Reframing the Feudal Revolution Charles West,2013-05-16 This book revisits the idea of a 'Feudal Revolution' in Europe between 800 and 1100, examining the causes of profound socio-economic change.

Ordines Iudicarii and Libelli de Ordine Iudiciorum Linda Fowler-Magerl,1994 Traetises describing judicial procedure appeared for the first time in the twelfth century, and the expressions De iudiciis, Libellus de ordine iudiciorum and Ordines iudicarii were among the first titles used to designate them. An ordo iudiciarius or an ordo iudiciorum is devoted exclusively to the procedural law found in Roman and/or canon law. Although the author of an ordo may have had a certain forum in mind, his description of procedure has general validity. An ordo differs in this sense from a stylus, which is

the description of the procedure appropriate to a specific court. This volume draws from *Ordo iudiciorum vel ordo iudiciarius* (1984) by the same author, which describes the procedural texts written before 1234, but encompasses the complete lifecycle of the ordines, from the middle of the twelfth to the end of the fifteenth century.

Colour Engineering Phil Green, Lindsay MacDonald, 2011-09-23 As colour imaging takes on increasing importance in a range of products and technologies, colour fidelity across different media has become essential. This book has arisen from the need for a specialist text that brings together key developments in colour management technology and findings from the colour engineering research community. Edited by highly regarded specialists in colour management systems, *Colour Engineering* introduces the reader systematically to the art of consistent quality of image reproduction - regardless of the monitor or graphic user interface employed. Features: a thorough review of the elements of colour science that apply to colour imaging. a comprehensive analysis of methods for characterizing devices in the colour imaging chain. a review of the key topics in colour management. the different approaches to implementing colour systems at some of the leading exponents in the imaging industry. This authoritative book depicting the latest developments in colour imaging, written by a group of authors at the forefront of research in this exciting and fast-moving field will appeal to students as well as practitioners of the new discipline of colour engineering. The Society for Information Display (SID) is an international society, which has the aim of encouraging the development of all aspects of the field of information display. Complementary to the aims of the society, the Wiley-SID series is intended to explain the latest developments in information display technology at a professional level. The broad scope of the series addresses all facets of information displays from technical aspects through systems and prototypes to standards and ergonomics

Lordships of Southern Italy Sandro Carocci, 2018 What was the real nature of medieval lordship in southern Italy? What can this region and its history bring to the great European debates on feudalism and aristocratic powers, their structures and evolution, and their social and economic impact? What contribution can the Kingdom of Sicily make to studies of the relationships between sovereigns, nobilities and peasant societies? And can the study of seigneurial powers and rural societies reshape the old arguments regarding the economic backwardness of the Mezzogiorno (the South of Italy) and the central role of its monarchy? This book offers the first systematic analysis of lordship in southern Italy in the twelfth and thirteenth centuries, under the Norman, Staufen and early Angevin kings. It offers new interpretations of the powers of the nobility, and of rural societies and royal policy. It reveals the complexity of interactions between the king, nobles and peasants, and how they occurred and were expressed through laws and violence, feudal relations and economic investments, debates on freedom and serfdom, and the exploitation of people and natural resources. In these interactions a leading role is

played by peasant societies - with previously unsuspected levels of dynamism - to set against that of the kings, who were determined to curb aristocratic powers, and of the nobles who were obliged to adapt their lordship in response to powerful rural societies and crown policies. What emerges is a hitherto unseen Mezzogiorno, vital and complex, whose study allows a deeper understanding not only of the affairs of the South but of many other regions of Europe.

Festival Architecture Sarah Bonnemaïson, Christine Macy, 2007-12-06 With contributions from provocative art and architectural historians, this book is a unique exposition of the temporary architecture erected for festivals and the role it has played in developing Western architectural and urban theory. Festival Architecture is arranged in historical periods - from Antiquity to the modern era - and divided between analyses of specific festivals, set in relation to contemporary architecture and urban design ideas and theories. Illustrated with a wealth of unusual and rarely-seen images from the European festival tradition, this is a fascinating outline of the history of festival architecture ideal for postgraduate architecture and urban design students.

Europa Triumphans Helen Watanabe-O'Kelly, 2010-02 A landmark in the study of early modern Europe, this two-volume collection makes available for the first time a selection of the most important texts from court and civic festival books. Festival entertainments were presented to mark such occasions as royal and ducal entries to capital cities, dynastic marriages, the birth and christening of heirs, religious feasts and royal and ducal funerals. Europa Triumphans represents the chronological and trans-European range of the court and civic festival. These festivals are considered not simply as texts, but as events, and are introduced by groups of scholars, each with a specialist knowledge of the political, social and cultural significance of the festival and of the iconography, spectacle, music, dance, voice and gesture in which they were expressed. To demonstrate the geographic spread and political significance of festivals, and to illustrate the range of aesthetic languages they deploy, the festivals included in these two volumes are grouped in the following sections: Henri III; Genoa; Poland-Lithuania; The Netherlands; The Protestant Union; La Rochelle; Scandinavia; and The New World. These texts provide many valuable insights into the variety of political systems and historical circumstances that formed them. Beautifully produced with 148 black-and-white and 23 colour illustrations, Europa Triumphans represents an invaluable reference source for the study of early modern Europe. It presents texts both in transcription and translated into English, and is supplemented with introductory essays and commentaries. Europa Triumphans is co-published by Ashgate and the Modern Humanities Research Association, in conjunction with the AHRB Centre for the Study of the Renaissance at the University of Warwick, UK.

How the Other Half Lives Jacob A. Riis, 2011 Jacob Riis's famed 1890 photo-text addressed the problems of tenement housing, immigration, and urban life and work at the beginning of the Progressive era. David Leviatin edited this complete edition of How the Other Half Lives to be as faithful to Riis's original text and photography as possible. Uncropped prints of

Riis's original photographs replace the faded halftones and drawings from photographs that were included in the 1890 edition. Related documents added to the second edition include a stenographic report of one of Riis's lantern-slide lectures that demonstrates Riis's melodramatic techniques and the reaction of his audience, and five drawings that reveal the subtle but important ways Riis's photographs were edited when they were reinterpreted as illustrations in the 1890 edition. The book's provocative introduction now addresses Riis's ethnic and racial stereotyping and includes a map of New York's Lower East Side in the 1890s. A new list of illustrations and expanded chronology, questions for consideration, and selected bibliography provide additional support.

[The Order Has Been Carried Out](#) Alessandro Portelli,2016-06-01 On March 24, 1944, Nazi occupation forces in Rome killed 335 unarmed civilians in retaliation for a partisan attack the day before. Portelli has crafted an eloquent, multi-voiced oral history of the massacre, of its background and its aftermath. The moving stories of the victims, the women and children who survived and carried on, the partisans who fought the Nazis, and the common people who lived through the tragedies of the war together paint a many-hued portrait of one of the world's most richly historical cities. *The Order Has Been Carried Out* powerfully relates the struggles for freedom under Fascism and Nazism, the battles for memory in post-war democracy, and the meanings of death and grief in modern society.

Hipster Christianity Brett McCracken,2010-08-01 Insider twentysomething Christian journalist Brett McCracken has grown up in the evangelical Christian subculture and observed the recent shift away from the stained glass and steeples old guard of traditional Christianity to a more unorthodox, stylized 21st-century church. This change raises a big issue for the church in our postmodern world: the question of cool. The question is whether or not Christianity can be, should be, or is, in fact, cool. This probing book is about an emerging category of Christians McCracken calls Christian hipsters--the unlikely fusion of the American obsessions with worldly cool and otherworldly religion--an analysis of what they're about, why they exist, and what it all means for Christianity and the church's relevancy and hipness in today's youth-oriented culture.
