

Globalization A Very Short Introduction Very Short Introductions

Manfred B. Steger

Globalization Manfred B. Steger,2020 'Globalization' is one of the defining buzzwords of our time, describing a variety of accelerating economic, political, and cultural processes that constantly change our experience of the world. This book provides an exploration of both the causes and effects of the phenomenon.

World Music: A Very Short Introduction Philip V. Bohlman,2002-05-30 'World music' emerged as an invention of the West from encounters with other cultures. This book draws readers into a remarkable range of these historical encounters, in which music had the power to evoke the exotic and to give voice to the voiceless. In the course of the volume's eight chapters the reader witnesses music's involvement in the modern world, but also the individual moments and particular histories that are crucial to an understanding of music's diversity. World Music is wide-ranging in its geographical scope, yet individual chapters provide in-depth treatments of selected music cultures and regional music histories. The book frequently zooms in on repertoires and musicians - such as Bob Marley, Bartok, and Nusrat Fateh Ali Khan - and attempts to account for world music's growing presence and popularity at the beginning of the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Neoliberalism: A Very Short Introduction Manfred B. Steger,Ravi K. Roy,2010-01-21 In its heyday in the late 1990s, neoliberalism emerged as the world's dominant economic paradigm. But the global financial crisis of 2008-9 fundamentally shocked a globalized economy built on neoliberal assumptions. This VSI examines the origins, core claims, and considerable variations of neoliberalism with examples from around the world.

Globalization: A Very Short Introduction Manfred B. Steger,2020-05-28 We live today in an interconnected world in which ordinary people can become instant online celebrities to fans thousands of miles away, in which religious leaders can influence millions globally, in which humans are altering the climate and environment, and in which complex social forces intersect across continents. This is globalization. In the fifth edition of his bestselling Very Short Introduction Manfred B.

Steger considers the major dimensions of globalization: economic, political, cultural, ideological, and ecological. He looks at its causes and effects, and engages with the hotly contested question of whether globalization is, ultimately, a good or a bad thing. From climate change to the Ebola virus, Donald Trump to Twitter, trade wars to China's growing global profile, Steger explores today's unprecedented levels of planetary integration as well as the recent challenges posed by resurgent national populism. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Marketing Kenneth Le Meunier-FitzHugh, 2021 This book outlines the nature of contemporary marketing, considering how marketers function as an interface between customers and organisations. As globalisation creates increasing challenges to established marketing practices it shows how marketing efforts need to adapt continuously to allow an organisation to reach its intended market.

Global Economic History: A Very Short Introduction Robert C. Allen, 2011-09-15 Why are some countries rich and others poor? In 1500, the income differences were small, but they have grown dramatically since Columbus reached America. Since then, the interplay between geography, globalization, technological change, and economic policy has determined the wealth and poverty of nations. The industrial revolution was Britain's path breaking response to the challenge of globalization. Western Europe and North America joined Britain to form a club of rich nations by pursuing four policies-creating a national market by abolishing internal tariffs and investing in transportation, erecting an external tariff to protect their fledgling industries from British competition, banks to stabilize the currency and mobilize domestic savings for investment, and mass education to prepare people for industrial work. Together these countries pioneered new technologies that have made them ever richer. Before the Industrial Revolution, most of the world's manufacturing was done in Asia, but industries from Casablanca to Canton were destroyed by western competition in the nineteenth century, and Asia was transformed into 'underdeveloped countries' specializing in agriculture. The spread of economic development has been slow since modern technology was invented to fit the needs of rich countries and is ill adapted to the economic and geographical conditions of poor countries. A few countries - Japan, Soviet Russia, South Korea, Taiwan, and perhaps China - have, nonetheless, caught up with the West through creative responses to the technological challenge and with Big Push industrialization that has achieved rapid growth through investment coordination. Whether other countries can emulate the success of East Asia is a challenge for the future. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and

challenging topics highly readable.

The BRICS Andrew Fenton Cooper,2016 Brazil, Russia, India, China and South Africa represent almost 18 per cent of the world economy, with their contribution to world growth having already exceeded 50 per cent. But what does the emergence of the BRICS mean for global politics? Andrew Cooper discusses the BRICS as a concept and its practice in global politics.

International Relations: A Very Short Introduction Paul Wilkinson,2007-07-26 Covers topics such as foreign policy, the world economy, and globalization, showing how many disciplines come together in the study of international events. This book explains the theories underlying the subject of International Relations and uses them to investigate issues of foreign policy, arms control, the environment, and world poverty.

The Welfare State David Garland,2016 This Very Short Introduction discusses the necessity of welfare states in modern capitalist societies. Situating social policy in an historical, sociological, and comparative perspective, David Garland brings a new understanding to familiar debates, policies, and institutions.

Modern Drama Kirsten Shepherd-Barr,2016 This book tells the story of modern drama through its seminal, groundbreaking plays and performances, and the artistic diversity that these represent. Exploring the new note of artistic hostility between dramatists and their audience, Shepherd-Barr draws on a range of theories and performances to reveal what makes modern drama modern.

Forests Jaboury Ghazoul,2015 Forests have been entwined with human development and cultural history for centuries. In this Very Short Introduction Jaboury Ghazoul explores their origins, dynamics, and the range of goods and services they provide to human society, as well as looking at issues of deforestation, reforestation, and the effects of climate change.

Fashion: A Very Short Introduction Rebecca Arnold,2009-10-22 Fashion is a global industry, and plays a role in our economic, political, cultural, and social lives. However, fashion is often denigrated as trivial and superficial, a sign of vanity and narcissism. This Very Short Introduction will give a clear understanding of how fashion has developed while addressing these divergent views.

Journalism Ian Hargreaves,2014-08-28 Journalism entered the twenty-first century caught in a paradox. The world had more journalism, across a wider range of media, than at any time since the birth of the western free press in the eighteenth century. Western journalists had found themselves under a cloud of suspicion: from politicians, philosophers, the general public, anti-globalization radicals, religious groups, and even from fellow journalists. Critics argued that the news industry had lost its moral bearings, focusing on high investment returns rather than reporting and analysing the political, economic, and social issues of the day. Journalism has a central and profound impact on our worldview; we find it everywhere from newspapers and television, to radio and the Internet. In the new edition of this thought-provoking and provocative Very Short Introduction, Ian Hargreaves examines the world of contemporary journalism. By looking not only at what journalism has

been in the past, but also what it is becoming in the digital age, he examines the big issues relating to reportage, warfare, celebrity culture, privacy, and technology worldwide. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Governance: A Very Short Introduction Mark Bevir, 2012-10-25 Generally referring to all forms of social coordination and patterns of rule, the term 'governance' is used in many different contexts. In this Very Short Introduction, Mark Bevir explores the main theories of governance and considers their impact on ideas of governance in the corporate, public, and global arenas.

International Migration Khalid Koser, 2007-02-22 This Very Short Introduction examines the phenomenon of international human migration - both legal and illegal. Taking a global look at politics, economics, and globalization, the author presents the human side of topics such as asylum and refugees, human trafficking, migrant smuggling, development, and the international labour force.

Public Health: A Very Short Introduction Virginia Berridge, 2017-04-06 Public health is a term much used in the media, by health professionals, and by activists. At the national or the local level there are ministries or departments of public health, whilst international agencies such as the World Health Organisation promote public health policies, and regional organisations such as the European Union have public health funding and policies. But what do we mean when we speak about 'public health'? In this Very Short Introduction Virginia Berridge explores the areas which fall under the remit of public health, and explains how the individual histories of different countries have come to cause great differences in the perception of the role and responsibilities of public health organisations. Thus, in the United States litigation on public health issues is common, but state involvement is less, while some Scandinavian countries have a tradition of state involvement or even state ownership of industries such as alcohol in connection with public health. In its narrowest sense, public health can refer to the health of a population, the longevity of individual members, and their freedom from disease, but it can also be anticipatory, geared to the prevention of illness, rather than simply the provision of care and treatment. In the way public health deals with healthy as well as sick people it is therefore a separate concept from health services, which deal with the sick population. Drawing on a wide range of international examples, Berridge demonstrates the central role of history to understanding the amorphous nature of public health today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Theology: A Very Short Introduction David Ford,2013-10-24 This is an introduction to the subject of academic theology. Its basic approach is interrogative, raising key questions so as to lead into a range of selected topics such as knowledge community, salvation, God, prayer and evil.

Universities and Colleges: A Very Short Introduction David Palfreyman,Paul Temple,2017-12-28 What is a university? What is the University? How have universities evolved over the centuries? How might they change over the coming decades as the physical and organisational entity most identified with 'higher education' being delivered to over 250 million students? What will be the impact of digital- and distance-learning, of commercial for-profit new entrants to the higher education market, of government austerity, of globalization, of student consumerism? Exploring the origins and the concept, the idea and the ideal, of the university, this Very Short Introduction discusses one of the world's oldest, most resilient, and most adaptable institutions. David Palfreyman and Paul Temple consider the links between universities and the economy, and the role of universities within society. Highlighting some of the key questions surrounding the position of universities, they ask how the university can be politically accountable for its taxpayer funding, if it needs to be autonomous to function effectively as a public good. Are professors professional enough in their teaching practices at a time that increasing tuition fees transform students more and more into consumers? And just what does 'academic freedom' for university faculties really entail? ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Nationalism Steven Grosby,2005-09-08 This book examines the political and moral challenges that face the vast majority of human beings who consider themselves to be members of various nations. It explores nationality through the difficulties and conflicts that have arisen throughout history, and discusses nations and nationalism from social, philosophical, and anthropological perspectives. In this fascinating Very Short Introduction, Steven Grosby looks at the nation in history, the territorial element in nationality, and the complex ways nationality has co-existed with religion, and shows how closely linked the concept of nationalism is with being human. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Light Ian A. Walmsley,2015 Introduces readers to the basic properties of light--reflection and refraction, polarization, and interference--before moving on to how light is generated, its role in relativity, and quantum effects it exhibits.--Inside front cover.

Thank you definitely much for downloading **Globalization A Very Short Introduction Very Short Introductions**. Most likely you have knowledge that, people have look numerous time for their favorite books next this Globalization A Very Short Introduction Very Short Introductions, but stop happening in harmful downloads.

Rather than enjoying a good book subsequent to a mug of coffee in the afternoon, instead they juggled behind some harmful virus inside their computer. **Globalization A Very Short Introduction Very Short Introductions** is genial in our digital library an online entrance to it is set as public so you can download it instantly. Our digital library saves in multiple countries, allowing you to get the most less latency epoch to download any of our books subsequently this one. Merely said, the Globalization A Very Short Introduction Very Short Introductions is universally compatible following any devices to read.
