Imagine a Night Sarah L. Thomson,2011-04-19 Imagine a night when you can ride your bike right up the stairs to your bed. Imagine a night when your toy train rumbles on its tracks out of your room and roars back in, full sized, ready for you to hop on for a nighttime adventure. Contemporary American Composers Rupert Hughes,2022-07-20 In the preface to his work, Rupert Hughes explains his motivation and method for writing this historical account of American composers. Being a musician himself, he was interested to know who of merit was a native composer. He found it difficult to obtain such information, so he resolved to research contemporary composers, listen to and read their scores and make his own judgements. This wide-ranging book is the result.

Chopin James Huneker,2009-01-01 Frederic Chopin (1810 - 1849) was one of the most influential musicians of the 19th Century. Discovered as a child-prodigy pianist in his native Poland, he later travelled to France, where he remained after the Polish uprising of 1830-31. There he gave few public performances, but worked as composer and piano teacher. He later became a French citizen and conducted a stormy relationship with French writer George Sand (Aurore Dudevant). He died at 39 of pulmonary tuberculosis. Chopin innovated many traditional forms of piano music and also created new forms such as the ballade. Though technically demanding, his music is nuanced and deeply expressive. His mazurkas and polonaises became the centerpiece of Polish classical music.

The Book of the Damned Charles Fort,2020-09-28 Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you--Taken from Good Reads website.

Preference, Belief, and Similarity Amos Tversky, 2003-11-21 Amos Tversky (1937-1996), a towering figure in cognitive and mathematical psychology, devoted his professional life to the study of similarity, judgment, and decision making. He had a unique ability to master the technicalities of normative ideals and then to intuit and demonstrate experimentally their systematic violation due to the vagaries and consequences of human information processing. He created new areas of study and helped transform disciplines as varied as economics, law, medicine, political science, philosophy, and statistics. This book collects forty of Tversky's articles, selected by him in collaboration with the editor during the last months of Tversky's

life. It is divided into three sections: Similarity, Judgment, and Preferences. The Preferences section is subdivided into Probabilistic Models of Choice, Choice under Risk and Uncertainty, and Contingent Preferences. Included are several articles written with his frequent collaborator, Nobel Prize-winning economist Daniel Kahneman.

The Song of the Lark Willa Cather, 1913 A novelist and short-story writer, Willa Cather is today widely regarded as one of the foremost American authors of the twentieth century. Particularly renowned for the memorable women she created for such works as *My Antonia* and *O Pioneers!*, she pens the portrait of another formidable character in *The Song of the Lark*. This, her third novel, traces the struggle of the woman as artist in an era when a woman's role was far more rigidly defined than it is today. The prototype for the main character as a child and adolescent was Cather herself, while a leading Wagnerian soprano at the Metropolitan Opera (Olive Fremstad) became the model for Thea Kronborg, the singer who defies the limitations placed on women of her time and social station to become an international opera star. A coming-of-age novel, important for the issues of gender and class that it explores, *The Song of the Lark* is one of Cather's most popular and lyrical works. Book jacket.
