Cultural Techniques Bernhard Siegert,2015-05-01 In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that reproduce, displace, process, and reflect the distinctions fundamental for a given culture. Cultural Techniques aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word Kultur. Cultural techniques comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from firstorder to second-order techniques, from the technical to the artistic, from object to sign, from the natural to the cultural, from the operational to the representational. Cultural Techniques ranges from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and American postcybernetic discourses.

The Unsinkable Greta James Jennifer E. Smith,2022-03-01 An indie musician reeling from tragedy and a public breakdown reconnects with her father on a weeklong cruise in “a pitch-perfect story about the ways we recover love in the strangest places” (Rebecca Serle, bestselling author of *In Five Years*) “The characters are drawn with a generosity that allows them to be wrong but also right, loving but also prone to missteps, and ultimately deserving of a resolution that’s full of hope.”—Linda Holmes, *New York Times* bestselling author of *Flying Solo* ONE OF THE BEST BOOKS OF THE YEAR: She Reads Just after the death of her mother—her first and most devoted fan—and weeks before the launch of her high-stakes sophomore album, Greta James falls apart on stage. The footage quickly goes viral and she stops playing, her career suddenly in jeopardy—the kind of jeopardy her father, Conrad, has always predicted. Months later, Greta—still heartbroken and very much adrift—reluctantly agrees to accompany Conrad on the Alaskan cruise her parents had booked to celebrate their fortieth anniversary. It could be their last chance to heal old wounds in the wake of shared loss. But the trip will also prove to be a voyage of discovery for them both, and for Ben Wilder, a charming historian struggling with a major upheaval in his own life. As Greta works to build back her confidence and Ben confronts an uncertain future, they find themselves drawn to and relying on each other. It’s here in the unlikeliest of places—at sea, far from the packed city venues where she usually plays and surrounded by the stunning Alaskan wilderness—that Greta will have to decide what her path forward might look like—and how to find her voice again.

Why Do We Quote? Ruth Finnegan,2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near.Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism

Sugar and the Origins of Modern Philippine Society John A. Larkin, 1993 The sugar industry has been a vital part of the economic and social life of modern Philippine society. Under Spanish and American colonialism, sugar cultivation and export became one of the chief commercial industries in the Philippines. Both the Filipino people and the colonizing forces participated in the sugar industry; a few profited enormously. John Larkin examines how the international sugar market and local culture forged two types of society, one based on plantation agriculture, the other on tenant farming. Larkin investigates the history of the two most important sugar-producing regions, Negros Occidental and Pampanga. He depicts the impact of colonial economic forces on the rise of the elite plantation-owning class, the subsequent gap that developed between the extraordinarily wealthy and the impoverished, and the nation's dependence on the international market. Larkin concludes that the sugar industry resulted in stunted economic development, wide cleavages among the Filipino people, and an imbalance of political power - all effects that are still felt today. Sugar and the Origins of Modern Philippine Society is an indispensable contribution to our understanding of Southeast Asian history and the industry vital to the evolution of the Philippines.
