Gender in a Transitional Era Amanda R. Martinez, Lucy J. Miller, 2014-12-23 Gender in a Transitional Era addresses a range of issues relevant in current gender and sexuality studies scholarship which span many disciplines. The contributors prioritize the critical thinking that continues to support the notion that we, as a society, still have a way to go toward full gender equality in all spheres of life. This collection positions marginal voices at the center of complex gender issues in today's society. Broad thematic topic areas include parental identities, advice, and self-help; gender performances and role expectations in media; interacting within organizational and social spaces; and tensions and negotiations on politics, health, and feminisms. Though there is still much work to be done concerning an array of gender equality issues, scholars in this collection interrogate a transitional era of gender in which changes are evident, yet challenges persist.
