Barbara Cartland

Hazard of Hearts Barbara Cartland,2018-03-01 After her mother died when Serena Staverley was just nine, her father, Sir Giles, indulged his deep passion for gambling, leaving his only child in charge of an impoverished household. Now a stunningly beautiful young woman, Serena is mortified to hear that her father has been killed in a duel. Worse still, it seems that he went willingly, even deliberately to his death. But why? The appalling answer is presented by her much-loved cousin Nicholas who suddenly proposes marriage - to save Serena from a terrible fate - Sir Giles has not only lost the Staverley estate on the turn of a card, but he has also gambled away the hand in marriage of his lovely daughter, along with her eighty thousand pounds inheritance all in a last desperate bet to try and best his arch-rival at the tables, Lord Vulcan. Serena has little alternative but to marry a man whose wicked ways have contributed to her family's downfall. And Lord Vulcan takes her away from her beloved Staverley to his majestic ancestral home, Mandrake, which is close to the sea and where Serena finds its welcome to be strange and sinister. Abducted by a lecherous guest at Mandrake, threatened by a smuggler Marchioness, rescued by a gentleman highwayman and, resisting the marriage of convenience, Serena slowly realises that she has lost her heart to a man she thought she despised.

A Duel of Hearts Barbara Cartland,2012-10-14 Just seventeen, Lady Caroline Faye is already the toast of the Season and accustomed to the ways of genteel Society. So when notorious cad Sir Montagu Reversby offers to drive her in his phaeton from London to Sevenoaks, she innocently accepts - little knowing that he is planning to fake a broken axle so that she will be forced to spend the night alone with him at a remote country inn. But Lady Caroline is made of sterner stuff than the predatory Sir Montagu imagined. Escaping his lecherous clutches, she finds refuge in the imperious Brecon Castle only to discover that her new-found haven and its master, Lord Brecon, harbour dark and terrible secrets. A murderous plot is afoot and Caroline's innocent mistake will come back to haunt her as heartbreak and humiliation in the dark, foreboding castle turn to hope and then ardent, all-consuming passion.

A Hazard of Hearts Barbara Cartland,Robert Baxter,1969

A Hazard Of New Fortunes William Dean Howells,2020 No one can complain that in this story Mr. Howells has taken his type from the commonplace. It is a study of life in New York, and the author has brought together such a gallery of odd and strongly differentiated characters as could perhaps be found in no other city on the continent, while the conditions and

phases of social life represented are not less distinctive and peculiar. The Marches, it is true, are from Boston, but they serve the purpose of external points of observation, whence to note and sufficiently to emphasize those features of our city life which of necessity strike strangers and outsiders most forcibly and with the greatest freshness of suggestion. A new magazine is founded with the money of old Dryfoos, a natural gas millionaire, whose primary object is to give his son Conrad — a youth of saint-like character and dominant altruism — opportunity to become a businessman. The prime mover of the venture is Fulkerson, a true Western Yankee, if the phrase be allowable, whose engaging impudence, fluent slang, indomitable assurance, and substantial loyalty and goodness of heart are sure to make him as great a favorite with the reader as he is with all who know him in the story. The Marches, too, are fantastic, and nowhere has Mr. Howells better presented that peculiar American humor which finds motives for half-sarcastic jest and quip in even the most serious things, less out of lightness of heart than from an almost desperate consciousness of hopeless incongruities and perplexities inherent in the general scheme. The picture is in itself a condemnation of and protest against that rank growth of naked materialism which is the most depressing feature of our time. The character and the faults of society are shown plainly but temperately — the spirit of levity, the love of spectacle, the repugnance to serious thinking, the absence of jealousy of popular rights, constantly encroached upon, ignored and subordinated to selfish corporate or individual interests. The aspects of the city are also most graphically and admirably described in many a wandering of the Marches, and the book exhibits an amount of local study undertaken by the author which speaks well for his conscientiousness, and adds much to the charm and permanent interest of the story. There is, as we have intimated, an unwonted variety and an unwonted force in *A Hazard of New Fortunes*. If it can hardly be said to have a dominant note, it is none the less a faithful and carefully elaborated study of New York life, and it presents some of the most salient characteristics of that life in a very impressive and artistic manner. Most readers will, we think, agree with us that the change in method here shown is a change for the better. Never, certainly, has Mr. Howells written more brilliantly, more clearly, more firmly, or more attractively, than in this instance. The reversion to these strong individualizations seems to have put new vigor into his hands, and he deals with the deeper tragedies, the graver emotions of life, with a power which may perhaps be regarded as a practical demonstration of the ultimate supremacy destined to be attained by Nature over Art ; by the true over the false Realism.

Eating Smoke Mark Tebeau, 2012-09-01 During the period of America's swiftest industrialization and urban growth, fire struck fear in the hearts of city dwellers as did no other calamity. Before the Civil War, sweeping blazes destroyed more than \$200 million in property in the nation's largest cities. Between 1871 and 1906, conflagrations left Chicago, Boston, Baltimore, and San Francisco in ruins. Into the twentieth century, this dynamic hazard intensified as cities grew taller and more populous, confounding those who battled it. Firefighters' death-defying feats captured the popular imagination but too often failed to provide more than symbolic protection. Hundreds of fire insurance companies went bankrupt because they could not adequately deal with the effects of even smaller blazes. Firefighters and fire insurers created a physical and cultural infrastructure whose legacy—in the form of heroic firefighters, insurance policies, building standards, and fire hydrants—lives on in the urban built environment. In *Eating Smoke*, Mark Tebeau shows how the changing practices of firefighters and fire insurers shaped the built landscape of American cities, the growth of municipal institutions, and the experience of urban life. Drawing on a wealth of fire department and insurance company archives, he contrasts the invention of a heroic culture of firefighters with the rational organizational strategies by fire underwriters. Recognizing the complexity of shifting urban environments and constantly experimenting with tools and tactics, firefighters fought fire ever more aggressively—eating smoke when they ventured deep into burning buildings or when they scaled ladders to perform harrowing rescues. In sharp contrast to the manly valor of firefighters, insurers argued that the risk was quantifiable, measurable, and predictable. Underwriters managed hazard with statistics, maps, and trade associations, and they eventually agitated for building codes and other reforms, which cities throughout the nation implemented in the twentieth century. Although they remained icons of heroism, firefighters' cultural and institutional authority slowly diminished. Americans had begun to imagine fire risk as an economic abstraction. By comparing the simple skills employed by firefighters—climbing ladders and manipulating hoses—with the mundane technologies—maps and accounting charts—of insurers, the author

demonstrates that the daily routines of both groups were instrumental in making intense urban and industrial expansion a less precarious endeavor.

Richard has offered to rent The Manor House to Prince Alexis for the Season and has offered Meta's services as English Tutor to the seventeen-year-old Princess Nathlia. In that guise Meta's mission is to observe the Russians and report back to the Queen any suspicious behaviour that might suggest that the Prince is indeed a spy.
