Our Lady of the Flowers Jean Genet,1994-01-12 The shattering novel of underground life the New York Times called “a cry of rapture and horror . . . the purest lyrical genius.” Jean Genet’s debut novel *Our Lady of the Flowers*, which is often considered to be his masterpiece, was written entirely in the solitude of a prison cell. A semi- autobiographical account of one man’s journey through the Paris demi-monde, dubbed “the epic of masturbation” by no less a figure than Jean-Paul Sartre, the novel’s exceptional value lies in its exquisite ambiguity.

Field of Honour Max Aub,2009-09-07 A contemporary of Lorca and Buñuel in Spain’s Second Republic, Max Aub escaped into a life of exile after General Franco seized Barcelona. His masterpiece, acknowledged in Spain as one of the best accounts of the Spanish Civil War, is the five-novel cycle known as *The Magic Labyrinth*—never before translated into English. A playwright as well as a novelist, he brings the period alive through vibrant dialogue and a story that navigates the factional intrigues that eventually erupted onto the streets in violence. The protagonist of the first novel is Rafael López Serrador, whose coming of age in Barcelona introduces a cast from all walks of city life—Catalan nationalists, anarchists, Falangists, government ministers and showgirls. Just as central a character is Barcelona itself, lovingly depicted. Rafael’s adventures bring him into contact with the forces that were to destroy the Republic and determine the bloody course of the Spanish Civil War. Masterfully translated by Gerald Martin, author of *Gabriel García Márquez: A Life*, Max Aub’s novel is set to introduce to an English-speaking audience a classic of Spanish and Latin American literature—an account of the Spanish Civil War to compare with Ernest Hemingway’s *For Whom the Bell Tolls*.

In This Dark House Louise Kehoe,2010-01-13 In 1939 the influential architect Berthold Lubetkin abruptly left his thriving career in London and dropped out of sight, moving with his wife to a desolate farm in rural Gloucestershire. Life in the house the Lubetkins named “World’s End was far from idyllic for their three children. Louise Kehoe and her siblings lived in an atmosphere of oppressive isolation, while their tyrannical father—at times charming and witty but usually a terrorist in a self-styled Stalinist hell—badgered and belittled them during his fits of self-loathing. Even his true identity remained an enigma. That secret was never divulged during her father’s lifetime, but Louise’s quest to unearth its origins—her relentless piecing together of the clues she found after his death—is a remarkable story, written with extraordinary grace, style, and imagination, of an identity and a heritage lost and found.

El Misterio de Maat, Diosa de la Justicia en el Antiguo Egipto Anna MANCINI,2004-03 Desde los comienzos de la egiptología, los especialistas no pararon de acumular textos que hablan de Maat, diosa egipcia de la justicia. A pesar de toda esta documentación, Maat sigue siendo un misterio para ellos. Hasta la fecha dicen no saber lo que es exactamente la Maat. Un trabajo notable de desciframiento de los textos fue realizado por la ciencia egiptológica, pero en este campo, nadie ha sacado partido de los conocimientos de la historia de los derechos antiguos. Del mismo modo, nadie ha aprendido a observar las imágenes y aún menos a entender los símbolos. La imagen de la cubierta de este libro contiene, por sí sola ,uno de los más antiguos secretos de la civilización egipcia que nos ha llegado intacto. Verdadera investigación, este libro saca partido de todos los indicios acumulados por los egiptólogos en relación con Maat. Gracias a sus competencias jurídicas y a su familiaridad con los símbolos -formada a través de un largo trabajo sobre el lenguaje onírico-, la autora reúne las piezas del rompecabezas que faltaban para poder formar la imagen de Maat. Una vez entendido el significado de la misma, se

comprende de forma inmediata e inesperada, toda la civilización egipcia.

Manual de la Historia Argentina, Tomo I Vicente Fidel Lopez, 2022-10-27

Secondary Cities of Argentina James Scobie, 1988-08-01 This study of three Argentine provincial capitals introduces a new concept in Latin American urban studies: the historical role of secondary cities, settlements large enough to possess all the elements commonly associated with urban areas and yet too small to figure among a country's major cities. The principal contribution of the book is to explain how and why smaller cities grew. What determined and shaped their growth? How did local inhabitants, and especially the dominant social elites, react to internal and external influences? To what extent were they able to control growth? What relationships developed with the surrounding regions and the outside world? The study shows that secondary cities linked rural economies and inhabitants with the outside world while insulating the traditional rural environment from the changing character of large urban centers. In this intermediate position, economic relationships and social structure changed slowly, and only in response to outside innovations such as railroads. Continuity within the secondary centers thus reinforced conservatism, accentuated the gap between the major cities and the rest of the country, and contributed to the resistance to change that characterizes much of Latin American today. The book is illustrated with photographs and maps.

Floating Images Eduardo Souto de Moura, 2012 Photographs, newspaper cuttings, postcards, drawings, and slides: on entering the studio of Eduardo Souto de Moura, winner of the Pritzker Prize 2011, one is confronted with a variety of images on the walls that engage in a dialogue. How do these photos, drawings, and illustrations impact his design practice? What is the relationship between the image and the completed building? *Floating Images: Eduardo Souto de Moura's Wall Atlas* uses this question as an opportunity to examine the architect's visual universe. He has added images from his extensive collection of drawings and project sketches and reorganized them in this atlas. Complex relationships are formed between the individual illustrations and projects. Essays by Pedro Bandeira, Eduardo Souto de Moura, Diogo Seixas Lopes, and Philip Ursprung round off the publication and provide a contextualization in terms of the history of art and images.

The Iconic Building Charles Jencks, 2005 A new type of architecture has emerged in the last decade : the iconic landmark building, which challenges the traditional architectural monument. In the past, public buildings expressed shared meaning through well-known conventions. Today those conventions are superceded by commercial forces and the quest for instant fame. Public architecture is now required to be an amazing piece of surreal sculpture as well as something that appeals to a diverse audience - at once provocative and practical yet without the context that religion and ideology once provided. Such contrary demands drive the architect toward a new convention : the enigmatic signifier. This curious sign suggests many

meanings without naming of them. The most publicized version of the genre, Frank Gehry's New Guggenheim Museum in Bilbao, 1997, became an instant media event that forces other architects to design event buildings routinely. This 'Bilbao effect' has led to a series of landmark buildings by architects such as Norman Foster, Peter Eisenman, Enric Miralles, Zaha Hadid, Daniel Libeskind, Renzo Piano, Will Alsop, and Rem Koolhaas. Some of these buildings are successful creations, while others make us wince. -- book jacket.

Mefisto Alberto Iriarte Rocha, Alberto Iriarte, Germán Rubiano Caballero, María Elvira Iriarte, 2005-11 The exquisite still lifes of Alberto Iriarte (1920-1993), known as Mefisto, have remained Colombia's best kept artistic secret of the 20th century, despite having been exhibited in Paris, Barranquilla, and Bogotá. Nonetheless, Colombian art history cannot fail to honor Mefisto as one of its most influential painters. This book displays the complete selection of his strange and beautiful still life paintings, collected together for the first time. *Las naturalezas muertas pintadas por Alberto Iriarte (1920-1993)*, llamado Mefisto, continúan siendo las obras colombianas más secretas del siglo veinte, aunque fueron exhibidas en París, Barranquilla, y Bogotá. Sin embargo, la historia del arte colombiano no puede ignorar la influencia sustancial y la importancia artística que tenía Mefisto durante su vida. Por primera vez, sus naturalezas muertas extrañas y provocativas han sido coleccionadas en este volumen sustancial.

Africa British Museum, 2000 The collections of the British Museum provide an exceptional resource for exploring both African antiquity and its contemporary arts and cultures. This book looks at the continent as a whole. It describes through a series of essays the history and arts of particular regions and the sources of the collections now in the Museum. Each section will be well-illustrated with a mix of archival and contemporary field photographs, and will also integrate illustrations of up to 50 important individual objects from this world-famous collection. The objects will have a commentary on their significance by leading figures in the field of African studies, many of them native to the areas from which the objects derive. The book brings to bear a mix of Western and African scholarship in an innovative collaboration to reassess one of the great African collections.
