Vodou Songs in Haitian Creole and English Benjamin Hebblethwaite, Joanne Bartley, 2012 Vodou songs constitute the living memory of Haitian Vodou communities, and song texts are key elements to understanding Haitian culture. Vodou songs form a profound religious and cultural heritage that traverses the past and refreshes the present. Offering a one-of-a-kind research tool on Vodou and its cultural roots in Haiti and pre-Haitian regions, *Vodou Songs in Haitian Creole and English* provides a substantial selection of hard to find or unpublished sacred Vodou songs in a side-by-side bilingual format. Esteemed scholar Benjamin Hebblethwaite introduces the language, mythology, philosophy, origins, and culture of Vodou through several chapters of source songs plus separate analytical chapters. He guides readers through songs, chants, poems, magical formulae, invocations, prayers, historical texts and interviews, as well as Haitian Creole grammar and original sacred literature. An in-depth dictionary of key Vodou terms and concepts is also provided. This corpus of songs and the research about them provide a crucial understanding of the meaning of Vodou religion, language, and culture.

English-Haitian Creole Bilingual Dictionary Albert Valdman, Marvin D. Moody, Thomas E. Davies, 2017-04-06 Haitian Creole (HC) is spoken by approximately 11,000,000 persons in Haiti and in diaspora communities in the United States and

throughout the Caribbean. Thus, it is of great utility to Anglophone professionals engaged in various activities—medical, social, educational, welfare— in these regions. As the most widely spoken and best described creole language, a knowledge of its vocabulary is of interest and utility to scholars in a variety of disciplines. The English-Haitian Creole Bilingual Dictionary (EHCBD) aims to assist anglophone users in constructing written and oral discourse in HC; it also will aid HC speakers to translate from English to their language. As the most elaborate and extensive linguistic tool available, it contains about 30 000 individual entries, many of which have multiple senses and include subentries, multiword phrases or idioms. The distinguishing feature of the EHCBD is the inclusion of translated sentence-length illustrative examples that provide important information on usage.

Dictionary of Louisiana French Albert Valdman, Kevin James Rottet, 2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Haitian Creole Albert Valdman, 2015 Haitian Creole is the creole language with the largest number of speakers: about ten

million in Haiti and two million in diaspora communities in North American, France, and the Caribbean, including the Dominican Republic, Cuba, and the French overseas departments. Haitian Creole presents a comprehensive view of the structure and development of Haitian Creole. It provides a detailed analysis of the phonology and grammar of the language and points out key differences between these two fundamental aspects of the language and corresponding features of French, its original target language. The book contains a detailed description of the productive strategies of vocabulary development and deals with the origin of Haitian Creole, as well as its relationship to the other French-based creoles in Louisiana, the Caribbean, French Guiana, and the Indian Ocean. A signal innovation with regard to other descriptions of the language is the treatment of linguistic variation, both in geographical dialects and variation as determined by social factors, as well as the presentation of earlier forms of Haitian Creole, as attested by texts from the Colonial period. Another major contribution is the discussion of language planning and related issues concerning the use of Haitian Creole in education and its status relative to French, the other officially recognized language of Haiti.
