Occupational Therapy for Older People Christian Pozzi,Alessandro Lanzoni,Maud J. L. Graff,Alessandro Morandi,2020-01-31 This book focuses on evidence-based occupational therapy in the care of older adults in different clinical settings, from home to acute hospital, from intensive care unit to rehabilitation centers and nursing homes. Occupational therapy has progressively developed as a new discipline aiming to improve the daily life of individuals of different ages, from children to older adults. The book first reviews the interaction between occupational therapy and geriatrics and then discusses in depth how occupational therapy interventions are applied in the community, in the acute hospital and in the nursing home. It highlights the key role of occupational therapy in the management of frail patients, including critically ill older patients and persons with dementia, and describes in detail how to maintain occupational therapy interventions across different settings to avoid the fragmentation of care. The ageing population requires new innovative approaches to improve the quality of life, and as such this book provides clinicians with handy, key information on how to implement occupational therapy in the daily clinical care of older adults based on the current scientific evidence.

Pitching in a Pinch Christy Mathewson,2013-03-27 An inside baseball memoir from the game's first superstar, with a foreword by Chad Harbach Christy Mathewson was one of the most dominant pitchers ever to play baseball. Posthumously inducted into the Baseball Hall of Fame as one of the "Five Immortals," he was an unstoppable force on the mound, winning at least twenty-two games for twelve straight seasons and pitching three complete-game shutouts in the 1905 World Series. *Pitching in a Pinch*, his witty and digestible book of baseball insights, stories, and wisdom, was first published over a hundred years ago and presents readers with Mathewson's plainspoken perspective on the diamond of yore—on the players, the chances they took, the jinxes they believed in, and, most of all, their love of the game. Baseball fans will love to read first-

hand accounts of the infamous Merkle's Boner incident, Giants manager John McGraw, and the unstoppable Johnny Evers and to learn how much—and just how little—has really changed in a hundred years. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Fashioning Identities in Renaissance Art Mary Rogers, 2019-06-04 Originally published in 2000. Fashioning Identities analyses some of the different ways in which identities were fashioned in and with art during the Renaissance, taken as meaning the period c.1300-1600. The notion of such a search for new identities, expressed in a variety of new themes, styles and genres, has been all-pervasive in the historical and critical literature dealing with the period, starting with Burckhardt, and it has been given a new impetus by contemporary scholarship using a variety of methodological approaches. The identities involved are those of patrons, for whom artistic patronage was a means of consolidating power, projecting ideologies, acquiring social prestige or building a suitable public persona; and artists, who developed a distinctive manner to fashion their artistic identity, or drew attention to aspects of their artistic personality either in self portraiture, or the style and placing of their signature, or by exploiting a variety of literary forms.

Architecture and Embodiment Harry Francis Mallgrave, 2013-06-26 In recent years we have seen a number of dramatic discoveries within the biological and related sciences. Traditional arguments such as nature versus nurture are rapidly disappearing because of the realization that just as we are affecting our environments, so too do these altered environments restructure our cognitive abilities and outlooks. If the biological and technological breakthroughs are promising benefits such as extended life expectancies, these same discoveries also have the potential to improve in significant ways the quality of our built environments. This poses a compelling challenge to conventional architectural theory... This is the first book to consider these new scientific and humanistic models in architectural terms. Constructed as a series of five essays around the themes of beauty, culture, emotion, the experience of architecture, and artistic play, this book draws upon a broad range of discussions taking place in philosophy, psychology, biology, neuroscience, and anthropology, and in doing so questions what implications these discussions hold for architectural design. Drawing upon a wealth of research, Mallgrave argues that we should turn our focus away from the objectification of architecture (treating design as the creation of objects) and redirect it back to those for whom we design: the people inhabiting our built

environments.

Zama Antonio Di Benedetto, 2016-08-23 An NYRB Classics Original First published in 1956, Zama is now universally recognized as one of the masterpieces of modern Argentine and Spanish-language literature. Written in a style that is both precise and sumptuous, weirdly archaic and powerfully novel, Zama takes place in the last decade of the eighteenth century and describes the solitary, suspended existence of Don Diego de Zama, a highly placed servant of the Spanish crown who has been posted to Asunción, the capital of remote Paraguay. There, eaten up by pride, lust, petty grudges, and paranoid fantasies, he does as little as he possibly can while plotting his eventual transfer to Buenos Aires, where everything about his hopeless existence will, he is confident, be miraculously transformed and made good. Don Diego's slow, nightmarish slide into the abyss is not just a tale of one man's perdition but an exploration of existential, and very American, loneliness. Zama, with its stark dreamlike prose and spare imagery, is at once dense and unforeseen, terse and fateful, marked throughout by a haunting movement between sentences, paragraphs, and sections, so that every word seems to emerge from an ocean of things left unsaid. The philosophical depths of this great book spring directly from its dazzling prose.

Teachings Of An Initiate Max Heindel, 2023-10-01 Within the hallowed pages of this transcendent masterpiece, Heindel, like a wise oracle, imparts profound wisdom and unveils the veils shrouding the mysteries of existence. His words serve as keys that unlock the portals to higher knowledge, guiding us on an inner pilgrimage toward self-realization and cosmic harmony. With poetic grace, Heindel weaves together the threads of ancient wisdom, esoteric teachings, and scientific insights, creating a tapestry of enlightenment that transcends the boundaries of time and space. Through his meticulous guidance, he unveils the hidden laws of the universe and empowers us to align our lives with divine purpose and cosmic order. In Teachings of an Initiate, Heindel beckons us to embark upon a sacred quest of self-discovery and inner transformation. His teachings illuminate the path toward spiritual awakening, unveiling the limitless potential that resides within each of us. This extraordinary literary creation serves as a beacon of light amidst the shadows of uncertainty, inspiring seekers of truth to embrace the path of initiation.

Hölderlin's Hymns Martin Heidegger, 2014-09-16 "Translated with skill and precision, these lectures . . . present the most penetrating analysis of two of Hölderlin's most significant hymns" (Choice). Martin Heidegger's 1934-1935 lectures on Friedrich Hölderlin's hymns "Germania" and "The Rhine" are considered the most significant among Heidegger's lectures on Hölderlin. Coming at a crucial time in his career, the text illustrates Heidegger's turn toward language, art, and poetry while reflecting his despair at his failure to revolutionize the German university and his hope for a more profound revolution through the German language, guided by Hölderlin's poetry. These lectures are important for understanding Heidegger's changing relation to politics, his turn toward Nietzsche, his thinking about the German language, and his breakthrough to a new kind of poetic thinking. "[This translation], including a clear and concise introduction and useful glossaries, attains both

accuracy and clarity, rarely faltering in its choice of words.” —Notre Dame Philosophical Reviews

Prison to Praise Merlin Carothers,2010-09-16 In PRISON TO PRAISE Merlin Carothers describes how his life was transformed by finding faith in Christ. Using many stories from his own experience as a US army chaplain, he issues a radical challenge to praise God in all circumstances. 'Miracles, power and victory will all be part of what God does in our lives when we learn to rejoice in all things,' he promises.

A Catholic Priest Meets Sai Baba Mario Mazzoleni,1994 Don Mario Mazzoleni uses his theological training to examine Sai Baba's miracles and teachings. His doubts dissolve as he learns how Sai Baba's teachings mirror those of his divine master, Jesus Christ. When the Church demands that Don Mario recant for saying that God is alive or be excommunicated, the author said, Institutions do not accompany anyone beyond the grave, the only reality that one can present to God is one's conscience. The Lord who examines our hearts is the Judge!. Don Mario Mazzoleni was excommunicated Sept. 24, 1992.
