**The Kill Order** James Dashner,2013-12-05 When sun flares hit the Earth, intense heat, toxic radiation and flooding followed, wiping out much of the human race. Those who survived live in basic communities in the mountains, hunting for food. For Mark and his friends, surviving is difficult, and then an enemy arrives, infecting people with a highly contagious virus. Thousands die, and the virus is spreading. Worse, it's mutating, and people are going crazy. It's up to Mark and his friends to find the enemy - and a cure - before the Flare infects them all ...

*The Maze Runner* James Dashner,2009 Sixteen-year-old Thomas wakes up with no memory in the middle of a maze and realizes he must work with the community in which he finds himself if he is to escape.

*The Loop* Ben Oliver,2021-05-04 A terrifying futurescape at the heart-stopping intersection of The Matrix and The Maze Runner, kicking off a trilogy sure to prove dystopian sci-fi still has more to offer. -- Booklist Life inside The Loop--the futuristic death row for teens under eighteen--is one long repetitive purgatory. But when news of the encroaching chaos in the outside world reaches the inmates and disorder begins to strike, the prison becomes the least of their worries. Perfect for fans of The Fifth Wave and The Maze Runner. It's Luka Kane's sixteenth birthday and he's been inside The Loop for over two years. Every inmate is serving a death sentence with the option to push back their execution date by six months if they opt into Delays, scientific and medical experiments for the benefit of the elite in the outside world. But rumors of a war on the outside are spreading amongst the inmates, and before they know it, their tortuous routine becomes disrupted. The government issued rain stops falling. Strange things are happening to the guards. And it's not long until the inmates are left alone inside the prison. Were the chains that shackled Luka to his cell the only instruments left to keep him safe? In a thrilling shift, he must overcome fellow prisoners hell-bent on killing him, the warden losing her mind, the rabid rats in the train tunnels, and a population turned into murderous monsters to try and break out of The Loop, save his family, and discover who is responsible for the chaos that has been inflicted upon the world.

*Woolly* Ben Mezrich,2017-07-04 The bestselling author of The Accidental Billionaires and The 37th Parallel tells the fascinating Jurassic Park-like story of the genetic restoration of an extinct species—the woolly mammoth. “Paced like a

thriller...Woolly reanimates history and breathes new life into the narrative of nature” (NPR). With his “unparalleled” (Booklist, starred review) writing, Ben Mezrich takes us on an exhilarating and true adventure story from the icy terrain of Siberia to the cutting-edge genetic labs of Harvard University. A group of scientists work to make fantasy reality by splicing DNA from frozen woolly mammoth into the DNA of a modern elephant. Will they be able to turn the hybrid cells into a functional embryo and potentially bring the extinct creatures to our modern world? Along with this team of brilliant scientists, a millionaire plans to build the world’s first Pleistocene Park and populate a huge tract of the Siberian tundra with ancient herbivores as a hedge against an environmental ticking time bomb that is hidden deep within the permafrost. More than a story of genetics, this is a thriller illuminating the real-life race against global warming, of the incredible power of modern technology, of the brave fossil hunters who battle polar bears and extreme weather conditions, and the ethical quandary of cloning extinct animals. This “rollercoaster quest for the past and future” (Christian Science Monitor) asks us if we can right the wrongs of our ancestors who hunted the woolly mammoth to extinction and at what cost?

*Maze Runner: The Scorch Trials* Jackson Lanzing, Collin P Kelly, 2015-06-23 Escaping the Maze was only the beginning. The world thought it had seen the worst after the Sun Flares struck the Earth’s surface, and millions of people were killed. But then an unstoppable illness ravaged the bodies and minds of the remaining survivors. Simply known as the Flare, the disease seemed unstoppable until a cure was discovered, but that relief came at a human cost. Now it's up to Thomas, Teresa and the others, who will discover that while they may have escaped the Maze, they've entered into an experiment more terrifying than anything they could imagine. Explore how the terrifying W.C.K.D. came to be, and how the very first Maze was designed. Discover what it takes to survive in a post-Flare world, against the violent Cranks that have begun to take over humanity, only to learn that the Glade may not be the only Maze W.C.K.D. was running. With over 6.5 million books in print, and an international hit film series, it’s plain to see fans lost themselves in James Dashner’s bestselling series. Featuring an introduction from Dashner himself, this collection of all new short stories reveals the hidden histories of your favorite Gladers, including Aris, Ava Paige, and Mary Cooper before *The Scorch Trials* hits theaters on September 18.

*The Maze Runner* James Dashner, 2013-12-05 When the doors of the lift crank open, the only thing Thomas remembers is his first name. But he's not alone. He's surrounded by boys who welcome him to the Glade - a walled encampment at the centre of a bizarre and terrible stone maze. Like Thomas, the Gladers don't know why or how they came to be there - or what's happened to the world outside. All they know is that every morning when the walls slide back, they will risk everything - even the Grievers, half-machine, half-animal horror that patrol its corridors, to try and find out.

*A Maze of Death* Philip K. Dick, 2013 A Maze of Death is a sci-fi murder mystery set on a mysterious planet, with a twist ending that leaves the reader wondering just what they've been witnessing the whole time.

*The Boys in the Boat* Daniel James Brown, 2013-06-04 Now a Major Motion Picture Directed by George Clooney The #1

New York Times–bestselling story about the American Olympic rowing triumph in Nazi Germany—from the author of *Facing the Mountain*. For readers of *Unbroken*, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington’s eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys’ own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man’s personal quest.

**Sex on the Moon** Ben Mezrich, 2011-07-14 Thad Roberts, a fellow in a prestigious NASA programme had an idea - a romantic, albeit crazy, idea. He wanted to give his girlfriend the moon. Literally. Thad convinced his girlfriend and another female accomplice, both NASA interns, to break into an impenetrable laboratory at NASA's headquarters - past security checkpoints, and electronically locked door with cipher security codes and camera-lined hallways - and help him steal the most precious objects in the world: Apollo moon rocks from every moon landing in history. Was Thad Roberts - undeniably gifted, picked for one of the most competitive scientific posts imaginable - really what he seemed? And what does one do with an item so valuable that it's illegal even to own? Based on meticulous research into thousands of pages of court records, FBI transcripts and documents, and scores of interviews with the people involved, Mezrich - with his signature high-velocity swagger - has reconstructed the madcap story of genius, love, and duplicity all centred on a heist that reads like a Hollywood thrill ride.
