Presentation Zen Garr Reynolds,2009-04-15 FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. Presentation Zen challenges the conventional wisdom of making slide presentations in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Presentation Zen Design Garr Reynolds,2009-12-18 In his internationally acclaimed, best-selling book *Presentation Zen: Simple Ideas on Presentation Design and Delivery*, presentation master Garr Reynolds gave readers the framework for planning, putting together, and delivering successful presentations. Now, he takes us further into the design realm and shows how we can apply time-honored design principles to presentation layouts. Throughout *Presentation Zen Design*, Garr shares his lessons on designing effective presentations that contain text, graphs, color, images, and video. After establishing guidelines for each of the various elements, he explains how to achieve an overall harmony and balance using the tenets of Zen simplicity. Not only will you discover how to design your slides for more professional-looking presentations, you'll learn to communicate more clearly and will accomplish the goal of making a stronger, more lasting connection with your audience.

MindXpres: Conceptual and Technical Foundations for Next Generation Presentation Solutions Reinout Roels,2019-05-27 Presentation tools such as PowerPoint were initially created to simulate physical slides and have inherited a lot of their limitations. In this dissertation we identify the shortcomings and unmet user needs in presentation software by means of literature study, observations, a survey and the programmatic analysis of over 12000 PowerPoint documents. The results indicate that user needs are slowly evolving while existing software has hardly changed over the last 30 years. We motivate the need to rethink the concept of a presentation and we provide conceptual and technical foundations that can enable interoperable and well-integrated solutions for the identified shortcomings. The resulting MindXpres platform consists of a new conceptual framework, content model, information system and presentation engine. We present MindXpres as a

presentation platform that enables researchers and developers to build innovative presentation solutions that cannot be implemented in the existing tools. We further demonstrate the flexibility of the MindXpres platform by discussing a wide range of proof-of-concept plug-in solutions for the identified shortcomings and unmet user needs.

Speaking Persuasively Patsy McCarthy,2020-07-28 To succeed in business, your message must be heard, understood and remembered. This book, with its combination of practical tips and case studies from the experts, will help you to become a more powerful and persuasive speaker, whether pitching for business or presenting to the Board. As a consultant in speech training, I can recommend it unreservedly. Clare Willis, Senior Consultant, Speak First Training, London YOU CAN BECOME A CONFIDENT PUBLIC SPEAKER Speaking is one of the most powerful ways of influencing others at work and in life. And yet for many of us, speaking in front of large or small groups of people is one of our greatest fears. Speaking Persuasively shows you how to convert anxiety into effective communication. LEARN HOW TO GIVE DYNAMIC PRESENTATIONS AND SPEECHES Using real examples, Speaking Persuasively shows you how to hone your speaking skills in business and politics, in the classroom and in the community. It explains how to order your material, attract the audience's attention (and keep it), control your voice and adapt your techniques for different situations. It also includes practical advice on making a successful business pitch, communicating across cultures and handling the media. Speaking Persuasively is for anyone who wants to become a more persuasive and more impressive public speaker. Valuable information that will make the first-timer more comfortable and the gifted public speaker more persuasive. Assistive Technology from Adapted Equipment to Inclusive Environments Pier Luigi Emiliani,L. Burzagli,2009 The concept of assistive technology is moving away from adopting the most appropriate devices to overcome the limitations of users, to the designing and setting up of total environments in which people can live, supported by suitable services and additional support devices integrated within the environment. These two perspectives are deeply intertwined, both from technological and social points of view, and the relationship between them currently represent the primary challenge for the field of assistive technology. This publication covers the proceedings of the 10th European Conference of the Association for the Advancement of Assistive Technology in Europe (AAATE), the organization which stimulates the advancement of assistive technology for the benefit of people with disabilities, including elderly people. This conference seeks to bridge the gap

between these two complementary approaches, providing an opportunity to clarify differences and common points and to better define future direction. This publication is a significant contribution to the advancement of inclusion for people living with a disability everywhere.

Human Interface and the Management of Information. Interacting with Information Gavriel Salvendy, Michael J. Smith, 2011-06-27 This two-volume set LNCS 6771 and 6772 constitutes the refereed proceedings of the Symposium on Human Interface 2011, held in Orlando, FL, USA in July 2011 in the framework of the 14th International Conference on Human-Computer Interaction, HCII 2011 with 10 other thematically similar conferences. The 137 revised papers presented in the two volumes were carefully reviewed and selected from numerous submissions. The papers accepted for presentation thoroughly cover the thematic area of human interface and the management of information. The 62 papers of this second volume address the following major topics: access to information; supporting communication; supporting work, collaboration; decision-making and business; mobile and ubiquitous information; and information in aviation.

Researching Multilingually Bridget Goodman, Brian Seilstad, 2025-01-14 This book examines what 'researching multilingually' means in practice and theory. It is multinational and transnational in scope, including the voices of both experienced and emerging scholars who reflect on the process of conducting, analyzing and reporting multilingual research in various settings. Together the chapters address issues including theorizing multilingualism and collaborative research with multilingual scholars and research participants; navigating insider or outsider positioning with research participants; making and accepting language choices among researchers and participants during research; translating and interpreting multilingual data; and confronting policy challenges of multilingual research design and reporting in English-dominant contexts. The book ties these processes to existing theories of multilingualism in research and proposes new ways of understanding best practices while also wrestling with challenges and at times 'failures' in the research process.

Globalization of Language and Culture in Asia Vinita Vaish, 2010-05-13 The impact of globalization processes on language is an emergent field in sociolinguistics. To date there has not been an in-depth look at this in Asia, although Asia includes the two most populous globalizing economies of the world, India and China. Covering the major themes in the field of globalization and language, this book will take a look at topics such as English emerging as the medium of instruction for subjects like mathematics and science. Another theme is the rise of Mandarin as a potentially 'global' language networking the Chinese diaspora. The cultural contexts of Asia, specifically the Sinic, Hindu and Islamic civilizations give the processes

of globalization and language a unique dimension. This book is suitable for researchers and postgraduate students in all fields of sociolinguistic enquiry.

Languages and Identities in a Transitional Japan Ikuko Nakane,Emi Otsuji,William S. Armour,2015-08-20 This book explores the transition from the era of internationalization into the era of globalization of Japan by focusing on language and identity as its central themes. By taking an interdisciplinary approach covering education, cultural studies, linguistics and policy-making, the chapters in this book raise certain questions of what constitutes contemporary Japanese culture, Japanese identity and multilingualism and what they mean to local people, including those who do not reside in Japan but are engaged with Japan in some way within the global community. Topics include the role of technology in the spread of Japanese language and culture, hybrid language use in an urban context, the Japanese language as a lingua franca in China, and the identity construction of heritage Japanese language speakers in Australia. The authors do not limit themselves to examining only the Japanese language or the Japanese national/cultural identity, but also explore multilingual practices and multiple/fluid identities in a transitional Japan. Overall, the book responds to the basic need for better accounts of language and identity of Japan, particularly in the context of increased migration and mobility.

Pragmatics of Japanese Mutsuko Endo Hudson,Yoshiko Matsumoto,Junko Mori,2018-04-15 Bringing together the latest studies on Japanese pragmatics, this edited volume showcases the breadth of research conducted in this ever-expanding, interdisciplinary field, with the introductory chapter providing a useful summary of developments in the field in the past decades. The twelve chapters address a variety of traditional and emerging topics by adopting diverse theoretical and methodological frameworks and presenting a range of perspectives on grammar, interaction and culture. They demonstrate a wide scope of pragmatics research informed by, as well as informing, usage-based grammar, cognitive linguistics, conversation analysis, sociolinguistics, linguistic anthropology, and literary and cultural studies. Chapters also consider future directions as to how the study of Japanese language in use will continue to offer critical data and analyses to the field dominated by the study of English and other European languages. This volume is certain to be of interest to students and scholars engaged in pragmatics in general and the Japanese language in particular.

Japan after the Economic Miracle P. Bowles,L.T. Woods,2012-12-06 As Japan comes to grips with a decade of economic malaise after its spectacular post-war growth record, how will Japanese society react? Contributors to this volume examine the challenges ahead for Japan in the fields of politics, economics, sociology, environment and business. This multidisciplinary inquiry looks for areas of continuity and for new directions in government, business and social policy and practice. Also examined is how Western students should approach the study of Japan; what new directions should institutions take to ensure that students learn about the `real' Japan? Written by Canadian academics, the articles in this volume will be of interest to academics and policy-makers studying or teaching about contemporary Japan.

Culture and Foreign Language Education Wai Meng Chan, Sunil Kumar Bhatt, Masanori Nagami, Izumi Walker, 2015-07-31

The teaching of culture and interculturality is today viewed as an integral part of foreign language education. This book presents insights from recent research on the role of culture in second/foreign and heritage language education. It contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research. The chapters following the introduction are organised in four parts focusing on: 1) the teacher's role in integrated language and culture learning; 2) the interrelationship between culture, identity, and language learning and use; 3) the effect of culture on learner characteristics which impact language learning processes and outcomes; and 4) curriculum development aimed at fostering language and culture learning. The chapters in Parts 1 to 3 present contributions from current research - either in the form of the authors' original studies or comprehensive reviews of relevant essential research - which bears important implications for curricular practice in foreign language and language teacher education. This close link between research, theory and practice is also maintained in the two chapters in Part 4, which present developmental projects based on well-grounded theoretical frameworks.

Global Networks Linda Marie Harasim, 1993 *Global Networks* takes up the host of issues raised by the new networking technology that now links individuals, groups, and organizations in different countries and on different continents. The 21 contributions focus on the implementation, applications and impact of computer-mediated communication in a global context.
