The Sadness Benjamin Rybeck,2016 Broke and homeless at 30, Kelly Enright flees Arizona. Returning to her hometown of Portland, ME, her only plan is to track down her estranged but well-off father. But her twin brother, Max, is living in their deceased mother's home, and if anyone's more screwed up than Kelly, it's disheveled, misanthropic Max. Max has just one obsession: film. In particular, his own unfinished project from a decade earlier, which he believes is a masterpiece in the making. He dreams of completing it, but there's a major problem: Evelyn, his actress and muse, has recently disappeared. After seeing her name in the credits of a famous cult film shot in their hometown, Max thinks Evelyn's disappearance has something to do with the film, and an upcoming festival devoted to it. Kelly's arrival upsets Max's plans for finding Evelyn. Enter Penelope Hayward, the film's star and Kelly's high school best friend. Now a major Hollywood star, Penelope arrives in Portland as the festival's guest of honor. As Max's search for his lost leading lady becomes increasingly, absurdly self-destructive, Kelly must help her brother, who has never recovered from their mother's death.

Body-and Image-Space Sigrid Weigel,2003-12-16 The last decade has seen a new wave of interest in philosophical and theoretical circles in the writings of Walter Benjamin. In *Body-and Image-Space* Sigrid Weigel, one of Germany's leading feminist theorists and a renowned commentator on the work of Walter Benjamin, argues that the reception of his work has so far overlooked a crucial aspect of his thought - his use of images. Weigel shows that it is precisely his practice of thinking in images that holds the key to understanding the full complexity, richness and topicality of Benjamin's theory.

Hungering for America Hasia R. DINER,2009-06-30 Millions of immigrants were drawn to American shores, not by the mythic streets paved with gold, but rather by its tables heaped with food. How they experienced the realities of America's abundant food—its meat and white bread, its butter and cheese, fruits and vegetables, coffee and beer—reflected their earlier deprivations and shaped their ethnic practices in the new land. *Hungering for America* tells the stories of three distinctive groups and their unique culinary dramas. Italian immigrants transformed the food of their upper classes and of sacred days into a generic "Italian" food that inspired community pride and cohesion. Irish immigrants, in contrast, loath to mimic the foodways of the Protestant British elite, diminished food as a marker of ethnicity. And East European Jews, who venerated food as the vital center around which family and religious practice gathered, found that dietary restrictions jarred

with America's boundless choices. These tales, of immigrants in their old worlds and in the new, demonstrate the role of hunger in driving migration and the significance of food in cementing ethnic identity and community. Hasia Diner confirms the well-worn adage, "Tell me what you eat and I will tell you what you are."

Walter Benjamin and the Architecture of Modernity Andrew Benjamin, Charles Rice, 2009 Walter Benjamin is universally recognised as one of the key thinkers of modernity: his writings on politics, language, literature, media, theology and law have had an incalculable influence on contemporary thought. Yet the problem of architecture in and for Benjamin's work remains relatively underexamined. Does Benjamin's project have an architecture and, if so, how does this architecture affect the explicit propositions that he offers us? In what ways are Benjamin's writings centrally caught up with architectural concerns, from the redevelopment of major urban centres to the movements that individuals can make within the new spaces of modern cities? How can Benjamin's theses help us to understand the secret architectures of the present? This volume takes up the architectural challenge in a number of innovative ways, collecting essays by both well-known and emerging scholars on time in cinema, the problem of kitsch, the design of graves and tombs, the orders of road-signs, childhood experience in modern cities, and much more. Engaged, interdisciplinary, bristling with insights, the essays in this collection will constitute an indispensable supplement to the work of Walter Benjamin, as well as providing a guide to some of the obscurities of our own present.

Pleasant Journeys and Good Eats Along the Way John Baeder, 2007 Pleasant Journeys and Good Eats along the Way surveys John Baeder's thirty-five-year obsession with roadside architecture, especially America's diners, and complements Baeder's Morris Museum of Art exhibit of the same name. Originally attracted to classic postcard images of mom-and-pop businesses and old black-and-white photos of downtowns, Baeder (b. 1938) has spent most of his art career depicting these beloved but unpretentious restaurants. Often classified as a photorealist, Baeder has always resisted being labeled. He sees his paintings as a plea for preservation and a way to reveal the psychology behind diners. Before the era of corporate fast food, Americans on the road looked to diners to provide \meals like mother makes, \ a descriptive phrase found in Baeder's very first diner painting. Home cooking was especially appealing to weary tourists who took to the American highway in increasing numbers between the 1920s and the 1960s. By the late 1970s Baeder's paintings had become wildly popular. Baeder's paintings resonate in melodies of color and line and exhibit their personalities through hand-lettered placards and neon signs. They invite the viewer to absorb the everyday simplicity of roadside architecture in new ways and to discover the values of hearth and home in unexpected places. John Baeder of Nashville is a well-known realist painter. His work is in the permanent collections of the Whitney Museum of American Art, High Museum of Art, and many others. Jay Williams is curator at the Morris Museum of Art in Augusta, Georgia. His previous publications include *Illuminated Literature: The Art of*

Jerry and Brian Pinkney and *What Dogs Dream: Paintings and Works on Paper* by William Dunlap. Kevin Grogan is the director of the Morris Museum of Art. Donald Kuspit is professor of art history and philosophy at the State University of New York at Stony Brook.

Mechanical and Electrical Equipment for Buildings William J. McGinness, Benjamin Stein, John Reynolds, 1980 Revised standard textbook and/or reference on the relationship between mechanical and electrical systems and the buildings they serve. This edition extends the philosophy of the seventh edition (1986), emphasizing the themes of energy conservation and the use of renewable energy sources while keeping readers informed of the major changes in equipment technology wrought by the microprocessor and the computer. A background of college-level mathematics and physics is assumed, and the volume is recognized as an important reference for the national architectural licensing examination. Heartbroke Chelsea Bieker, 2023-04-04 Winner of the California Book Award From the acclaimed author of *Godshot* and "a pitch-perfect ventriloquist of extraordinary talent and ferocity" (T Kira Madden) comes a defining book of Californian stories where everyone is seeking or sabotaging love United by the stark and sprawling landscapes of California's Central Valley, the characters of *Heartbroke* boil with reckless desire. A woman steals a baby from a shelter in an attempt to recoup her own lost motherhood. A phone-sex operator sees divine opportunity when a lavender-eyed cowboy walks into her life. A mother and a son selling dream catchers along a highway that leads to a toxic beach manifest two young documentary filmmakers into their realm. And two teenage girls play a dangerous online game with destiny. *Heartbroke* brims over with each character's attempt to salvage grace where they can find it. Told in bright, snapping prose that reveals a world of loss and love underneath, Chelsea Bieker brilliantly illuminates a golden yet gothic world of longing and abandonment under an unrelenting California sun.

A New Reference Grammar of Modern Spanish John Butt, Carmen Benjamin, 2012-12-06 (abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Española, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the *Nuevas normas de prosodia y ortografía*, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

In the Almost Promised Land Hasia R. Diner, 1995-10 Seeking the reasons behind Jewish altruism toward African Americans, Hasia Diner shows how in the wake of the Leo Frank trial and lynching in Atlanta Jews came to see that their relative prosperity was no protection against the same social forces that threatened blacks. Jewish leaders and organizations genuinely believed in the cause of black civil rights, Diner suggests, but they also used that cause as a way of advancing their own interests—launching a vicarious attack on the nation that they felt had not lived up to its own ideals of freedom and equality.

The Dialectics of Seeing Susan Buck-Morss, 1991-07-01 Walter Benjamin's magnum opus was a book he did not live to write. In *The Dialectics of Seeing*, Susan Buck-Morss offers an inventive reconstruction of the Passagen Werk, or Arcades Project, as it might have taken form. Working with Benjamin's vast files of citations and commentary which contain a myriad of historical details from the dawn of consumer culture, Buck-Morss makes visible the conceptual structure that gives these fragments philosophical coherence. She uses images throughout the book to demonstrate that Benjamin took the debris of mass culture seriously as the source of philosophical truth. The Paris Arcades that so fascinated Benjamin (as they did the Surrealists whose materialist metaphysics he admired) were the prototype, the 19th century ur-form of the modern shopping mall. Benjamin's dialectics of seeing demonstrate how to read these consumer dream houses and so many other material objects of the time—from air balloons to women's fashions, from Baudelaire's poetry to Grandville's cartoons—as

anticipations of social utopia and, simultaneously, as clues for a radical political critique. Buck-Morss plots Benjamin's intellectual orientation on axes running east and west, north and south—Moscow Paris, Berlin-Naples—and shows how such thinking in coordinates can explain his understanding of dialectics at a standstill. She argues for the continuing relevance of Benjamin's insights but then allows a set of afterimages to have the last word.
