The Mystery of the Land of Punt Unravalled Ahmed Ibrahim Awale,2015-01-21 This book contains convincing evidence and persuasive arguments to cause a stir among historians - Egyptologists in particular - as it will expose archaeological findings excavated in an area that has never been thought to have historical significance. This is no place other than Hargeisa, the capital of Somaliland, and surrounding areas. While the ground-breaking information contained in this book is hoped to bring the long standing argument on the location of the mysterious Land of Punt almost to a close, it will also shed a new light on the race controversy surrounding ancient Egyptians.

Land of Punt: In Search of the Divine Land of the Egyptians Dhani Irwanto,2019-03-22 The Land of Punt was an ancient trading partner of Egypt. It was known for producing and exporting gold, incense, aromatic resins, ebony, ivory, tortoise shells and wild animals. The region is known from ancient Egyptian records of trade expeditions to it. The ancient Egyptians called the Land of Punt the Divine Land or the Land of Gods. When interpreted as “holy land” or “land of the ancestors”, meant that the ancient Egyptians viewed the Land of Punt as their ancestral homeland, and its location is toward the sunrise, the abode of the sun god Ra. The exact location of the Land of Punt is unknown. Through the centuries debate goes on with scholars and historians on every side offering plausible supports for their claims. After gathering abundance of converging evidence, the author argues that the Land of Punt is located in Sumatera, Indonesia. In connection with the Land of Punt as the ancestral land of the ancient Egyptians, it can be concluded that the Divine Land or the ancestral land of the Egyptians is Sumatera.

Seafaring Expeditions to Punt in the Middle Kingdom Kathryn A. Bard,Rodolfo Fattovich†,2018-08-13 In the 12th Dynasty (ca. 1985-1773 BC) the Egyptian state sent a number of seafaring expeditions to the land of Punt, located somewhere in the southern Red Sea region, in order to bypass control of the upper Nile by the Kerma kingdom. Excavations at Mersa/Wadi Gawasis on the Red Sea coast of Egypt from 2001 to 2011 have uncovered evidence of the ancient harbor (Saww) used for these expeditions, including parts of ancient ships, expedition equipment and food - all transported ca. 150 km across the desert from Qift in Upper Egypt to the harbor. This book summarizes the results of these excavations for the organization of these logistically complex expeditions, and evidence at the harbor for the location of Punt. “[There] is no shortage of analysis relating to the Punt expeditions, much of which is likely to become the new ‘standard’ account of these

voyages and of the huge logistical and ideological undertaking they represented. The volume will therefore be of immense value to scholars and students of ancient Egypt, and of ancient seafaring more generally.” - Julian Whitewright, University of Southampton, in: *The International Journal of Nautical Archaeology* 48.2 (2019)

Atlantis: The lost city is in Java Sea Dhani Irwanto, 2015-04-18 After thousands of years, so many of us still search for the answer to the mystery of Atlantis. From time to time, archaeologists and historians locate evidence. There have been many locations proposed for the location of Atlantis. Ever since the first recorded history of Atlantis, written by the Greek philosopher Plato over 2,300 years ago, debate has raged as to whether or not Atlantis ever really existed. The existence of Atlantis is supported by the fact that it is described in great details by Plato. In addition, various conditions, events and goods unknown to Plato are also described in detailed and lengthy words. The recent knowledge of late glacial and postglacial sea level rise and land subsidence that occurred almost precisely at the time described by Plato also becomes strong evidence to the truth of the story. Plato describes the Atlantis from point of views of geography, climate, plain layout, city layout, river and channel hydraulics, produces, social structure, customs, mythology and its destruction in details including their dimensions and orientations. These become the subjects of the author to hypothesize that the lost city of Atlantis is in Java Sea. The works include over 5-year research and analysis of textbooks, papers, internet sites and digital data collected by the author as well as some site observations. These resulted in accurate evidence to the hypothesis that the story fits the location in question. The book discusses the existence of Atlantis in specific details that have never been written by others.

Mysterious Lands David O'Connor, 2016-06-03 *Mysterious Lands* covers two kinds of encounters. First, encounters which actually occurred between Egypt and specific foreign lands, and second, those the Egyptians created by inventing imaginary lands. Some of the actual foreign lands are mysterious, in that we know of them only through Egyptian sources, both written and pictorial, and the actual locations of such lands remain unknown. These encounters led to reciprocal influences of varying intensity. The Egyptians also created imaginary lands (pseudo-geographic entities with distinctive inhabitants and cultures) in order to meet religious, intellectual and emotional needs. Scholars disagree, sometimes vehemently, about the locations and cultures of some important but geographically disputed actual lands. As for imaginary lands, they continually need to be re-explored as our understanding of Egyptian religion and literature deepens. *Mysterious Lands* provides a clear account of this subject and will be a stimulating read for scholars, students or the interested public.

The Seventy Great Mysteries of Ancient Egypt Bill Manley, 2003 Ancient Egypt so familiar and yet so distant. In this new compendium in the popular Seventy series, an international team of Egyptologists and archaeologists probes the most compelling mysteries in the light of recent research and discoveries. First, there are the puzzles that set the ancient Egyptians apart from other cultures. Where did these people come from originally, and why did they believe their king was a god? Why did they mummify their loved ones in death and then write letters to them? Some mysteries revolve around Egypt's relations with other peoples such as the lost African kingdoms of Yam and Punt, the Israelites and their exodus to the Promised Land, or the Sea People warriors of the ancient Mediterranean. Even today, Egyptologists continue to unearth new mysteries: evidence that Tutankhamun was murdered, unexplained shafts inside the Great Pyramid that seem to align with the stars, and a massive mausoleum built for the sons of Rameses II. All the famous people and places of ancient Egypt are discussed: Rameses the Great, Cleopatra, Akhenaten, the Great Pyramid, the Valley of the Kings as well as fascinating but shadowy figures such as Senenmut, Smendes, and Khababash. Hundreds of evocative photographs and specially commissioned diagrams, maps, plans, and reconstructions complement the intriguing texts. 420 illustrations, 354 in color.

Taprobana: Classical Knowledge of an Island in the Opposite-Earth Dhani Irwanto, 2019-03-27 Taprobana is the historical name for an island of the Antichthonos ("opposite-world"), in the Eastern Sea, described by some Roman classic writers. Claudius Ptolemy described Taprobana in his *Geographia*, written about 150 CE, a relatively large island south of continental Asia and straddling the equator. Ptolemy also supplies a mass of information, including its coasts, the names of the headlands, rivers and seaport towns, the names of many cities and tribes in the interior, with coordinates. There have been primary subject of debates over Taprobana. Each succeeding generation has read vague descriptions of the island left by their predecessors, and wrangled over what their predecessors really meant. Some scholars consider it to be a wild misinterpretation of any one of several islands, including Sumatera and Sri Lanka. In the end, it is impossible to assign a single place with all of the qualities that have been labeled with the name Taprobana over the ages. After gathering abundance evidence, the author finally proofs that Taprobana is actually the Kalimantan Island (English: Borneo), an island at the geographic center of Maritime Southeast Asia.

Sundaland: Tracing The Cradle of Civilizations Dhani Irwanto, 2019-02-22 Sundaland is a bio-geographical region of Southeastern Asia which encompasses the Sunda Shelf, the part of the Asian continental shelf that was exposed during the Last Ice Age. It included the Malay Peninsula on the Asian mainland, as well as the large islands of Kalimantan, Java and Sumatera, and their surrounding islands. Sundaland is in the tropics, surrounded by oceans, and within the Ring of Fire. Benefitting from the heavy precipitation, volcanic deposits in Sundaland develop into some of the richest forestry and agricultural lands, and developed into some of the richest fauna on Earth. The vast majority of scholars accept that every living human being is descended from a small group in Africa, who then dispersed into the wider world. Archaeological and fossil evidence support an early migration of modern humans left Africa and followed the coastlines of Africa, Arabia, India and Sundaland. After migrating from the semi-deserted savannas of Africa, man first found a place in Sundaland where food was abundant and it was there that they left hunter-gatherer culture and invented farming, agriculture, trading and civilization, which made humanity first flourished. All this took place during the Last Glacial period. The sea levels continued to rise gradually to peak levels about 5,500 years ago, causing land loss on tropical coasts with flat continental shelves. Cracks in the earth's crust as the weight of the ice shifted to the seas set off catastrophic events compounded by earthquakes, volcano eruptions, super waves and floods drowned the coastal cultures and all the flat continental shelves of Southeast Asia, and wiped out many populations. As the sea rolled in, there was a mass migration from the sinking continent. Genetic studies show that there has been a sharp decline in the population of the world, and population turnovers from Southeast, East and South Asia to Europe, Near East and the Caucasus beginning at the the end of the Younger Dryas period. The Younger Dryas disasters are also documented as legends, myths or tales in almost every region on Earth, observable

with tremendous similarities. They are common across a wide range of cultures, extending back into Bronze Age and Neolithic prehistory. The overwhelming consistency among legends and myths of flood and the repopulation of man from a flood hero similar to the Noah Flood are found in distant parts of the Earth. The myths similar to the Garden of Eden, Paradise or Divine Land echo among the populations around the world. Memories of their origin are documented in their legends, such as the stories of Atlantis, Neserser, Land of Punt, Land of Ophir, Kumari Kandam, Kangdez and Taprobana. Pyramids spread in many parts of the world and emerged separately from one another by oceans who supposedly never discovered each other's existence. Those indicate that they were derived from a common origin. Further, scholastic belief by etymologists and linguists are positive that all world languages sprang from a common source.

The Archaeology of Africa Thurstan Shaw, 1993 'The list of contributors to The Archaeology of Africa is a most distinguished one ... offering new insights and perspectives on a whole range of themes critical to African prehistory and early history' - Professor Colin Renfrew Africa has a vibrant past. It emerges from this book as the proud possessor of a vast and highly complicated interweaving of peoples and cultures, practising an enormous diversity of economic and social strategies in an Extraordinary range of environmental situations. At long last the archaeology of Africa has revealed enough of Africa's unwritten past to confound preconceptions about this continent and to upset the picture inferred from historic written records. Without an understanding of its past complexities, it is impossible to grasp Africa's present, let alone its future.
