

Dr Anthony Youn Age

Tasneem Bhatia, MD

The Age Fix Anthony Youn, 2016-04-05 The USA Today and Wall Street Journal bestselling guide to looking younger without spending a fortune from nationally renowned plastic surgeon Anthony Youn. Here's what the experts know but aren't telling you-until now:- The drugstore brand can be just as effective - or better - than the expensive cream at your dermatologist's office- Surgery usually isn't the best solution- Natural, DIY creams can actually get results, using ingredients that cost pennies- Diet can be your best defense against redness, acne, fine lines, and wrinkles. Dr. Anthony Youn is the rare plastic surgeon who does everything he can to keep his patients out of the operating room. He's spent the past sixteen years researching the secrets of plastic surgeons, dermatologists, makeup artists, and dietitians, and he knows what works, what doesn't, and what's overpriced. Now he's compiled solutions to every cosmetic aging problem in this definitive anti-aging bible. Whether you want to stay as natural as possible or you're interested to know which creams and medical procedures actually work (and are worth the price tag), The Age Fix has your fix to look younger and more radiant. Dr. Youn's customizable Age Fix routine will help you improve skin health, whatever your age or concerns, and his diet-based Age Fix prescription will rejuvenate your skin and overall health from the inside out. Did you know that the foods you choose every day can contribute to fine lines and wrinkles and the likelihood of your getting a sunburn? Dr. Youn explains why you should shun soda but reach for that glass of red wine. You'll also discover which fruit can help you look younger and prevent sun damage and which supplements are proven to reduce fine lines. From your face, to your neck, your hands, your eyes, and your body, The Age Fix has you covered with an abundance of actionable takeaways and insider advice to help you reclaim your youthful glow-without spending a fortune or going under the knife!

In Stitches Anthony Youn, 2012-02-14 The celebrity cosmetic surgery blogger describes his misfit youth as a nerdy Korean-American student with a misshapen jaw whose life-changing surgery led him to become a successful plastic surgeon.

Playing God Anthony Youn M.D., Alan Eisenstock, 2019-09-17 "I am a doctor." Every year, thousands of medical school graduates utter these four simple words. But as you will see in *Playing God*, earning an M.D. is just the first step to becoming a real physician. In this page-turning, thrilling, and moving memoir, Dr. Anthony Youn reveals that the true metamorphosis from student to doctor occurs not in medical school but in the formative years of residency training and early practice. It is only through actually saving and losing patients, taking on the medical establishment, wrestling with financial and emotional

survival, and fighting for patients' lives that a young doctor becomes a mature and competent physician. Dr. Youn takes you from the operating rooms of a university surgery residency program to the gleaming offices of top Beverly Hills plastic surgeons to opening the doors of his empty clinic as a new doctor with no money, no patients, and mountains of debt. Playing God leaves you with an unexpected answer to that profound question: "What does it mean to be a doctor?" In *Playing God*, you will take a journey through the world of surgery, hospitals, and the practice of medicine unlike any that you have traveled before.

Younger Dr. Harold Lancer, 2014-02-04 A revolutionary 3-step method for younger looking skin, from the dermatologist behind Hollywood's A-list stars. Renowned Beverly Hills dermatologist Dr. Harold Lancer is the expert on whom Hollywood's top celebrities rely to maintain their radiant complexions and to reverse the effects of aging. Now, he offers readers his groundbreaking 3-Step Method to rejuvenate their skin at home. Based on years of clinical research, Dr. Lancer's regimen stimulates the skin's own transformative healing power for lasting results. He provides a road map to help readers navigate the mixed messages of today's dermatological advice, avoid expensive invasive treatments, and see through the empty promises of so many beauty products. He recommends the most effective skin care products for every budget from drugstores, department stores, and spas. He suggests surprising lifestyle choices in diet, exercise, and stress management that support beautiful skin. Whether the reader wants to maintain youthful skin or reverse the aging process, Dr. Lancer's Anti-Aging Method offers a comprehensive program for ageless, radiant skin.

Treating Complex Trauma in Adolescents and Young Adults John N. Briere, Cheryl B. Lanktree, 2012 *Bad Blood* reveals that Bastille is a synth-driven band that isn't particularly arty, something of a rarity during the electronic pop revival of the 2000s and 2010s. Where many of their contemporaries used the glamour of synth-pop's '80s heyday and electronic music's infinite possibilities to craft shiny pop fantasies, Bastille builds on the glossy, anthemic approach they set forth on the Laura Palmer EP (the title track, which is included here, might also be the least arty song inspired by David Lynch's surreal soap opera *Twin Peaks*). Early highlights like *Pompeii*, *These Streets*, and the title track boast panoramic choruses and sleek arrangements that hint at a kinship with *Empire of the Sun* and *Delphic*, while the handclaps and popping bassline on the otherwise moody *Icarus* recall *Hot Chip* at their most confessional. However, most of *Bad Blood* suggests that Bastille are actually an electronically enhanced upgrade of sweeping British pop traditionalists like Keane or Coldplay. The band updates Oblivion's piano balladry with ping-ponging drums and contrasts Dan Smith's throaty singing and searching lyrics (There's a hole in my soul/Can you fill it?) with a tumbling beat on *Flaws*. Like the aforementioned acts, Bastille has a way with heartfelt melodies and choruses that resonate, particularly on the driving *Things We Lost in the Fire* and *Get Home*, where the slightly processed vocals also evoke Sia, Imogen Heap, and other electronic-friendly singer/songwriters. While the band occasionally gets a little too self-serious on the album's second half, *Bad Blood* is a solid, polished debut that fans of acts like Snow Patrol

(who don't mind more electronics in the mix) might appreciate more than synth-pop aficionados. ~ Heather Phares

Skin Rules Debra Jaliman, MD, 2012-03-13 *Skin Rules* is a concise and practical instruction manual from a renowned Fifth Avenue dermatologist on how to attain beautiful skin, a taut and sculpted body, and a much younger appearance. Actors, models, and newscasters go to Dr. Jaliman for her cutting-edge technology and the latest in skin care, as well as for her reputation for being the last stop doctor, the one who fixes what others can't. *Skin Rules* has something for everyone, no matter where they live or how much money they have to spend. This small, invaluable guide supplies the same advice Dr. Jaliman gives to her celebrity patients, from lasers to remove sun damage and turn back the clock to suggestions for simple products and habits anyone can adopt for a small outlay of time and money. In *Skin Rules* readers will learn: • about the one ingredient that should NEVER be in sunscreens, but often is • how to use inexpensive Aquaphor to heal wounds and prevent scarring • which drugstore products really work for acne and wrinkles

Younger You Kara N. Fitzgerald, 2022-01-18 Based on the groundbreaking study that shaved three years off a subjects' age in just eight weeks, discover a proven, accessible plan to prevent diseases and reduce your biological age. It's true: getting older is inevitable and your chronological age can only move in one direction. But you also have a biological age, which scientists can measure by assessing how your genes are expressed through epigenetics. Exciting new research shows that your bio age can actually move in reverse—and Dr. Kara Fitzgerald's groundbreaking, rigorous clinical trial proved it's possible. By eating delicious foods and establishing common-sense lifestyle practices that positively influence genetic expression, study participants reduced their bio age by just over three years in only eight weeks! Now Dr. Fitzgerald shares the diet and lifestyle plan that shows you how to influence your epigenetics for a younger you. In *Younger You* you'll learn: It's not your genetics that determines your age and level of health, it's your epigenetics How DNA methylation powerfully influences your epigenetic expression The foods and lifestyle choices that most affect DNA methylation Simple swaps to your daily routines that will add years to your life The full eating and lifestyle program, with recipes and meal plans, to reduce your bio age and increase vitality How to take care of your epigenetic expression at every life stage, from infancy through midlife and your later decades We don't have to accept a descent into disease and unwellness as we age as inevitable: when you reduce bio age you reduce your odds of developing all the major diseases, including diabetes, cancer, and dementia. With assessment tools for determining your bio age, recipes, and plans for putting it all into practice, *Younger You* helps you repair years of damage, ward off chronic disease, and optimize your health—for years to come.

The Beauty of Dirty Skin Whitney Bowe, 2018-04-17 Internationally renowned dermatologist and research scientist Dr. Whitney Bowe presents, for the first time, the connection between a healthy gut and radiant, clear skin, with a 21-day program to maximize skin health and beauty. Every year, nearly 80 million Americans will consult their doctors about their skin. In fact, skin disorders beat out anxiety, depression, back pain, and diabetes as the number one reason Americans see

their doctors. Unfortunately, however, the vast majority will receive only a surface-level treatment, leaving the underlying conditions at the root of their skin issues unresolved. Skin doesn't lie; it reflects overall health in unimaginable ways. In *The Beauty of Dirty Skin*, internationally renowned dermatologist and scientist Dr. Whitney Bowe shows readers that skin health is much more than skin deep. As a pioneering researcher on the cutting edge of the gut-brain-skin axis, she explains how the spectrum of skin disorders -- from stubborn acne and rosacea to psoriasis, eczema, and premature wrinkling -- are manifestations of irregularities rooted in the gut. Lasers, scalpels, creams, and prescription pads alone will not guarantee the consistently healthy, glowing skin we all seek. Instead, Dr. Bowe focuses on the microbiome -- where trillions of microbes speak to your skin via the brain -- and highlights the connection between sleep, stress, diet, gastrointestinal health, and the health of your skin. With simple explanations of the science, do-it-yourself practical skincare strategies, and a life-changing 21-day program, *The Beauty of Dirty Skin* is your roadmap to great skin from the inside out and the outside in.

The Longevity Book Cameron Diaz, 2016 Actress Cameron Diaz opens a conversation with her peers on a topic that for too long has been taboo in our society: the aging female body. She shares the latest scientific research on how and why we age, synthesizing insights from top medical experts with her own thoughts, opinions, and experiences. *The Longevity Book* explores what history, biology, neuroscience, and the women's health movement can teach us about maintaining optimal health as we transition from our thirties to midlife. From understanding how growing older impacts various bodily systems to the biological differences in the way aging affects men and women; the latest science on telomeres and slowing the rate of cognitive decline to how meditation heals us and why love, friendship, and laughter matter for health, Diaz offers an all-encompassing, holistic look at how the female body ages -- and what we can all do to age better.

Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family -- which includes all primary caregivers -- are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for

families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Dirty Looks Whitney Bowe, 2018-04-17 Internationally renowned dermatologist and research scientist Dr. Whitney Bowe presents, for the first time, the connection between a healthy gut and radiant, clear skin, with a 21-day program to maximize skin health and beauty. Every year, nearly 80 million Americans will consult their doctors about their skin. In fact, skin disorders beat out anxiety, depression, back pain, and diabetes as the number one reason Americans see their doctors. The Betty Body: A Geeky Goddess' Guide to Intuitive Eating, Balanced Hormones, and Transformative Sex Stephanie Estima, 2021-02-16 Women are not little men, but that's how we treat our bodies. In *The Betty Body*, Dr. Stephanie Estima provides a step-by-step guide to caring for your feminine body, teaching you: How to go from treating your period as an archenemy to celebrating its arrival every month The different types of orgasms you should be having and why they're so important for female health How to eat in a way that honors your menstrual cycle, through menopause and beyond How morning routines are sexist, and how you can structure one that honors your unique biology How to build beautiful, lean muscle based on your menstrual cycle, even in menopause Why fats and carbohydrates are not evil, and how to use them

strategically to your metabolic advantage Whether you want to lose weight, balance your hormones, or just stop hating your period, *The Betty Body* is your blueprint for your best feminine health.

Redeeming Technology A. Trevor Sutton, Brian Smith, 2021 On average an American spends 36,900 seconds consuming media. Do a bit of math and that's about 11 hours per day. A little more math to factor in your recommended 8 hours of sleep every night, and that leaves you with only 5 hours of your day that's media free. The statistics prove that technology use is addictive and excessive. The questions surrounding this all center on how it's affecting our mental, physical, and spiritual health. So how can you set better technological boundaries for yourself? How can you use your technology with purpose? *Redeeming Technology* is a unique collaboration between a pastor, Rev. A. Trevor Sutton, and a board-certified psychiatrist, Dr. Brian Smith, to help you develop a healthier, faith-based use of technology. Moving between Scripture and psychological research, this book will show you how to navigate a vast digital world while keeping Christ at the center of it all.

Cheating Death Sanjay Gupta, 2009-10-12 An unborn baby with a fatal heart defect . . . a skier submerged for an hour in a frozen Norwegian lake . . . a comatose brain surgery patient whom doctors have declared a vegetable. Twenty years ago all of them would have been given up for dead, with no realistic hope for survival. But today, thanks to incredible new medical advances, each of these individuals is alive and well . . . *Cheating Death*. In this riveting book, Dr. Sanjay Gupta—neurosurgeon, chief medical correspondent for CNN, and bestselling author—chronicles the almost unbelievable science that has made these seemingly miraculous recoveries possible. A bold new breed of doctors has achieved amazing rescues by refusing to accept that any life is irretrievably lost. Extended cardiac arrest, brain death, not breathing for over an hour—all these conditions used to be considered inevitably fatal, but they no longer are. Today, revolutionary advances are blurring the traditional line between life and death in fascinating ways. Drawing on real-life stories and using his unprecedented access to the latest medical research, Dr. Gupta dramatically presents exciting accounts of how pioneering physicians and researchers are altering our understanding of how the human body functions when it comes to survival—and why more and more patients who once would have died are now alive. From experiments with therapeutic hypothermia to save comatose stroke or heart attack victims to lifesaving operations in utero to the study of animal hibernation to help wounded soldiers on far-off battlefields, these remarkable case histories transform and enrich all our assumptions about the true nature of death and life.

True Age Morgan Elyse Levine, 2022-05-03 Research suggests that only 10-30% of our lifespan is determined by our genetics. This means that the vast majority of how we age is directly related to choices we make everyday - how and what we eat, exercise and sleep quality, to name a few. So, while ageing itself may be inevitable, what if there were a way to measure our biological age? And what if there were strategies to slow down, or even reverse, the ageing process? In *True Age*, Dr Morgan Levine gives us an insight into the cutting-edge developments in the science of aging and longevity and teaches us

that through understanding our biological age, we can monitor and even control the process of ageing. True Age explores: - The concept of biological age and the methods now available to determine your own. - Types of foods likely to decrease our biological age - and which will age you prematurely. - What types of exercise are most effective for turning back the clock. - How much sleep we need and what other lifestyle patterns are most likely to help slow and reverse ageing. True Age will equip you with the tools you need to develop personal regimes, diets and routines specifically tailored to keep you looking - and feeling - as young as possible. Using her years of expert research in the field, Dr Levine will put you on the path to living a healthier and more proactive life.

Bio-Young Roxy Dillon,2017-02-21 From a certified nutritionist and scientist, a groundbreaking, easy to follow, all-natural anti-aging program using vitamins, natural oils, and many common foods that will help you look and feel younger--

Super Woman Rx Tasneem Bhatia, MD,2017-09-12 Find your Power Type to discover your personalized plan for weight loss, energy, and lasting health. No more one-size-fits-all diets! Modern womanhood often means juggling multiple roles—businesswoman, mother, spouse, homemaker, and more—all while being expected to look perfectly composed. In other words, it means being superhuman. The truth is, it can seem impossible to maintain physical health while navigating our busy lives. We're overwhelmed and exhausted, which can often translate into unhealthy eating habits, lack of exercise, and no time for self-care. But diet and fitness plans are usually one-size-fits-all, and those universal programs just don't work for every body and every personality. Integrative health and wellness expert Tasneem Bhatia, MD, known to her patients as Dr. Taz, has a plan that is anything but cookie-cutter. Her mission is to help women achieve optimum health, and now she can help you with her personalized plans in Super Woman Rx. In Super Woman Rx, Dr. Taz sets out to treat "super woman syndrome" by offering five prescriptive plans based on a woman's unique blueprint, or Power Type, whether you're a Boss Lady, a Savvy Chick, an Earth Mama, a Gypsy Girl, or a Nightingale. A fun quiz will help you narrow down your type and figure out which strategies will work best for you. Drawing inspiration from Ayurvedic, Chinese, and Western systems of medicine, each nutrition and exercise plan helps you shed pounds, decrease anxiety and depression, rejuvenate skin, reduce PMS symptoms, and much more in just 3 weeks. Then, long-term strategies with specialized plans follow those 3 weeks. With Dr. Taz's comprehensive, personalized guidance, you'll radiate from the inside out.

The Park Avenue Face Andrew Jacono,2019-05-07 Your face defines you. It influences how people perceive you at work, at play, and even at home. But what if something about your face doesn't make you feel like the real you? In The Park Avenue Face, dual board-certified facial plastic and reconstructive surgeon Dr. Andrew Jacono reveals how to achieve flawless, undetectable plastic surgery so you can fix what you don't like, restore what you've lost, or prevent signs of aging. From his elite Park Avenue aesthetic surgery center, Dr. Jacono has enhanced tens of thousands of faces not by prescribing an arbitrary standard of beauty, but by amplifying each patient's individual beauty for totally natural results. A global authority

in advanced facial plastic surgery, he has presented clinical research and conducted live surgery in front of peer audiences at over 100 plastic surgery symposiums around the world, including at Harvard, Yale and Stanford Universities. Now, he's ready to share his expertise with you. High-end Park Avenue clients want to fight the signs of aging while highlighting their best features. They want lips that look like their own lips, eyes that look like their own eyes. They want facial features in line with their ethnicities. Park Avenue clients want to look powerful yet approachable, wise yet fresh, and above all, natural. With Dr. Andrew Jacono's advice, you can have the Park Avenue Face no matter who you are or where you live. The Park Avenue Face also highlights a trend unique to the United States—a distinct difference between conceptions of beauty on the west coast versus the east coast. Where the West Coast Style is often about changing your personal signature, the East Coast Style prioritizes maintaining your personal signature. Through this up-close look at coastal trends, the reader will learn how to define and achieve a natural look—a face that reflects the person they have always been, and the person they strive to be, not someone they don't recognize in the mirror. If you want a face with character and depth that looks ageless and don't want a stretched, artificial or generic look, Dr. Jacono will show you how to get there. If you are considering any kind of facial enhancement, from minor and non-invasive treatments such as simple injections or a laser treatment to more involved surgical procedures such as a full-on facelift, this is your resource. The Park Avenue Face will show you how to avoid the quacks, the fads, the financial waste, and the dangers. Dr. Jacono will help you determine how you want to look and how best to get there. Featuring fascinating patient anecdotes, dozens of before-and-after photographs showing what the various procedures can accomplish and line drawings by veteran medical illustrator William Winn, this comprehensive guide will fully prepare you to step into a doctor's office and discuss your facial enhancement options. You'll know how each treatment works, how long you will take to recover, and how much change you can expect. If there is something about your face you think is holding you back—decide if making a change is right for you. Let The Park Avenue Face guide you to becoming your best you.

Clean Skin from Within Trevor Cates, 2017-03-15 Many people suffer from skin conditions -- acne, rosacea, eczema, psoriasis -- and seek conventional medical help, but don't get the results they hope for. What they don't realize is how good their skin can be when they adopt a cleaner, healthier lifestyle. In *Clean Skin from Within*, Dr. Trevor Cates presents guidelines and recipes to transform your skin from the inside out. She explains the why of what's happening, and how you can remedy problems. Dr. Cates opens by showing how to identify your skin type to reach the root cause of problems. From there you'll learn how to create nourishing foods to create a clean mind, clear skin, and healthy body. Collagen-boosting bone broths, antioxidant-rich salads, and delicious smoothies are just a few things on the menu. You'll also be able to whip up all-natural cleansers, toners, exfoliants, and masks Within two weeks, both your skin and your whole being will be polished, perfect, and ready to glow.
