Skin Diseases of Exotic Pets Sue Paterson, 2008-04-15 There is currently a lot of interest within veterinary medicine in both dermatology and exotics, yet, despite this interest, there is no single text available that focuses on both these key areas. Divided into the four groups, each section has a chapter introducing the structure and function of the skin of each group, a chapter on examination and diagnostic tests, and further chapters on species specific skin diseases and treatments. Written in a quick reference format and including almost 200 colour photographs, this book is a handy resource for veterinary practitioners, veterinary students and veterinary dermatologists alike.

I Think You're Totally Wrong David Shields, Caleb Powell, 2015-01-06 An impassioned, funny, probing, fiercely inconclusive, nearly-to-the-death debate about life and art—beers included. Caleb Powell always wanted to become an artist, but he overcommitted to life (he's a stay-at-home dad to three young girls), whereas his former professor David Shields always wanted to become a human being, but he overcommitted to art (he has five books coming out in the next year and a half). Shields and Powell spend four days together at a cabin in the Cascade Mountains, playing chess, shooting hoops, hiking to lakes and an abandoned mine; they rewatch *My Dinner with André* and *The Trip*, relax in a hot tub, and talk about everything they can think of in the name of exploring and debating their central question (life and/or art?): marriage, family, sports, sex, happiness, drugs, death, betrayal—and, of course, writers and writing. The relationship—the balance of power—between Shields and Powell is in constant flux, as two egos try to undermine each other, two personalities overlap and collapse. This book seeks to deconstruct the Q&A format, which has roots as deep as Plato and Socrates and as wide as Laurel and Hardy, Beckett's Didi and Gogo, and *Car Talk's* Magliozzi brothers. *I Think You're Totally Wrong* also seeks to confound, as much as possible, the divisions between “reality” and “fiction,” between “life” and “art.” There are no teachers or students here, no interviewers or interviewees, no masters in the universe—only a chasm of uncertainty, in a dialogue that remains dazzlingly provocative and entertaining from start to finish. James Franco's adaptation of *I Think You're Totally Wrong* into a film, with Shields and Powell striving mightily to play themselves and Franco in a supporting role, will be released later this year.
