*Essence of the Bhagavad Gita* Ramana Maharshi, 2014-07-28 A prose translation of 42 verses from Bhagavad Gita, selected and set in order, by Ramana Maharshi, for use of those interested in Self Enquiry. In these verses Bhagavan reveals the seeker, that which is sought and the means by which one seeks.

**The Hidden Teaching Beyond Yoga** Paul Brunton, 2015-05-05 Inspired by his time spent with wise sages in Asia in the 1930s, Paul Brunton (1898-1981) wrote *The Hidden Teaching Beyond Yoga* (and its companion volume *The Wisdom of the Overself*) at the request of these remarkable teachers, who recognized that he had a significant role to play in the transmission of Hindu Vedanta and Buddhism to the West. Brunton's books are a profound re-creation of the teachings of those two philosophical schools of thought, informed by the insights of deep meditation. Clearly written without the specialized vocabulary found in those traditions, the books speak directly to the contemporary spiritual seeker. *The Hidden Teaching Beyond Yoga* is a step-by-step guide to actually experiencing the spiritual truth that reality is formed within our consciousness rather than outside us in the world of material things. Brunton's expert analysis of perception, grounded in science, is designed to awaken us to our sacred foundation and to transform our personality into a mirror of that reality. Brunton prepares us for this journey by describing the attitudes, mental disciplines, and character traits that are beneficial for success in this quest. This new edition has been updated to incorporate the author's final revisions and includes an introduction by the Paul Brunton Philosophic Foundation. Contents Foreword by The Paul Brunton Philosophic Foundation 1. Beyond Yoga 2. The Ultimate Path 3. The Religious and Mystic Grades 4. The Hidden Philosophy of India 5. The Philosophical Discipline 6. The Worship of Words 7. The Search After Truth 8. The Revelation of Relativity 9. From Thing to Thought 10. The Secret of Space and Time 11. The Magic of the Mind 12. The Downfall of Materialism Epilogue: The Philosophic Life Appendix 1: Some Misconceptions Cleared Up Appendix 2: Additional Resources from The Notebooks of Paul Brunton, Compiled by the Paul Brunton Philosophic Foundation Editors

**Holy Ground: Where Art and Text Meet** Hans T. Bakker, 2019-12-16 The 31 selected and revised articles in the volume *Holy Ground: Where Art and Text Meet*, written by Hans Bakker between 1986 and 2016, vary from theoretical subjects to

historical essays on the classical culture of India. They combine two mainstreams: the Sanskrit textual tradition, including epigraphy, and the material culture as expressed in works of religious art and iconography. The study of text and art in close combination in the actual field where they meet provides a great potential for understanding. The history of holy places is therefore one of the leitmotifs that binds these studies together. One article, The Ramtek Inscriptions II, was co-authored by Harunaga Isaacson, two articles, on Moksadharma 187 and 239–241 and The Quest for the Pasupata Weapon, by Peter C. Bisschop.

*Studies in Jaina History and Culture* Peter Flügel,2006-02-01 The last ten years have seen interest in Jainism increasing, with this previously little-known Indian religion assuming a significant place in religious studies. *Studies in Jaina History and Culture* breaks new ground by investigating the doctrinal differences and debates amongst the Jains rather than presenting Jainism as a seamless whole whose doctrinal core has remained virtually unchanged throughout its long history. The focus of the book is the discourse concerning orthodoxy and heresy in the Jaina tradition, the question of omniscience and Jaina logic, role models for women and female identity, Jaina schools and sects, religious property, law and ethics. The internal diversity of the Jaina tradition and Jain techniques of living with diversity are explored from an interdisciplinary point of view by fifteen leading scholars in Jaina studies. The contributors focus on the principal social units of the tradition: the schools, movements, sects and orders, rather than Jain religious culture in abstract. Peter Flügel provides a representative snapshot of the current state of Jaina studies that will interest students and academics involved in the study of religion or South Asian cultures.

**Tim - The Official Biography of Avicii** Måns Mosesson,2021-11-30 The intimate biography of the iconic DJ who was lost too soon. Tim Bergling was a musical visionary who, through his sense for melodies, came to define the era when Swedish and European house music took over the world. But Tim Bergling was also an introverted and fragile young man who was forced to grow up at an inhumanly fast pace. After a series of emergencies resulting in hospital stays, he stopped touring in the summer of 2016. Barely two years later, he took his own life. *Tim - The Biography of Avicii* is written by the

award-winning journalist Måns Mosesson, who through interviews with Tim's family, friends and colleagues in the music business, has intimately gotten to know the star producer. The book paints an honest picture of Tim and his search in life, not shying from the difficulties that he struggled with.

**Food of Bodhisattvas** Shabkar Tsogdruk Rangdrol, 2004-08-10 Based on the teachings of the Buddha, this book offers the most compelling and impassioned indictment of meat-eating to be found in Tibetan literature and is pertinent to anyone interested in vegetarianism as a moral or spiritual issue. The Buddha's teachings show how destructive habits can be examined and transformed gradually from within. The aim is not to repress one's desire for meat and animal products by force of will, but to develop heartfelt compassion and sensitivity to the suffering of animals, so that the desire to exploit and feed on them naturally dissolves. There are two texts presented here. One is an excerpt from Shabkar's Book of Marvels, consisting of quotations from the Buddhist scriptures and the teachings of masters of Tibetan Buddhism that argue against the consumption of meat, with Shabkar's commentary. The second, the Nectar of Immortality, is Shabkar's discourse on the importance of developing compassion for animals.

A Reader on the Sanskrit Grammarians Frits Staal, 1972 This book makes available to linguists and Sanskritists a collection of the most important articles on the Sanskrit grammarians, and provides a connected historical outline of their activities.

*Merging with Śiva* Subramuniya (Master.), 2002 This book is a guide for one who is ready to diligently walk the spiritual path. Great new vistas open up throughout its 365 daily lessons as Gurudeva shares, in the clearest terms, deep metaphysical insights into the nature of God, soul and world, mind, emotions, ultimate realizations, chakras, purpose of life on earth and much, much more. Simple but effective practices are taught: how to remould our nature and karmas, calm the mind, develop self-esteem, begin to meditate, clear up the past and create a bright future. At the same time, the seeker is guided in establishing a regular devotional and yogic practice whereby the gains of his inner life and realizations are stabilized and used in practical ways.

In Resonance, 1998-12-01 Within all of us there is an inner core. It is there where we can behold our own pulse, rhythmically, harmoniously blending with the divine. For many of us, this silent core folded in its unique rhythm, is hidden. We have yet to know of it and to experience its presence. This manual is to guide you as you seek to unfold the continuum of the eternal, divine pulse within you. Your handwriting is a mirror of your inner pulse. Symbolically, it reveals your attitudes, behavioral tendencies, inner resourcefulness, self-direction, and interpersonal motivations. That inner essence however, may not be known because of fears, anxieties, ego motivations, and self-destructive patterns. Thus there is disharmony clouding

the inner rhythm. The lessons of this manual assist you in bringing into harmony and balance your modes of thinking, feelings, and willing. To involve different conscious levels, the lessons include form drawings, visualizations, reflections and affirmations, along with m

Vedic Symbolism Sri Aurobindo, Aurobindo Ghose, 1988 The value of the Rig Veda as a guidebook to spiritual practice has been obscured due to the heavy veil of symbols used by the Rishis to hide their meaning from the uninitiated. Vedic Symbolism introduces the major vedic concepts and reveals their esoteric sense.

**How to Practice Dharma** Lama Zopa Rinpoche, 2012 This expanded edition contains both of the very popular Lama Yeshe booklets, *Becoming Your Own Therapist* and *Make Your Mind an Ocean*. *Becoming Your Own Therapist* First published in 1998, this booklet contains three public talks by Lama Yeshe on the general topic of Buddhism. Each lecture is followed by a question and answer session. Lama and his audiences always enjoyed the give and take of these lively exchanges, and pretty much anything went. Although these talks were called lectures, Lama would have each of us use them as a mirror for our minds and look beyond the words, find ourselves, and become our own psychologist. *Make Your Mind an Ocean* The talks in this booklet are on the general topic of the mind. Two were lunchtime lectures at Melbourne and Latrobe Universities. One was an evening lecture given to the general public. Perhaps of greatest interest is the lecture entitled *A Buddhist Approach to Mental Illness*. Lama presented this talk to a group of psychiatrists at Prince Henry's Hospital who were delighted to meet and question Lama, and this historic exchange underscores the difference between Western and Buddhist concepts of mental health.
