**Rev. Dr. Luonne Abram Rouse**

**Knowledge, Language and Silence** Anna Brożek, Jacek Jadacki, 2015-12-22 Izydora Dąmbska (1904-1982) was a Polish philosopher; a student of Kazimierz Twardowski, and his last assistant. Her output consists of almost 300 publications. The main domains of her research were semiotics, epistemology and broadly understood methodology as well as axiology and history of philosophy. Dąmbska's approach to philosophical problems reflected tendencies that were characteristic of the Lvov-Warsaw School. She applied high methodological standards but has never limited the domain of analyzed problems in advance. The present volume includes twenty-eight translations of her representative papers. As one of her pupils rightly wrote: "Dąmbska's works may help everyone [...] to think clearly. Her attitude of an unshaken philosopher may help anyone to hold oneself straight, and, if necessary, to get up after a fall".

*Silent Marionette* Nily Naiman & Brian SW Kim,

*In My Shoes: My Poetic Journey from Abuse to Victory* Lyn Crain, 2016-07-25 In the 1950s, the phrase confessional poetry gained popularity initially with Robert Lowell, Sylvia Plath, and Anne Sexton. This form of the written word gave artists a way to discuss private, painful events in their own lives without actually sharing every minute detail with the world. In *My Shoes* poetically portrays Lyn Crain's journey through cancer, as well as physical and emotional abuse. Her poetry is written from the heart and can be titillating or terrifying in a world that is often more black than white. Crain felt the need to use her voice to share her story and, in turn, open the discussion for women suffering under similar circumstances. Crain is grateful that domestic violence is not a taboo subject anymore, however very few poets have addressed the subject in any length. Silence enables, but by raising voices, it is possible to also raise awareness that domestic violence will no longer be accepted as the norm.

Ancient Moon Wisdom Miriam Maron,2013 Long ago, mystics believed that along with every renewal of the phases of the Moon came shifts within the souls of all stones, plants, animals, and yes, even humans. This book highlights these shifts and explains how we are affected by them, how to tap into them for wholesome living, and how to engage obstacles we might encounter along the way. Drawing from a rich treasury of ancient Hebraic mystery wisdom and her many years of experience as a spiritual healer and counselor, Miriam Maron introduces us to the remarkable interplay between the months of the yearly cycle and tribal archetypes in the Hebraic tradition. She discusses each month's corresponding animal, mineral, and plant totems. In *Ancient Moon Wisdom*, one will discover important life lessons from the histories and mythologies surrounding these archetypes and the deeper meanings behind each of their corresponding months--all of which will prove helpful in one's personal unfolding.

*Silent Speak* Xena Mindhurst,2024-10-14 *Silent Speak* unveils the fascinating world of non-verbal communication, exploring how our bodies convey messages without uttering a word. This comprehensive guide delves into body language, facial expressions, and cultural variations, arguing that mastering these silent signals can significantly enhance personal and professional relationships. Drawing from psychology, anthropology, and neuroscience, the book presents non-verbal communication as a complex system that often reveals more authentic information than spoken words. Structured in three parts, *Silent Speak* first introduces fundamental concepts before exploring body language and facial expressions in detail,

including posture, gestures, and microexpressions. The final section examines cultural differences in non-verbal cues, highlighting potential pitfalls in cross-cultural communication. What sets this book apart is its holistic approach, offering readers not only insights into reading others' non-verbal signals but also practical guidance on modifying their own. Balancing scientific rigor with engaging narratives and real-life examples, the book provides practical exercises and self-assessment tools throughout. It covers applications ranging from job interviews to public speaking, while also addressing controversial topics like detecting deception through non-verbal cues. By offering a deep dive into this silent language, *Silent Speak* equips readers with the knowledge to become more perceptive and effective communicators in our increasingly globalized world.

***Comedies of Nihilism*** Amir Khan, 2017-11-16 This book presents close-readings of seven post-millennial comedic films: *Up in the Air*, *Tropic Thunder*, *JCVD*, *Winnebago Man*, *The Trotsky*, *Be Kind Rewind*, and *Hamlet 2*. It is a sequel to Stanley Cavell's 1981 landmark study of the comedic genre, *Pursuits of Happiness*, where he examines seven comedies of Hollywood's "Golden Age." Khan puts forward the idea that comedies, once centred on the conventional "happy ending," are no longer interested in detailing the steps to any ending we might call happy. Instead, the agenda of most culturally serious comedies today is to "spoof," to make all that is fair foul. The seven films presented here risk a type of cultural nihilism—spoofing for the sake of spoofing and nothing else, indicative not of film's promise but its failure. By equating the failure of film with the failed national politics of Canada (or the failed politics of nationalism and community more generally), this study shows that comedy has less to do with happiness and more to do with the grotesque. The films analysed represent hyper-realized forms of comic irony and move towards what theatre knows as tragedy, or a tragic vision.

**From Beginning to End** Robert Fulghum,2010-12-15 FROM BEGINNING TO END Why rituals? My thinking was set in motion by those who, knowing I was a parish minister for many years, have asked me for advice about ceremonies and celebrations. They wanted words to use at graduations, funerals, and the welcoming of children. They inquired about grace at family meals, the reaffirmation of wedding vows, and ways to heal wounds suffered in personal conflict. People requested help with the rituals of solitude, such as meditation, prayer, and contemplation. . . . Rituals do not always involve words, occasions, officials, or an audience. Rituals are often silent, solitary, and self-contained. The most powerful rites of passage are reflective--when you look back on your life again and again, paying attention to the rivers you have crossed and the gates you have opened and walked on through, the thresholds you have passed over. I see ritual when people sit together silently by an open fire. Remembering. As human beings have remembered for thousands and thousands of years. FULGHUM

It is essentially a collaborative text, by five authors, committed to a re-awakening of some of the forgotten dimensions of social theorizing. The collaborative work was originally occasioned by an attempt to analyse the notion of social stratification and its treatment in the sociological tradition. The authors' main concern here is with the nature of social theorizing, and in particular the 'difference' between Self and Other, being and beings, Language and Speech. The papers in the book focus on themes that are fundamental to the sense of inquiry and tradition which they are concerned to display. The themes discussed include speech, Language, Identity, Difference, Critical Tradition, Community, Metaphor, Dialectics, Observing and Reading.
