Empresa e iniciativa emprendedora 5.ª edición 2023 VÁZQUEZ BLÖMER, BEATRIZ,ASENSIO DEL ARCO , EVA,2023-06-30 El presente manual permite obtener la formación y las herramientas prácticas necesarias para la puesta en marcha de una empresa. Este libro desarrolla todos los contenidos del módulo profesional de carácter transversal de Empresa e Iniciativa Emprendedora, presente en la mayoría de los Ciclos Formativos. Esta nueva edición actualizada incluye un apartado final dedicado a la aplicación de la filosofía Lean Start up con propuestas de actividades para lograr que los conocimientos de este módulo se conviertan en una práctica lo más realista posible, y un dossier que aplica un plan de transformación digital como alternativa al plan de negocio convencional. Empresa e Iniciativa Emprendedora presenta una doble posibilidad para que se puedan trabajar los contenidos de manera práctica. Cada docente, en función del nivel del alumnado, sus capacidades y su motivación, puede elegir entre: - seguir la forma tradicional de realizar los planes de empresa, haciendo uso de los Proyectos que se encuentran al final de cada unidad, o bien - seguir el pensamiento Lean Start up (sistema que está revolucionando los modelos de negocio y que usan la mayor parte de las startups tecnológicas) empleando a lo largo del curso las actividades que se proponen en el apartado que se encuentra al final del libro. Además de presentar los contenidos revisados y actualizados, se ofrecen numerosas y variadas actividades propuestas y casos prácticos resueltos que ayudarán a comprender los conceptos presentados y facilitarán el autoaprendizaje. En definitiva, este libro se presenta como un recurso fundamental para que los alumnos de Formación Profesional puedan poner en marcha sus iniciativas empresariales una vez finalicen sus estudios. Las autoras, Eva Asensio del Arco, Doctora en Ciencias Económicas y Empresariales, y Beatriz Vázquez Blömer, Licenciada en Derecho, son profesoras de la especialidad. Son autoras además de otros títulos como Simulación Empresarial o Cómo crear tu nueva empresa publicados por esta editorial.

Modelo intraemprendedor para la innovación Manuel Alfonso Garzón Castrillón,2005

Iniciación a la actividad emprendedora y empresarial PELAYO GONZÁLEZ, JAVIER,RODRÍGUEZ LAGUÍA, FRANCISCO JAVIER,2015-01-01 En este libro de texto se afronta el aprendizaje del emprendimiento como actitud. Se trata de movilizar en los alumnos que cursan la Formación Profesional Básica todo un conjunto de competencias, actitudes y conocimientos que son propios del mismo hecho de emprender, pero que además son comunes y habituales en la vida personal y profesional de los individuos: la responsabilidad, la iniciativa, el trabajo en equipo, la comunicación, etcétera. La

incorporación por parte de algunas Administraciones educativas de este módulo en los ciclos de Formación Profesional Básica es consecuencia de la Ley 14/2013, de 27 de septiembre, de apoyo a los emprendedores y su internacionalización. Las características del alumnado de dichos ciclos se han tenido en cuenta por parte de los autores tanto en la redacción de los epígrafes como en el planteamiento didáctico de las actividades y las tareas propuestas. Bajo el subtítulo de La importancia de llamarse emprendedor, los autores han ido organizando los contenidos de la obra, que se estructura en once unidades planteadas como un itinerario competencial de la persona desde la iniciativa y la inspiración (que son el punto de partida de todo proyecto personal) hasta la autonomía y la autorrealización como propósito individual. Para ello, las unidades presentan una estructura en la que se parte de una lectura inicial introductoria, tras la cual se presentan los contenidos de forma clara e ilustrados con diversos esquemas que ayudan a su comprensión; también se aportan numerosas y motivadoras actividades propuestas, se acompaña la explicación con curiosidades y llamadas reflexadas en los cuadros de Sabías que... y Recuerda, se definen los conceptos más complejos en los cuadros de Vocabulario y se incluyen citas de algún emprendedor que aporta su punto de vista sobre lo trabajado en los apartados de La frase. Además, al final de cada unidad se incluye una actividad denominada La importancia de llamarse..., en la que el alumno deberá descubrir la identidad de un emprendedor conocido a partir de una imagen y una pista. Al final de cada unidad se incluye un práctico mapa conceptual, que permitirá repasar y fijar lo aprendido en ella, además de test de repaso, una dinámica de grupo y un apartado denominado Emprende, para trabajar y reflexionar sobre los conceptos estudiados de manera amena y práctica a través de un crucigrama realizado sobre aspectos tratados en la unidad y con la visualización de películas o fragmentos de ellas y su análisis a través de un cuestionario. Además, se pone a disposición de los usuarios un aula virtual que ofrece un conjunto de útiles recursos digitales (archivos, documentos, presentaciones, vídeos e infografías) y desde la que se podrá acceder a eventuales actualizaciones de los contenidos. También ofrece la posibilidad a profesores y a alumnos de generar un cuaderno de trabajo con actividades evaluadas con trazabilidad. El acceso a esta es posible enviando una solicitud a paraninfoiaee@gmail.com.

Gestión académica e innovación educativa José Manuel López Barajas,2022-06-02 El libro Gestión académica e innovación educativa, de José Manuel López Barajas, aborda una serie de herramientas, estrategias y análisis de teorías educativas que sirven para fortalecer el currículum de docentes y discentes en cualquier etapa de la vida. El currículum que se aborda en este libro difiere del que conocemos comúnmente porque no solo se centra en aprendizajes académicos, sino en todo suceso que muestra una oportunidad de aprendizaje. De esta forma, se aleja del aprendizaje específico que se destina a las aulas y abarca distintos ámbitos en la vida del ser humano. Así, forman parte de este currículum desde los cambios en la educación, las reformas y la renovación pedagógica —necesaria para los sistemas cambiantes— hasta la inmersión en temas de interés individual. Nos muestra una innovación que reconoce y evalúa las posibilidades y habilidades de cada uno de sus actores, dentro y fuera de las aulas. Todo ello encaminado a una mejoría en los sistemas de aprendizaje, sin descuidar las necesidades o los intereses del individuo.

Venta técnica PÉREZ FERNÁNDEZ, DAVID,GONZÁLEZ TABARES, RAFAEL,2017-04-27 Este libro desarrolla los

contenidos del módulo profesional de Venta Técnica, del Título Profesional de Técnico en Actividades Comerciales, perteneciente a la familia profesional de Comercio y Marketing, según el Real Decreto 1688/2011, de 18 de noviembre, así como los añadidos con posterioridad por las distintas comunidades autónomas en sus respectivos currículos. La obra, estructurada en siete unidades, introduce al lector en la «venta compleja» (la que se aleja bastante del mero despacho de productos o de la venta en autoservicio), un tipo de venta especializada necesaria tanto en la comercialización de bienes industriales o en la de productos tecnológicos y de alta gama, como en la de servicios intangibles e inmuebles. Todos estos son tipos de venta que se apoyan en las técnicas de gestión comercial vía telefónica conocidas como telemarketing. Cada unidad consta de un breve texto introductorio y de un contenido explicativo posterior en el que el alumno podrá encontrar fotos, figuras, gráficos, documentos y mapas conceptuales. Además, el texto incluye gran cantidad de actividades propuestas y finales (tipo test, de comprobación, para completar, casos prácticos, visitas virtuales; tanto en grupo como individuales), que le ayudarán a completar su estudio de manera progresiva, y que le facilitarán el aprendizaje y la comprensión de los temas explicados. Por todo ello, esta obra es una eficaz y útil herramienta para alumnos, profesores y centros, así como para otros profesionales interesados en este apasionante tema.

Sustainable Entrepreneurship Christina Weidinger, Franz Fischler, René Schmidpeter, 2013-08-13 Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value - so called Shared Value. This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times. It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice. At the same time, this book is a wake-up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension. Well

structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world's most challenging problems, such as Climate Change, Finance Crisis and Political Uncertainty, as well as to ensuring business success. The book provides a framework of orientation where the journey might go: What can a successful concept of SE look like? What are the key drivers for its realisation? What is the role of business in shaping the future of our society? The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award (www.se-award.org). The Sustainable Entrepreneurship Award (short SEA) is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture. Companies that receive the SEA are being recognised for the vision they have shown in combining economic and sustainable responsibility.

Growth-Oriented Entrepreneurship Alan S. Gutterman, 2018-08-30 This book provides an extensive introduction to research on growth-oriented entrepreneurship. A number of different methods have been used to describe growth-oriented entrepreneurship; however, there is a consensus that there is a particularly desirable form of entrepreneurship that seeks to create and scale up businesses that will drive productivity growth, create new employment, increase innovation, promote business internationalization and achieve sustainable economic growth. Innovation is a condition of growth-oriented entrepreneurship that includes both the development and commercialization of new products and services and the development and implementation of new or improved processes that enhance productivity or reduce costs associated with manufacturing or distributing existing products. Innovation involves firms pursuing distinctive business strategies and doing new things in new ways to increase productivity, product development, sales and profitability, including finding and developing new ways of identifying the needs of new and existing customers and making and marketing products that satisfy those needs. The goal of the launch phase for growth-oriented entrepreneurial ventures is to reach the point of scale up and common goals and activities associated with the launch phase include market disruption and penetration; gaining access to capital and markets and mentorship opportunities; organizational growth through management capacity, systems, resources (i.e., people, product and assets) management; embedding organizational culture; development of stakeholder relationships; monitoring and evaluation; and governance and reporting. This book provides an extensive introduction to research on

growth-oriented entrepreneurship and continues with an assessment of attempts to create the appropriate framework conditions for growth-oriented entrepreneurship to flourish and sustain including financial support; government policies; government programs; education and training; research and development transfer; commercial and professional infrastructure; internal market openness; access to physical infrastructure; cultural and social norms; and protection of intellectual property rights. The final chapter looks at growth-oriented entrepreneurs in practice as they work to launch and grow emerging companies. This book is a unique compendium of research and analysis on a dynamic and important segment of entrepreneurship and will be useful to entrepreneurs, academics and policymakers.

Entrepreneurial Ecosystems Allan O'Connor, Erik Stam, Fiona Sussan, David B. Audretsch, 2017-12-30 This book features latest research insights into the study of the entrepreneurial ecosystem. The focus is on understanding its influence on the development of socially and physically defined 'places', and how these factors are related with each other. The book argues that regardless of how the concept of a 'place' is defined, be it cities, regions, nations or otherwise, the impact of new technologies will influence much of our business, social, and economic landscapes. Evidently, there is an increasing pressure on 'places' to embrace new opportunities for strategic development and confront complacency. The solution may very well be in creating and sustaining entrepreneurial ecosystems where entrepreneurial action thrives and innovation drives the new economy.

Adios a Los Mitos de La Innovacion (Blanco Y Negro) Mario Morales, 2013-06-08 Innovacion. Sin duda uno de los conceptos mas empleados en el entorno actual de negocios, pero al mismo tiempo, uno de los mas dificiles de llevar a la practica. Esto sucede porque la mayoria de empresas ni siquiera tiene claro que es innovar, y asume que hablar de innovacion es lo mismo que hablar de creatividad o tecnologia. Otras piensan que la innovacion es un lujo que solo pueden darse las grandes multinacionales, con sus presupuestos millonarios y sofisticados departamentos de investigacion y desarrollo. Ademas, los libros sobre el tema tienden a explicar como innovan companias del calibre de Apple, Google, P&G y otros sospechosos usuales, pero ofrecen consejos poco utiles para los desafios propios de America Latina. Adios a los Mitos de la Innovacion viene a llenar este vacio al abordar exclusivamente las realidades de innovar en nuestra region. Usando un enfoque 100% practico, el reconocido consultor internacional Mario Morales revela como se pueden crear procesos robustos de innovacion, para sacarle ventaja a la competencia y crecer en mercados cada vez mas exigentes. A lo largo de nueve capitulos enriquecidos con herramientas, casos de estudio, listas de verificacion y preguntas provocadoras, usted aprendera:

- Como vender la innovacion a la alta gerencia
- Como definir una estrategia ganadora de innovacion
- Cual es el proceso y las herramientas necesarias para innovar
- Como fijar metricas para medir la innovacion
- Como crear una cultura de innovacion

en la empresa - Como generar y hacer realidad las ideas Si usted necesita innovar y apenas esta iniciando el viaje, este libro sera una guia indispensable para alcanzar el exito. Si, por el contrario, su empresa es una veterana en el tema, el libro le permitira comparar sus esfuerzos con las mejores practicas implementadas por otros colegas latinoamericanos, y detectar oportunidades para optimizar su desempeno innovador.

Packed with concrete examples of what to do, how to do it and when to do it, the book will leave you with new skills to organize sales, marketing and your business for success.
