive buyers to go from verbally committing to actually pulling the trigger. Packed with robust data, counterintuitive insights, and practical guidance, *The JOLT Effect* is the playbook for any salesperson or sales leader who wants to close the gap between customer intent and action—and close more sales.

**Insight Selling** Mike Schultz,John E. Doerr,2014-04-30 What do winners of major sales do differently than the sellers who almost won, but ultimately came in second place? Mike Schultz and John Doerr, bestselling authors and world-renowned sales experts, set out to find the answer. They studied more than 700 business-to-business purchases made by buyers who represented a total of \$3.1 billion in annual purchasing power. When they compared the winners to the second-place finishers, they found surprising results. Not only do sales winners sell differently, they sell radically differently, than the second-place finishers. In recent years, buyers have increasingly seen products and services as replaceable. You might think this would mean that the sale goes to the lowest bidder. Not true! A new breed of seller—the insight seller—is winning the sale with strong prices and margins even in the face of increasing competition and commoditization. In *Insight Selling*, Schultz and Doerr share the surprising results of their research on what sales winners do differently, and outline exactly

what you need to do to transform yourself and your team into insight sellers. They introduce a simple three-level model based on what buyers say tip the scales in favor of the winners: Level 1 Connect. Winners connect the dots between customer needs and company solutions, while also connecting with buyers as people. Level 2 Convince. Winners convince buyers that they can achieve maximum return, that the risks are acceptable, and that the seller is the best choice among all options. Level 3 Collaborate. Winners collaborate with buyers by bringing new ideas to the table, delivering new ideas and insights, and working with buyers as a team. They also found that much of the popular and current advice given to sellers can damage sales results. Insight Selling is both a strategic and tactical guide that will separate the good advice from the bad, and teach you how to put the three levels of selling to work to inspire buyers, influence their agendas, and maximize value. If you want to find yourself and your team in the winner's circle more often, this book is a must-read.

The 48 Laws of Power Robert Greene, 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature* In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**Selling Above and Below the Line** William Miller, 2015-02-11 Most salespeople work hard to become proficient in reaching the frontline managers in their markets. However, a salesperson who wishes to achieve long-lasting success with a client will learn how to also appeal to top-level executives from an "above the line" perspective. Master sales trainer Skip Miller shows how to simultaneously sell to both the frontline manager as well as the executive who is more concerned with profit/loss indicators such as ROI, time saved, risk lowered, and productivity improved - a strategy used by Google, Apple, Cisco WebEx, and other powerhouses. In *Selling Above and Below the Line*, you will learn how to: Create energy by including executives early in the sales process. Ask the right questions and pinpoint big-picture financial needs. Keep "below the line" managers from feeling bypassed. Uncover value propositions that target each set of decision-makers. Sales that seem locked in will stall or go dark. Customers who have been loyal to you suddenly back out of the relationship due to decisions made above the manager's head. This often could have been avoided had the salesperson been intentional to sell both the technical and financial fit. In *Selling Above and Below the Line*, learn to effectively communicate both, leading to more successful and

lucrative deals than ever before.

Jenkins, Signature Client Vice President, AT&T Global Enterprise Solutions “There are things that can be managed in a sales force, and there are things that cannot.
