Expectations Unfulfilled: Norwegian Migrants in Latin America, 1820-1940 ,2015-12-04 In Expectations Unfulfilled scholars from Argentina, Belgium, Brazil, Mexico, Norway, Spain and Sweden study the experiences of Norwegian migrants in Latin America between the Wars of Independence and World War II.

The Europeanization of National Foreign Policies Towards Latin America Lorena Ruano,2013 Who shapes the European Union's policy towards Latin America? How has this EU policy modified individual member states' relations with the region? This book provides a comparative account of seven member states' bilateral links with Latin America since 1945, in the context of their EU membership and based on the concept of 'Europeanization'. It illustrates how and why the main architects of this EU policy have been Spain and Germany. In contrast, Poland, Sweden and Ireland, which had little previous interaction with Latin America, have developed their current relations with that region virtually as a result of their EU membership. The United Kingdom and France lie in the middle: they have been influential in certain policy-areas and key periods in history, while they have adapted to what is done at the EU level in others. Practitioners, established academic experts as well emerging scholars in the field bring to be bear a novel combination of pioneering research and cutting edge conceptual analysis on this important but neglected area of the EU's foreign relations.

Spanish Vocabulary David Brodsky,2008-12-01 Unlike other vocabulary guides that require the rote memorization of literally thousands of words, this book starts from the premise that using the etymological connections between Spanish and English words--their common derivations from Latin, Greek, and other languages--is the most effective way to acquire and remember vocabulary. This approach is suitable for beginners as well as for advanced students. Teachers of the language will also find much material that can be used to help motivate their students to acquire, and retain, Spanish vocabulary. Spanish Vocabulary is divided into four parts and four annexes: Part I provides background material on the origins of Spanish and begins the process of presenting Spanish vocabulary. Part II presents classical Spanish vocabulary--words whose form (in both Spanish and English) is nearly unchanged from Latin and Greek. Part III deals with popular Spanish vocabulary, which underwent significant changes in form (and often meaning) during the evolution from Latin to Spanish. A number of linguistic patterns are identified that will help learners recognize and remember new vocabulary. Part IV treats a wide range of themes, including words of Germanic and Arabic origin, numbers, time, food and animals, the family, the body, and politics. Annex A: Principal exceptions to the Simplified Gender Rule Annex B: 700 words whose relations, if any, to English words are not immediately obvious Annex C: -cer verbs and related words Annex D: 4,500 additional words, either individually or in groups, with English correspondences

The International Handbook of Parental Alienation Syndrome Richard A. Gardner,S. Richard Sauber,Demosthenes Lorandos,2006 The dramatic increase in the number of child-custody disputes since the seventies has created an equally dramatic need for a standard reference work that examines the growing social problem of children who develop an irrational hatred for a parent as the result of divorce. The International Handbook of Parental Alienation Syndrome: Conceptual, Clinical, and Legal Considerations features clinical, legal, and research perspectives from 32 contributors representing eight countries, building on the work of the late Dr. Richard Gardner, a pioneer in the theory, practice, diagnosis, and treatment of Parental Alienation Syndrome (PAS). This unique book addresses the effects of PAS on parents and children, discusses issues

surrounding reconciliation between parent and alienated child, and includes material published for the first time on incidence, gender, and false allegations of abuse in PAS. Content highlights examines PAS and the roles of family members, the criminal justice system, and the need for public awareness and policymakers to respond to PAS. Descriptive statistics on 84 cases are given, and the factors affecting reconciliation between the child and target parent are listed. The mild, moderate, and severe categories of PAS are explored, and the psychological consequences of PAS indoctrination for adult children of divorce and the effects of alienation on parents are researched. The role of medical reports in the development of PAS, sexual abuse allegations, and future predictions on the fate of PAS children are many of the clinical considerations in this book. The legal issues concern PAS in American law, criticisms of PAS in courts of law, protecting the fundamental rights of children in families, family law reform, International PAS abductions, and the legal requirements of experts giving evidence to courts. The impact and implications of PAS are immense, and no other single source provides the depth and breadth of coverage of the topic than the clinical and forensic chapters in this book.

The Community Forests of Mexico David Barton Bray, Leticia Merino-Pérez, Deborah Barry, 2009-03-16 Mexico leads the world in community management of forests for the commercial production of timber. Yet this success story is not widely known, even in Mexico, despite the fact that communities around the globe are increasingly involved in managing their own forest resources. To assess the achievements and shortcomings of Mexico's community forest management programs and to offer approaches that can be applied in other parts of the world, this book collects fourteen articles that explore community forest management from historical, policy, economic, ecological, sociological, and political perspectives. The contributors to this book are established researchers in the field, as well as many of the important actors in Mexico's nongovernmental organization sector. Some articles are case studies of community forest management programs in the states of Michoacán, Oaxaca, Durango, Quintana Roo, and Guerrero. Others provide broader historical and contemporary overviews of various aspects of community forest management. As a whole, this volume clearly establishes that the community forest sector in Mexico is large, diverse, and has achieved unusual maturity in doing what communities in the rest of the world are only beginning to explore: how to balance community income with forest conservation. In this process, Mexican communities are also managing for sustainable landscapes and livelihoods.
