Huaspungo Jorge Icaza, 1973 *The Villagers* is a story of the ruthless exploitation and extermination of an Indian village of Ecuador by its greedy landlord. First published in 1934, it is here available for the first time in an authorized English translation. A realistic tale in the best tradition of the novels of social protest of Zola, Dostoevsky, José Eustasio Rivera, and the Mexican novels of the Revolution, *The Villagers (Huaspungo)* shocked and horrified its readers, and brought its author mingled censure and acclaim, when it was first published in 1934. Deeply moving in the dramatic intensity of its relentless evolution and stark human suffering, Icaza's novel has been translated into eleven foreign languages, including Russian and Chinese, and has gone through numerous editions in Spanish, including a revised and enlarged edition in 1953, on which this translation is based, but it has never before been authorized for translation into English. His first novel, but not his first published work, *The Villagers* is still considered by most critics as Icaza's best, and it is widely acclaimed as one of the most significant works in contemporary Latin American literature. Thirty years after its original publication in Ecuador, *The Villagers* still carries a powerful message for the contemporary world and an urgent warning. The conditions here portrayed prevail in these areas, even today. *The Villagers* is an indictment of the latifundista system and a caustic picture of the native worker who, with little expectation from life, finds himself a victim of an antiquated feudal system aided and abetted by a grasping clergy and an indifferent government.

Zapata and the Mexican Revolution John Womack, 2011-07-27 This essential volume recalls the activities of Emiliano Zapata (1879-1919), a leading figure in the Mexican Revolution; he formed and commanded an important revolutionary force during this conflict. Womack focuses attention on Zapata's activities and his home state of Morelos during the Revolution. Zapata quickly rose from his position as a peasant leader in a village seeking agrarian reform. Zapata's dedication to the cause of land rights made him a hero to the people. Womack describes the contributing factors and conditions preceding the Mexican Revolution, creating a narrative that examines political and agrarian transformations on local and national levels.

The Medieval Origins of the Legal Profession James A. Brundage, 2010-10 In the aftermath of sixth-century barbarian invasions, the legal profession that had grown and flourished during the Roman Empire vanished. Nonetheless, professional lawyers suddenly reappeared in Western Europe seven hundred years later during the 1230s when church councils and public authorities began to impose a body of ethical obligations on those who practiced law. James Brundage's *The Medieval*

Origins of the Legal Profession traces the history of legal practice from its genesis in ancient Rome to its rebirth in the early Middle Ages and eventual resurgence in the courts of the medieval church. By the end of the eleventh century, Brundage argues, renewed interest in Roman law combined with the rise of canon law of the Western church to trigger a series of consolidations in the profession. New legal procedures emerged, and formal training for proctors and advocates became necessary in order to practice law in the reorganized church courts. Brundage demonstrates that many features that characterize legal advocacy today were already in place by 1250, as lawyers trained in Roman and canon law became professionals in every sense of the term. A sweeping examination of the centuries-long power struggle between local courts and the Christian church, secular rule and religious edict, *The Medieval Origins of the Legal Profession* will be a resource for the professional and the student alike.

The Mexican Revolution Alan Knight, 1990 This comprehensive two-volume history of the Mexican Revolution presents a new interpretation of one of the world's most important revolutions. While it reflects the many facets of this complex and far-reaching historical subject it emphasises its fundamentally local, popular and agrarian character and locates it within a more general comparative context.-- Publisher.

International Code of Conduct on Pesticide Management Food and Agriculture Organization of the United Nations, World Health Organization, 2023-04-29 The objective of this guidance on fulfilling the reporting requirements of Article 12 of the Code of Conduct is to obtain a regular flow of information on its observance to strengthen implementation of the Code, to provide data for its future revisions and improvement, and, most importantly, to improve the protection of human health and the environment related to pesticide use and management in agriculture and public health. The guidance was prepared in compliance with the FAO/WHO International Code of Conduct on Pesticide Management, which sets out a framework and voluntary standards of conduct for stakeholders in pesticide management, in particular governments and the pesticide industry. Endorsed by FAO, WHO, governments, pesticide producers, non-governmental organizations and other stakeholders, the Code outlines their shared responsibility to promote best practice and risk reduction throughout the pesticide life cycle. The Code of Conduct thereby establishes the commitment and moral obligation of stakeholders to comply with the agreed standards of conduct and to assume their respective responsibilities. These include governments' responsibility to promote pesticide risk reduction and the industry's responsibility to produce products that are adapted to the context of their use and to provide stewardship of those products throughout their life cycle. This guidance was prepared with the support of the FAO/WHO Joint Meeting on Pesticide Management (JMPM) to provide further guidance on the provisions of the Code of Conduct related to its observance and implementation. It reflects the joint FAO/WHO approach to pesticide management, thus addressing the topic in both agricultural and public health settings.

The Social Crisis of Our Time Wilhelm Röpke,

The Oxford Handbook of Migration Crises Dr. Cecilia Menjívar,Dr. Marie Ruiz,Dr. Immanuel Ness,2019-01-16 The objective of *The Oxford Handbook of Migration Crises* is to deconstruct, question, and redefine through a critical lens what is commonly understood as migration crises. The volume covers a wide range of historical, economic, social, political, and environmental conditions that generate migration crises around the globe. At the same time, it illuminates how the media and public officials play a major role in framing migratory flows as crises. The volume brings together an exceptional group of scholars from around the world to critically examine migration crises and to revisit the notion of crisis through the context in which permanent and non-permanent migration flows occur. *The Oxford Handbook of Migration Crises* offers an understanding of individuals in societies, socio-economic structures, and group processes. Focusing on migrants' departures and arrivals in all continents, this comprehensive handbook explores the social dynamics of migration crises, with an emphasis on factors that propel these flows as well as the actors that play a role in classifying them and in addressing them. The volume is organized into nine sections. The first section provides a historical overview of the link between migration and crises. The second looks at how migration crises are constructed, while the third section contextualizes the causes and effects of protracted conflicts in producing crises. The fourth focuses on the role of climate and the environment in generating migration crises, while the fifth section examines these migratory flows in migration corridors and transit countries. The sixth section looks at policy responses to migratory flows, The last three sections look at the role media and visual culture, gender, and immigrant incorporation play in migration crises.

Tropical Forests and the Human Spirit Roger D. Stone,Claudia D'Andrea,2002-01-17 Tropical forests are vanishing at an alarming rate. This book, based on extensive international field research, highlights one solution for preserving this precious resource: empowering local people who depend on the forest for survival. Synthesizing a vast amount of information that has never been brought together in one place, Roger D. Stone and Claudia D'Andrea provide a clearly written and energizing tour of global efforts to empower community-based forest stewards. Along the way, they show the fundamental importance of tropical forest ecosystems and deepen our sense of urgency to save them for the benefit of billions of rural people in tropical and subtropical regions as well as for countless species of plants and animals. In their travels to research this book, the

authors saw many remarkable examples of how proficient even the poorest local people can be in stabilizing and recovering formerly destitute forests. With engagingly written case studies from Thailand's Golden Triangle to Mindanao in the Philippines, from Indonesia, India, and Africa to Brazil, Mexico, and Central America, they introduce us to the communities and the individuals, the governments, the loggers, the agencies, and the local groups who vie for forest resources. Contrasting community-based efforts and traditional forest management with government and donor efforts, they discuss the many reasons why international institutions and national governments have been unable and unwilling to stem the accelerating loss of tropical forestland. This book argues we are paying a terrible price--politically, economically, and environmentally--for allowing tropical forests to be stripped. Community-based forestry is no panacea, but this book clearly shows its effectiveness as a management technique.

Mexico in Transition Gerardo Otero, 2013-07-04 Mexico in Transition provides a wide-ranging, empirical and up-to-date survey of the multiple impacts neoliberal policies have had in practice in Mexico over twenty years, and the specific impacts of the NAFTA Agreement. The volume covers a wide terrain, including the effects of globalization on peasants; the impact of neoliberalism on wages, trade unions, and specifically women workers; the emergence of new social movements El Barzón and the Zapatistas (EZLN); how the environment, especially biodiversity, has become a target for colonization by transnational corporations; the political issue of migration to the United States; and the complicated intersections of economic and political liberalization. Mexico in Transition provides rich concrete evidence of what happens to the different sectors of an economy, its people, and natural resources, as the profound change of direction that neoliberal policy represents takes hold. It also describes and explains the diverse forms of resistance and challenge that different civil-society groups of those affected are now offering to a model the downsides of which are becoming increasingly manifest.

Siete Ensayos de Interpretación de la Realidad Peruana José Mariátegui, 2016-01-04 José Carlos Mariátegui, (1895-1930), fue un escritor Peruano y líder político de renombre mundial. Aunque sus orígenes son humildes, su carrera lo llevó a las más altas alturas de la intelectualidad. Comenzando a trabajar a los 14 años de edad -como alcanza-rejones en un periódico- llegó a ser periodista de los principales diarios de Lima: La Prensa, El Tiempo, y La Razón. Autodidacta, pronto llegó a convencerse que la doctrina marxista era la adecuada para sacar a su patria del marasmo social, económico, cultural, y espiritual que lo condenaba a una abyecta pobreza. Sus viajes por Europa, le confirmaron su fe en el marxismo. Cuando regresó al Perú, junto con el pensador y activista político Víctor Raúl Haya de la Torre (fundador del partido APRA), ambos asumieron el liderazgo político de los años 1920s. Acerca de los Siete ensayos Estos ensayos calan profundo, dado el enfoque marxista muy poco

asimilado -por entonces- en las letras de Sudamérica. Los Siete Ensayos tocan la urdimbre nerviosa del Perú, auscultando síntomas, analizando curas paliativas y muchas veces erróneas, para al fin dejar en claro que aunque las soluciones son inconclusas, por lo menos podrían dar un impulso a la mejoría del país. Los problemas que Mariátegui trata son: 1) Esquema de la evolución económica; 2) El problema del indio; 3) El problema de la tierra; 4) El proceso de la instrucción pública; 5) El factor religioso; 6) Regionalismo y centralismo; y 7) El proceso de la literatura.

Property Rights in Land Rosa Congost, Jorge Gelman, Rui Santos, 2016-10-04 Property Rights in Land widens our understanding of property rights by looking through the lenses of social history and sociology, discussing mainstream theory of new institutional economics and the derived grand narrative of economic development. Written by a collection of expert authors, the chapters delve into social processes through which property relations became institutionalized and were used in social action for the appropriation of resources and rent. This was in order to gain a better understanding of the social processes intervening between the institutionalized 'rules of the game' and their economic and social outcomes.

Peaceful Surrender Fernando Collantes, Vicente Pinilla, 2011 Migration to the cities had been a part of European rural life long before the start of modern industrialisation and urbanisation. In the era of modern development, however, rural-urban migration intensified in an unprecedented way and many rural communities depopulated. While during the pre-industrial period migration had contributed to the economic and social reproduction of rural communities, it now challenged the continuity of the rural lifestyle. This book analyses the topic for the case of Spain, which in the twentieth century experienced one of the most intense processes of rural depopulation in modern Europe. The interaction between Spanish industrialisation and rural migration, the demographic implications of agrarian change, the obstacles to the development of rural non-farm activities, the rural problems of access to infrastructures and services, the role of public policy, and the consequences of depopulation for the rural community are the central elements of this study, which inserts the Spanish case within its European context. Distanced from both the anti-modern stance that idealises paradise lost and the Panglossian mood that welcomes anything that came with modernisation, the book explains how the adaptive strategies put into practice by rural populations led to a peaceful surrender of traditional rural society.

Indigenous Autonomy in Mexico Aracely Burguete Cal y Mayor, 2000 Contains 13 essays which discuss the experiences of indigenous peoples in their quest for municipal and regional indigenous autonomy. Includes discussion of the ILO Indigenous and Tribal Peoples Convention, 1989 (No. 169).
