Venice Martin Garrett,2001 Martin Garrett explores the extraordinary history, art and architecture of Venice and the islands of the lagoon. Looking at the legacy of the city's Jewish, Greek, Slav and Armenian minorities, he recalls the exploits of such legendary figures as Casanova and Byron. He also assesses the successful struggle to preserve the city in the face of flood and corruption, and its important modern role as host of the Biennale and film festival. MARTIN GARRETT is the author of literary companions to Italy and Greece, and has written or edited a number of works on Renaissance and nineteenth-century writers, including Sidney, Byron and the Brownings

Experiencing the Last Judgement Niamh Bhalla,2021-09-30 Experiencing the Last Judgement opens up new ways of understanding a Byzantine image type that has hitherto been considered largely uniform in its manifestations and to a great extent frightening, coercive and paralysing. It moves beyond a purely didactic understanding of the Byzantine image of the Last Judgement, as a visual eschatological text to be 'read' and learned from, and proposes instead an appreciation of each unique image as a dynamic site to be experienced. Paintings, icons and mosaics from the tenth to the fourteenth century, from inside and outside of the Byzantine Empire, are placed within their specific socio-historical milieus, their immediate decorative programmes and their architectural contexts to demonstrate that each unique image constituted a carefully orchestrated and immersive experience of judgement. Each case study outlines the differences that exist in reality between these images that are often subsumed under one iconographic label, making a case against condensing dynamic, lived images into apparently static pictorial 'types'. Images of the Last Judgement needed the body, mind and memory of the viewer for the creation of meaning, and so the experience of these images was unavoidably spatial, gendered, corporeal, mnemonic, emotional, rhetorical and most often liturgical. Unpacking Byzantine images of judgement in light of these various facets of experience for the first time helps to elucidate the interaction of past individuals with the image, and the ways in which such encounters were intended to benefit the communities that made and lived alongside them.

A Companion to Music in Sixteenth-Century Venice ,2017-12-18 This book offers an overview of all facets of musical life in sixteenth-century Venice. It addresses the city's institutions (churches, confraternities, and academies) against the

background of public and private occasions of music making. Supported by a generous collection of archival, literary, and iconographical sources, it treats both ceremonial life in the Serenissima and private forms of patronage. The Companion also addresses the dense web of musical activity (from chapel masters and singers to instrumentalists and instrument makers to music printers and theorists) and the rich variety of styles and musical genres (the frottola, the madrigal, motets and masses, instrumental music, polychoral music, Venetian-language polyphony), broadening the geographical perspective beyond the Veneto to Istria and Dalmatia. Contributors are Rodolfo Baroncini, Sherri Bishop, Bonnie J. Blackburn, David Bryant, Ivano Cavallini, Paolo Da Col, Daniel Donnelly, Rebecca Edwards, Iain Fenlon, Jonathan Glixon, Don Harrán (†), Jeffrey Kurtzman, Giulio M. Ongaro, Francesco Passadore, Elena Quaranta, Katelijne Schiltz, Eleanor Selfridge-Field, and Giovanni Zanovello.

Donor Portraits in Byzantine Art Rico Franses, 2018-11-15 Explores the complex relationship between art and religious belief in this important genre of painting.

The Fifth Act Elliot Ackerman, 2022-08-09 “The American betrayal of Afghanistan took twenty years. Elliot Ackerman, a participant and witness, tells the story with unsparing honesty in this intensely personal chronicle.” —George Packer A powerful and revelatory eyewitness account of the American collapse in Afghanistan, its desperate endgame, and the war’s echoing legacy Elliot Ackerman left the American military ten years ago, but his time in Afghanistan and Iraq with the Marines and later as a CIA paramilitary officer marked him indelibly. When the Taliban began to close in on Kabul in August 2021 and the Afghan regime began its death spiral, he found himself pulled back into the conflict. Afghan nationals who had worked closely with the American military and intelligence communities for years now faced brutal reprisal and sought frantically to flee the country with their families. The official US government evacuation effort was a bureaucratic failure that led to a humanitarian catastrophe. With former colleagues and friends protecting the airport in Kabul, Ackerman joined an impromptu effort by a group of journalists and other veterans to arrange flights and negotiate with both Taliban and American forces to secure the safe evacuation of hundreds. These were desperate measures taken during a desperate end to America's longest war. For Ackerman, it also became a chance to reconcile his past with his present. The Fifth Act is an astonishing human document that brings the weight of twenty years of war to bear on a single week, the week the war ended. Using the dramatic rescue efforts in Kabul as his lattice, Ackerman weaves a personal history of the war's long progression, beginning with the initial invasion in the months after 9/11. It is a play in five acts, the fifth act being the story’s tragic denouement, a prelude to Afghanistan's dark future. Any reader who wants to understand what went wrong with the war’s trajectory will find a trenchant account here. But The Fifth Act also brings readers into close contact with a remarkable group of characters, American and Afghan, who fought the war with courage and dedication, and at great personal cost. Ackerman's story is a first draft of history that feels like a timeless classic.

The Glory of Byzantium Metropolitan Museum of Art (New York, N.Y.),1997 Serves as both visual and textual record of the exhibition of the same name, surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261. Conceived as a sequel to the 1976 exhibition Age of Spirituality, which focused on the first centuries of Byzantium. Preceding the catalogue, 17 essays treat the historical context, religious sphere, and secular courtly realm of the empire, and the interactions between Byzantium and other medieval cultures. Abundantly illustrated. Annotation copyrighted by Book News, Inc., Portland, OR

Building Paradise Harry Francis Mallgrave,2021-09-29 A sweeping historical study, Building Paradise seeks to construct a garden ethic for the design arts. It is an ethic predicated on the idea that, with our recent ecological and biological insights, we can build more intelligently than the status quo of current design practices. The paradisiacal instinct is the motivation behind every artistic impulse. From its theological origins to the present, the idea of paradise—the garden as a place of peace, beauty, and happiness—has acquired numerous meanings. It was a motif expounded in the earliest cultures of Mesopotamia, Egypt, and the Indus Valley, and it later became a dominant feature of Buddhist, Judeo-Christian, and Islamic practices. It informed Greco-Roman mythologies and the design of a Japanese garden; it was a motivation for the Renaissance humanists, and was complicit in visions of a New Arcadia within the landscapes of the Americas. This book, underscoring how the built and urban environments shapes culture, takes a biophilic approach and draws upon the major advances of the human sciences of the last few decades to argue on behalf of a design ethic centered squarely on human needs and aspirations. Written for students and academics within architecture and all related fields, this book focuses on the efforts to build paradise in a material way.

Mary of Mercy in Medieval and Renaissance Italian Art KatherineT. Brown,2017-07-05 Mater Misericordiae?Mother of Mercy?emerged as one of the most prolific subjects in central Italian art from the late thirteenth through the sixteenth

centuries. With iconographic origins in Marian cult relics brought from Palestine to Constantinople in the fifth century, the amalgam of attributes coalesced in Armenian Cilicia then morphed as it spread to Cyprus. An early concept of Mary of Mercy?the Virgin standing with outstretched arms and a wide mantle under which kneel or stand devotees?entered the Italian peninsula at the ports of Bari and Venice during the Crusades, eventually converging in central Italy. The mendicant orders adopted the image as an easily recognizable symbol for mercy and aided in its diffusion. In this study, the author's primary goals are to explore the iconographic origins of the Madonna della Misericordia as a devotional image by identifying and analyzing key attributes; to consider circumstances for its eventual overlapping function as a secular symbol used by lay confraternities; and to discuss its diaspora throughout the Italian peninsula, Western Europe, and eastward into Russia and Ukraine. With over 100 illustrations, the book presents an array of works of art as examples, including altarpieces, frescoes, oil paintings, manuscript illuminations, metallurgy, glazed terracotta, stained glass, architectural relief sculpture, and processional banners.

Historic Floors Jane Fawcett,2007-06-01 This is the first book in the UK to be devoted to historic floors. It introduces an important and largely neglected subject and considers conservation methods in a European context. It traces the history of some of the great floors of Europe from the fourth century B.C. and outlines the development of mosaic, tiles, marble and parquet floors in secular buildings. The early Christian pavements in basilicas, temples and cathedrals, the creation of medieval tiles, ledger stones and monumental brasses, their destruction by iconoclasts and re-creation during the Gothic Revival, are also discussed. Leading authorities, archaeologists, architects and archivists consider the latest methods of recording and repairing cathedral floors, including those of cathedrals, country houses, the monumental tiled pavements of the Palace of Westminster and other public buildings. Management policies to protect outstanding floors in over-visited sites are considered and historic features particularly at risk, are identified. Urgent action is recommended to contain the damage caused by the dramatic increase in tourism throughout Europe.

The Icon and the Square Maria Taroutina,2018-11-26 In *The Icon and the Square*, Maria Taroutina examines how the traditional interests of institutions such as the crown, the church, and the Imperial Academy of Arts temporarily aligned with the radical, leftist, and revolutionary avant-garde at the turn of the twentieth century through a shared interest in the Byzantine past, offering a counternarrative to prevailing notions of Russian modernism. Focusing on the works of four different artists—Mikhail Vrubel, Vasily Kandinsky, Kazimir Malevich, and Vladimir Tatlin—Taroutina shows how engagement with medieval pictorial traditions drove each artist to transform his own practice, pushing beyond the established boundaries of his respective artistic and intellectual milieu. She also contextualizes and complements her study of the work of these artists with an examination of the activities of a number of important cultural associations and institutions over the course of several decades. As a result, *The Icon and the Square* gives a more complete picture of Russian modernism: one that attends to the dialogue between generations of artists, curators, collectors, critics, and theorists. *The Icon and the Square* retrieves a neglected but vital history that was deliberately suppressed by the atheist Soviet regime and subsequently ignored in favor of the secular formalism of mainstream modernist criticism. Taroutina's timely study, which coincides with the centennial reassessments of Russian and Soviet modernism, is sure to invigorate conversation among scholars of art history, modernism, and Russian culture.

Byzantine Art and Italian Panel Painting Jaroslav Folda,2015-07-28 Jaroslav Folda traces the appropriation of the Byzantine Virgin and Child Hodegetria icon by thirteenth-century Crusader and central Italian painters and explores its transformation by the introduction of chrysography on the figure of the Virgin in the Crusader Levant and in Italy.

Monuments of Medieval Art Robert G. Calkins,1985 This richly illustrated and scholarly study traces the development of art through the Middle Ages, from the early Christian catacombs of Italy and the treasures of Sutton Hoo to the masterpieces of Romanesque cathedrals and illuminated manuscripts.

The Eloquence of Art Andrea Olsen Lam,Rossitza Schroeder,2020-04-14 For those within the fields of art history and Byzantine studies, Professor Henry Maguire needs no introduction. His publications transformed the way art historians approach medieval art through his insightful integration of rhetoric, poetry and non-canonical objects into the study of Byzantine art. His ground-breaking studies of Byzantine art that consider the natural world, magic and imperial imagery, among other themes, have redefined the ways medieval art is interpreted. From notable monuments to small-scale and privately used objects, Maguire's work has guided a generation of scholars to new conclusions about the place of art and its function in Byzantium. In this volume, 23 of Henry Maguire's colleagues and friends have contributed papers in his honour, resulting in studies that reflect the broad range of his scholarly interests.
