Muslim Spain and Portugal Hugh Kennedy,2014-06-11 This is the first study in English of the political history of Muslim Spain and Portugal, based on Arab sources. It provides comprehensive coverage of events across the whole of the region from 711 to the fall of Granada in 1492. Up till now the history of this region has been badly neglected in comparison with studies of other states in medieval Europe. When considered at all, it has been largely written from Christian sources and seen in terms of the Christian Reconquest. Hugh Kennedy raises the profile of this important area, bringing the subject alive with vivid translations from Arab sources. This will be fascinating reading for historians of medieval Europe and for historians of the middle east drawing out the similarities and contrasts with other areas of the Muslim world.

The Story of Ferdinand Munro Leaf,2017-09-05 Once upon a time in Spain, there was a little bull and his name was Ferdinand . . . Unlike all the other little bulls - who run, jump, and butt their heads together in fights - Ferdinand would rather sit under his favourite cork tree and smell the flowers. So what will happen when Ferdinand is picked for the bull fights in Madrid? Beloved all over the world for its timeless message of peace, tolerance and the courage to be yourself, this truly classic story has never been out of print in the US since its release in 1936. Hitherto unpublished in the UK and now a major motion picture.

Point of Balance J.G. Jurado,2015-08-11 In this "perfectly balanced, fast-paced, and compelling thriller" (Booklist, starred review), a top neurosurgeon is forced to choose between ending the life of the most important person in America or

guaranteeing his own daughter's horrifying death. I am no saint, no martyr, no terrorist, no madman, and no murderer...I am a father. That's my story. Dr. David Evans is a well-respected brain surgeon at a hospital in Washington, DC, and a devoted father. But soon he is faced with the ultimate dilemma: if his next patient, who must undergo brain surgery, leaves the operating table alive, Dr. Evans's kidnapped daughter will die at the hands of an implacable psychopath—and he will be forced to watch. Over the course of fifty-five frantic hours counting down to his choice in the surgery room, Dr. Evans races to hunt down his pursuer and find a way out of this nightmarish predicament. But just how far will he go to save his daughter's life? Called “a roller coaster ride of fear and excitement unparalleled in modern fiction” by New York Times bestselling author Katherine Neville, *Point of Balance* will keep you on the edge of your seat with fast-paced action and raw emotion, as one man faces an impossible moral dilemma that could change the course of history.

El ingenioso hidalgo Don Quijote de la Mancha II Cervantes M., Miguel de Cervantes, escritor español de fama universal, es celebre en primer lugar por su novela “El ingenioso hidalgo Don Quijote de la Mancha”, una de las obras mas portentosas de la literatura mundial. Esta novela, traducida a todos los idiomas europeos, hasta la fecha es una de las narrativas que mas se leen en el orbe. En 2002 fue calificada como la mejor novela de las letras mundiales. La obra cuenta las aventuras de un loco hidalgo que adopto el nombre de Don Quijote y de su escudero simplon Sancho Panza, quien de vez en cuando pretende, con timidez e infructuosamente, bajar a su imaginario señor desde los cielos de la alienacion a la tierra de pecado. Una satira muy honda de los tiempos de Cervantes que no pierde su actualidad hasta el dia de hoy.

Border Interrogations Benita Samperdro Vizcaya, Simon Doubleday, 2008-05-01 Under the current cartographies of globalism, where frontiers mutate, vacillate, and mark the contiguity of discourse, questioning the Spanish border seems a particularly urgent task. The volume engages a wide spectrum of ambivalent regions—subjects that currently are, or have

been seen in the past, as spaces of negotiation and contestation. However, they converge in their perception of the “Spanish” nation-space as a historical and ideological construct that is perpetually going through transformations and reformations. This volume advocates the position that intellectual responsibility must lead us to engage openly in the issues underlying current social and political tensions.

Disorientations Susan Martin-Márquez,2008-10-01 Exploring the fraught processes of Spaniards' efforts to formulate a national identity - from the Enlightenment to the present - this book focuses on the nation's Islamic-African legacy, disputing the received wisdom that Spain has consistently rejected its historical relationship to Muslims and Africans.

The Return of the Moor Daniela Flesler,2008 With the intense economic development and accelerated modernization experienced by Spain since the 1970s, and especially following its entrance to the European Economic Community in 1986, the country has undergone a rapid inversion in migratory patterns. After being an exporter of economic migrants for almost a century, in the last 20 years Spain has seen itself on the receiving end of immigration. Coinciding with a time when Spain is highlighting its belonging to Europe, the growing presence of Moroccan immigrants in particular confronts Spanish society with the repressed non-European, African and Oriental aspects of its national identity. The Return of the Moor examines the anxiety over symbolic and literal boundaries permeating the Spanish reception of these immigrants through an interdisciplinary analysis of social, fictional and performative texts. It argues that Moroccans constitute a problem to Spaniards not because of their cultural differences, as many claim, but because they are not different enough. Perceived as Moors, they conjure up past ghosts that continue to haunt the Spanish imaginary, revealing the acute tensions inherent to Spain's tenuous position between Europe and Africa.

Tracking Europe Ginette Verstraete,2010-02-17 Tracking Europe is a bold interdisciplinary critique of claims regarding the free movement of goods, people, services, and capital throughout Europe. Ginette Verstraete interrogates European

discourses on unlimited movement for everyone and a utopian unity-in-diversity in light of contemporary social practices, cultural theories, historical texts, media representations, and critical art projects. Arguing against the persistent myth of borderless travel, Verstraete shows the discourses on Europe to be caught in an irresolvable contradiction on a conceptual level and in deeply unsettling asymmetries on a performative level. She asks why the age-old notion of Europe as a borderless space of mobility goes hand-in-hand with the at times violent containment and displacement of people. In demystifying the old and new Europe across a multiplicity of texts, images, media, and cultural practices in various times and locations, Verstraete lays bare a territorial persistence in the European imaginary, one which has been differently tied up with the politics of inclusion and exclusion. Tracking Europe moves from policy papers, cultural tourism, and migration to philosophies of cosmopolitanism, nineteenth-century travel guides, electronic surveillance at the border, virtual pilgrimages to Spain, and artistic interventions in the Balkan region. It is a sustained attempt to situate current developments in Europe within a complex matrix of tourism, migration, and border control, as well as history, poststructuralist theory, and critical media and art projects.

True Biz: Reese's Book Club Sara Novic, 2023-02-28 NEW YORK TIMES BESTSELLER • REESE'S BOOK CLUB PICK • A "tender, beautiful and radiantly outraged" (The New York Times Book Review) novel that follows a year of seismic romantic, political, and familial shifts for a teacher and her students at a boarding school for the deaf, from the acclaimed author of *Girl at War* "For those who loved the Oscar-winning film CODA, a boarding school for deaf students is the setting for a kaleidoscope of experiences."—The Washington Post ONE OF THE BEST BOOKS OF THE YEAR: NPR, The Washington Post, Publishers Weekly, Booklist True biz (adj./exclamation; American Sign Language): really, seriously, definitely, real-talk True biz? The students at the River Valley School for the Deaf just want to hook up, pass their history finals, and have politicians, doctors, and their parents stop telling them what to do with their bodies. This revelatory novel plunges readers into the halls of a residential school for the deaf, where they'll meet Charlie, a rebellious transfer student who's never met another deaf person before; Austin, the school's golden boy, whose world is rocked when his baby sister is born hearing; and February, the hearing headmistress, a CODA (child of deaf adult(s)) who is fighting to keep her school open and her marriage intact, but might not be able to do both. As a series of crises both personal and political threaten to unravel each of them, Charlie, Austin, and February find their lives inextricable from one another—and changed forever. This is a story of sign language and lip-reading, disability and civil rights, isolation and injustice, first love and loss, and, above all, great persistence, daring, and joy. Absorbing and assured, idiosyncratic and relatable, this is an unforgettable journey into the Deaf community and a universal celebration of human connection.

The Unfinished Revolution Minky Worden, 2012-03-06 "It's a time of change in the world, with dictators toppling and new opportunities rising, but any revolution that doesn't create equality for women will be incomplete. The time has come to

realize the full potential of half the world's population." —Christiane Amanpour, from the foreword *The Unfinished Revolution* tells the story of the global struggle to secure basic rights for women and girls, including in the Middle East where the Arab Spring raised high hopes, but the political revolutions are so far insufficient to guarantee progress. Around the world, women and girls are trafficked into forced labor and sex slavery, trapped in conflict zones where rape is a weapon of war, prevented from attending school, and kept from making deeply personal choices in their private lives, such as whom and when to marry. In many countries, women are second-class citizens by law. In others, religion and traditions block freedoms such as the right to work, study or access health care. Even in the United States, women who are victims of sexual violence often do not see their attackers brought to justice. More than 30 writers—Nobel Prize laureates, leading activists, top policymakers, and former victims—have contributed to this anthology. Drawing from their rich personal experiences, they tackle some of the toughest questions and offer bold new approaches to problems affecting hundreds of millions of women. This volume is indispensable reading, providing thoughtful analysis from a never-before assembled group of advocates. It shows that the fight for women's equality is far from over. As Leymah Gbowee, 2011 Nobel Peace Prize Laureate says, "Women are not free anywhere in this world until all women in the world are free."

The Democracy of Knowledge Daniel Innerarity, 2013-07-04 This volume in the *Political Theory and Contemporary Philosophy* series extends democracy to knowledge in two ways. First, it argues that the issues science seeks to clarify are relevant for all citizens. Second, it explains that the fundamental problems faced by any democracy, such as the economic crisis, are not so much problems of political will as cognitive failures that must be resolved through both a greater knowledge of the realities over which we govern and a fine-tuning of the tools of governance. In fact, knowledge and related fields are spheres in which not only economic prosperity, but also democratic quality, are determined. Thus politics of knowledge and through knowledge has become a question of democratic citizenship. After introducing the concept of governing knowledge, the book discusses the political action of collective organization of uncertainty, before developing the idea of the cognitive

challenge of the economy, revealed by today's economic crisis. A groundbreaking work by a renowned philosopher, it will be an accessible and fundamental resource for anyone interested in the relation of power to knowledge.

China and Germany Hans Kundnani, Jonas Parello-Plesner, European Council on Foreign Relations, 2012 The increase in trade between China and Germany during the last decade--and, in particular, in German exports to China--has exceeded all expectations. Germany is China's number-one trade partner in the EU and China is the top foreign investment destination for German companies. Based on this emerging economic symbiosis between China and Germany, a special relationship is now developing. But is this trade-based relationship damaging wider European strategic interests in areas such as foreign policy, energy and raw materials, climate change and human rights? In a new ECFR policy brief, Hans Kundnani and Jonas Parello-Plesner argue that a special relationship between Germany and China is emerging: China needs technology and Germany needs markets. Structural similarities and shared economic interests are key for this emerging special relationship which has further intensified since the economic crisis in 2008. But Chinese companies will provide greater competition in the future and trade conflicts are likely to intensify -- Germany's approach to China is mostly driven by economic interests and the needs of its exporters. Germany's foreign policy is based on the idea that economic exchange would lead to political and societal change in China -- China sees Germany as the most useful country for its economic development. Germany is an attractive partner because of its prominent role in the EU, a similar strategic outlook-but also because of increased German dependence on China. The Chinese are thinking about whether a 'German Europe' is emerging from the euro crisis just as we are. They increasingly see Berlin as the place to go to get things done. - Jonas Parello-Plesner. Europe's future relationship with China will be determined by Germany's rapidly evolving bilateral relationship with China. The danger of this new special relationship is that it could undermine European strategic and economic interests-Hans Kundnani. The authors argue that the emerging special relationship also matters for Europe and should be developed into a 'real' European strategic partnership with China: The EU should identify where Europe can help Germany. For example, the EU can bring added value in developing better investment and public procurement rules and it should use its leverage in negotiating access to raw materials -- A joint EU approach towards China requires better coordination among member states and the involvement of EU institutions. The EU should also explore new formats for dealing with China -- EU member states should empower the European External Action Service (EEAS) to develop a new top-down approach to China. The High Representative should coordinate Europe's China policy in areas such as trade and climate change--Publisher's description.

Human Rights in India James Goldston, 1991 Examines the attacks on civilians by Indian government security forces. The report covers the summary execution of captured militants, warrantless house-to-house searches during which families were beaten, destruction of civilian property and use of lethal weapons against peaceful demonstrators.
