Entre redes sociales. Angélica Alvites Baiadera,2019-02-22 Angélica pone este libro en evidencia el uso de herramientas conceptuales que permiten detallar las estrategias migratorias de un grupo de mujeres peruanas en situación de pobreza, residentes –al momento del estudio– en un asentamiento de la ciudad de Córdoba, Argentina. El abordaje resulta interesante por las múltiples dimensiones que permiten la construcción del objeto y el análisis empírico. Así, por ejemplo, al tomar el nivel de las representaciones sociales, lo hace problematizando algunos de los significados que las mismas vehiculizan.

El oficio de enseñar Fernando Saúl Alanís Enciso, René Medina Esquivel,2019-11-02 En esta colaboración poco común y de largo aliento entre un académico historiador y un profesional de la educación, Fernando Alanís y René Medina, ponen el dedo en la llaga de la enseñanza de la historia a nivel posgrado en México al formular la siguiente paradoja: ¿Cómo puede lograr un profesor-investigador del campo de la historia formar una nueva generación de docentes de la actual era digital de los conocimientos, si carece de una orientación pedagógica, sobre todo una acorde con los nuevos tiempos?

Condiciones objetivas y esperanzas subjetivas: movilidad social y marcos de (in)certidumbre: Jéssica Lorena Pla,2016-12-13 Por Juan Cruz Medina. Periodista. Cuando nació el capitalismo, nacieron las clases sociales. Siglos después, y a pesar de las múltiples discusiones por las cuales este concepto ha estado atravesado, esta característica sigue intacta y es vivida por los individuos como algo casi natural. Aunque también es vivida como natural la idea de que la sociedad de clases es una sociedad móvil, y que cada persona puede, si así lo desea y así se lo propone, llegar a donde lo desee. Pero, ¿qué son las clases sociales? ¿Cómo se forman? ¿Qué es la estratificación social? ¿Qué es la movilidad social y qué características toma? Y, principalmente, ¿qué argumentos utilizan las personas para explicar su posición (dinámica) de clase? En esta investigación sociológica, Jéssica Pla hace un repaso de los principales paradigmas que abordaron la temática, desde Marx y Weber hasta los funcionalistas norteamericanos, y desarrolla una nueva perspectiva que combina distintas corrientes teóricas para analizar el fenómeno. Desde esa mirada, y con un abordaje metodológico mixto, que entrelaza análisis de datos secundarios e historias de vida, Pla se aboca a estudiar las trayectorias de clase (concepto que sintetiza la relación entre clases y movilidad social) durante los últimos 20 años en la región metropolitana de la Ciudad de Buenos Aires, dando lugar a

los argumentos con los cuales los individuos justifican su lugar en la estructura de clases. De esta forma, pone en escena las contradicciones de esos argumentos y problematiza los conceptos de esfuerzo individual, recompensa y libertad de mercado. Se trata de un trabajo fundamental para comprender las condiciones sociales del comienzo del siglo XXI en la Región Metropolitana de Buenos Aires, el rol del Estado como motor de las oportunidades de las personas, y el modo en el cual esas condiciones impactan en la subjetividad para pensar el presente individual y planear el futuro colectivo

Narrativas tributarias 3 Eleonora Lozano Rodríguez, 2022-04-01 Mediante la Resolución 1274 del 28 de enero del 2016, el Ministerio de Educación Nacional otorgó el registro calificado por siete años a la Maestría en Tributación de la Universidad de los Andes. Desde su concepción como maestría de profundización¹, este programa tiene especial énfasis en el estudio y la solución de casos y problemas avanzados relacionados con la tributación nacional, subnacional, internacional, supranacional y comparada. En consecuencia, sus materias han sido especialmente diseñadas para que el estudiante reconozca las problemáticas tributarias más importantes y, de esa manera, esté en capacidad de proponer alternativas de solución. Como resultado, en el curso Perspectivas Interdisciplinarias de la Tributación los estudiantes logran identificar las principales tensiones en la relación entre la tributación y otras disciplinas, pertenecientes o no al área jurídica, lo cual les permite establecer un mejor diálogo con profesionales de materias afines a la tributación. En el curso Temas Avanzados de la Tributación Colombiana, por su parte, se analizan las problemáticas (normativas, doctrinales y jurisprudenciales) más relevantes de los tributos nacionales y subnacionales, así como del procedimiento tributario, teniendo siempre en mente propuestas de mejora para el débil sistema tributario del país. En la asignatura Temas Avanzados de la Tributación Internacional, Supranacional y Comparada, los estudiantes profundizan en las tensiones interpretativas y aplicativas de las normas internas e internacionales con implicaciones fiscales en las distintas operaciones transfronterizas. Finalmente, los estudiantes cuentan con dos materias electivas: una de cualquier programa de maestría de la Universidad, para promover así el análisis interdisciplinar y la flexibilidad curricular, y otra propia de nuestra maestría, para buscar mayor especialidad. En estos cursos los alumnos, siguiendo sus propios intereses académicos y profesionales, perfilan aún más su profundización. En la figura 1 se visualiza mejor la estructura académica del segundo año de la maestría, pues el primero es la Especialización en Tributación de la Universidad de los Andes.

Turismo y religión en Cuba. Viabilidad y antípodas de una relación Clemente Hugo Ramírez Frías, El estudio realizado para lograr esta obra plantea contradicciones e impactos socioculturales en la relación del turismo con la actividad religiosa. Las investigaciones de varios años permiten al autor destacar la necesidad de ordenar y precisar ideas para el logro de un quehacer turístico respetuoso del patrimonio religioso y cultural. Contribuir a una cultura sobre religión, en todas sus manifestaciones, constituye propósito principal y eje en este libro, como tema y recurso pedagógico para los profesionales

vinculados a la esfera turística, con un enfoque científico y riguroso. El lector encontrará en estas páginas fundamentos para el conocimiento de un “turismo cultural sobre religión” o de “herencia religiosa” y no solo de raíces africanas, con el fin de enriquecer el turismo cubano.

Interpretive Biography Norman K. Denzin, 1989-09 'Interpretive Biography' combines one of the oldest techniques in the social sciences and humanities with one of the newest. Bringing in elements of postmodernism and interpretive social science, it re-examines the biographical and autobiographical genres.

NARRATIVAS TRIBUTARIAS 1 Eleonora Lozano Rodríguez, 2020-09-01 Esta obra presenta ocho narrativas tributarias escritas por estudiantes de la Maestría en Tributación de la Facultad de Derecho de la Universidad de los Andes. Son trabajos de grado que se realizaron a partir de una novedosa metodología que permite hacer un estudio de caso, resolver un problema concreto, planear una alternativa de solución y a la vez acercar al lector no especializado a los temas de tributación. Cada texto tiene una escena (la universidad), un reparto (profesores, abogados, asesores pedagógicos), una trama, una línea de tiempo y una situación humana apremiante (las dificultades de enseñar y aprender tributación). En *Narrativas Tributarias 1* se explican de forma didáctica situaciones que abarcan temas como el impuesto de industria y comercio en Colombia, la economía digital, el ahorro voluntario y la bancarización. Qué mejor para enseñar y aprender qué hacer.

Profiles of Social Research Morton M. Hunt, 1986-06-06 This splendid introduction to social research describes an area of scientific investigation that profoundly influences our daily lives and thoughts, but about which most of us know very little. We can picture a research chemist at work, white-coated and surrounded by beakers and test tubes—but what is the nature of social research? For interested general readers and particularly for students entering the various social science fields, Morton Hunt paints an immensely informative and accessible portrait. He begins with a lucid overview of the important varieties of social research, describing their advantages and limitations. Against this background, Hunt then details five remarkable case histories, eyewitness accounts of significant recent episodes in social research. Woven skillfully through each narrative are explorations of the basic methodological, practical, moral and political issues raised by social research. The story of a noteworthy series of sociopsychological experiments on teamwork, for example, enables Hunt to weigh the merits of using a laboratory setting to study social behavior and the ethics of deceiving human subjects. In similar fashion, Hunt depicts a historic cross-sectional survey on segregated schooling; a complex attempt to measure the impact of welfare programs; a real-world experiment with guaranteed annual incomes; and a path-breaking study of human aging that followed its subjects for a generation. This engaging and intelligent book will give readers a new understanding of the breadth and richness of social research as well as an informed appreciation of its significance for their lives.

A assessoria jurídica popular no marco do pensamento decolonial Maria do Rosário de Oliveira Carneiro, 2020-12-03 O

presente trabalho versa sobre a Assessoria Jurídica Popular (AJP), direitos e saberes construídos nas resistências populares. O objetivo central da pesquisa foi identificar se a AJP pode ser considerada um modo decolonial de pensar e de construir o Direito. Parte-se da hipótese de que a AJP se constrói como um instrumento contra-hegemônico que afirma o Pluralismo Jurídico e é um contraponto ao Direito e à advocacia convencionais, propondo-se à construção de novos direitos e novos conhecimentos jurídicos e a dar visibilidade às pessoas invisibilizadas, apoiando, assessorando e fortalecendo as lutas por direitos dos movimentos e organizações populares. Trata-se de uma pesquisa bibliográfica, mas que também utilizou-se de recursos como estudos de documentos, notas, publicações populares e alternativas, sítios, blogs, etc., instrumentos utilizados por movimentos sociais e pela AJP para dar visibilidade às suas teses, denúncias e reivindicações. Apresenta-se a abordagem metodológica utilizada no trabalho e a relação da pesquisadora com o tema da pesquisa, passando pelas trilhas do ser nordestina na Região do Sisal no sertão da Bahia. Trabalha-se o estado da arte da assessoria jurídica popular e o marco teórico do Pensamento Decolonial. Apresenta-se uma experiência concreta de trabalho de AJP a partir da atuação na Ocupação urbana de luta por moradia, Comunidade Dandara, em Belo Horizonte, Minas Gerais e conclui que a AJP é um modo decolonial de pensar e de construir o Direito.

Patterns of Discovery in the Social Sciences Paul Diesing, 2017-07-05 Social scientists are often vexed because their work does not satisfy the criteria of scientific methodology developed by philosophers of science and logicians who use the natural sciences as their model. In this study, Paul Diesing defines science not by reference to these arbitrary norms delineated by those outside the field but in terms of norms implicit in what social scientists actually do in their everyday work.

Logic Of Survey Analysis Morris Rosenberg, 1968

Tecnologia Educacional Sérgio Rodrigues Alves, 2018-08-30 O livro aponta um preocupante descompasso ao triangularmos uma pedagogia do século XIX, professores do século XX e alunos do século XXI, tendo como plano de fundo a Virtualização, Sociedade em Redes e seus reflexos na educação. Estabelece dicotomias entre Novas e Velhas Tecnologias na educação, tais como: •Real x Virtual •Educação Presencial x Educação a Distância •Transmitir x Interagir •Nativos Digitais x Imigrantes Digitais •Professor x Tutor

Theoretical Sociology Randall Collins, 1988 This is an excellent overview of theoretical sociology. Theoretical means that the book tries to understand society in a general sense. The book has a historical perspective but it also deals with the issues as they stand today. So the book is not just of historical interest. Thankfully, there is nothing about sociology of gender, religion, crime or this and that in this book.

The Craft of Sociology Pierre Bourdieu, Jean-Claude Chamboredon, Jean Claude Passeron, 1991 The work of the French sociologist Pierre Bourdieu has emerged, over the last two decades, as one of the most substantial and innovative bodies of theory and research in contemporary social science. The Craft of Sociology, both a textbook and an original contribution to

epistemology in social science, focuses on a basic problem of sociological research: the necessity of an epistemological break with the preconstructed objects social practice offers to the researcher. Pierre Bourdieu and his co-authors argue in the epistemological tradition of scholars like Bachelard, Canguilhem, Koyre, a tradition that identifies the construction of the object as being the fundamental scientific act. Their way of discussing the issue makes it accessible not only to academics and experts of epistemology, but also to advanced students of social science, using for illustration a wide range of texts from the various social sciences as well as from philosophy of science. The book includes an interview with Pierre Bourdieu and an introduction by the editor to his sociological methodology.

Reconstructing 'drop-out' George Jerry Sefa Dei, Josephine Mazzuca, Elizabeth McIsaac, Jasmin Zine, 1997-01-01 Based on the narratives of Black and non-Black students, teachers, parents, and community workers, this book examines the dilemma of African-Canadian students who lose interest and leave school.

Paths to Success Charles C. Harrington, Susan K. Boardman, 2000-10-16 Statisticians tell us that impoverished backgrounds are decent predictors of impoverished futures. This book seeks out the stories behind the exceptions. While the authors reveal consistencies between pathmakers' approaches and those of their middle-class counterparts, it also exposes striking differences between men and women, blacks and whites.

Fields of Play Laurel Richardson, 1997 How do the specific circumstances in which we write affect what we write? How does what we write affect who we become? How can we maintain professional and personal integrity in today's university? In a series of traditional and experimental writings, a culmination of ten years of works-in-progress, Laurel Richardson records an intellectual journey, displacing boundaries and creating new ways of reading and writing. Applying the sociological imagination to the writing process, she connects her life to her work. Deeply engaging, movingly written with grace, elegance, and clarity, the book stimulates readers to situate their own writing in personal, social, and political contexts.
