One Truth, One Law Erin Werley,2020 Have you been seeking answers but not really finding them? Have your dreams started to feel like just that-dreams? Has the fear of what other people will think stopped you from being who you want to be and doing what you want to do? Does a fulfilled life feel like something meant for others, not for you?Erin Werley used to feel that way, too. Then, one day, she started to receive deposits from her inner voice, which calls itself I Am. And everything in her life began to change. Most people would call One Truth, One Law: I Am, I Create a channeled book, but I Am is adamant that it isn't. As I Am puts it, Every human is me. Every human can access me. When somebody says they're 'channeling' something outside of themselves, it's because they don't understand that they are God and that we are all one.Written as a series of conversations between I Am and Werley's husband, Phil, the message of One Truth, One Law is simple: Every single one of us is God. We just have a confused filter that thinks we're not God.I Am's intention with this book is not to offer you information that can only come through Werley. It's to teach you how to access your own inner voice so that you'll finally get answers to your questions. So that you'll be able to make your dreams a reality. So that you'll tap into your own God wisdom that no longer worries about what others think. So that you'll know a fulfilled life is something for you and not just other people.Once you really let it soak in that you are God, and you're here to further expand the universe through this physical experience, the limits on your dreams start to fall away.

I AM Howard Falco,2010-09-02 I AM is a fascinating, in-depth and eye-opening look at the very essence of how each of our lives are created in every moment. - Hale Dwoskin, author of the New York Times bestseller, The Sedona Method and featured teacher in The Secret For centuries humankind has been asking fervent questions about the meaning of life. As Howard Falco learned, the answers to these questions can ultimately be found in the answer to just one: Who am I? In late 2002, in the middle of an ordinary life, Falco-a thirty- five-year-old investment manager with a wife and two children-sought the answer to this powerful question and remarkably this quest resulted in a sudden and all-encompassing shift in his awareness that revealed more about life and how we each create it than he ever imagined knowing. Startled by this new understanding and its implications for his own life and the lives of all others, Falco set out to share his discoveries. The stunning result is this book. I AM takes readers on a life-changing journey in which they will discover the incredible power they have over their experience of life, finding that the doorway to eternal peace, happiness, and fulfillment lies in one of the

shortest sentences in the written word but the most powerful in the universe: I AM.

Mystical Oneness and the Nine Aspects of Being Wayne Wirs,2016-12-01

Spiritual Theory of Everything Thomas Vazhakunnathu, Spiritual Theory of Everything is the outcome of my seeking to find answers to the fundamental questions of life from a spiritual and scientific perspective in a holistic way. It explains the origin, nature, evolution, purpose and destiny of life and the universe and also contains topics like the fundamental particle, soul, mind, spirit, chakras, cosmic laws, densities or dimensions, spiritual development, reincarnation, karma, natural living, planetary changes etc. This book shows that we are the cause (we own and create our life) and the conditions or circumstances in our life are the effects, and when we awaken or transform or evolve, then our circumstances must also change so as to be in alignment with our vibrations. It also shows how we can live naturally or live in alignment with the natural processes, laws and flow of life and experience a healthy, happy and peaceful life.

The Mother of Invention Neale Donald Walsch,2011-01-15 A biography of a spiritual visionary, written by one of the great thinkers of our time A biography unlike any other, The Mother of Invention tells the story of every human being now on the earth . . . through the telling of the life story of futurist and visionary Barbara Marx Hubbard. We are all moving through the same process, the book and its subject declare. It is the process of the birthing of our species. In what may very well be a new literary style, this biography begins in December 22, 2012, unraveling Barbara's story backward to the date of her birth. Throughout the book are special sections inviting us to explore how we may directly apply what Barbara has observed and learned during her remarkable 80-year journey . . . to our own daily lives. On this journey, we will witness Barbara as she became one of the first women ever to have her name placed in nomination for the vice presidency of the United States by a major political party, traveled to Russia as a cultural ambassador for peace, visited the Oval Office and asked the President a question that he could not answer, and developed a deep acquaintanceship with the American space program. Today, we continue to find her at the leading edge of contemporary thought and innovative action regarding our construction of the future. In a very real sense, the story of Barbara Marx Hubbard is the story of the future of all of us, rendering it one of the most relevant and compelling modern biographies of our time.

The Perception Transformation Chris Smythe,2014-02-14 Perception + Beliefs = Reality Life is difficult... That is how a lot of people perceive their own life and it is true for them, because that is what they believe and their sub-conscious mind would 100% support them the idea that life is hard . But is life really that hard or we are just making it up in our own mind? What we perceive is what we believe, and all this is based on what we hear, see, feel, and think. Our perception drives our behaviors everyday and our thoughts are perhaps the most crucial components of our ability to perceive. In this book, we will discuss in detail on the power of our perception and explore how the way our mind works affects our perception. We will take a closer look at how each of us perceive the sight and sound he/she receives in a way which is very different from each others. We will also discuss the importance of perception in our understanding of what reality really is, and show you some real life scenarios which will consolidate your understanding of our perception. Here is what you are about to find out.. ** Perceived truths are NOT based on Real Truth. ** The Power to Choose a Response ** How your Habitat forms Your Habits ** How to Change Your Core Beliefs The Perception Transformation has been composed to help you achieve a better understanding of your world and how you perceive things around you. Only through a proper understanding of perception

can you learn and see the light, even in your darkest of times. By altering what you perceive as negative experiences, you can alleviate your negative emotions and your self-imposed restriction on leading a happy and healthy life.

Knowing Our Future Michael Lee, 2012 The received conventional wisdom within the global futurist community is that the future is unknowable. Knowing our future outlines a full theory of how knowable the future really is. Using case studies of prescient predictions of the social future from the time of the French Revolution through to the present Michael Lee argues that there are sound theoretical grounds for establishing a science of the future and accurately predicting it time after time. Drawing on mathematics, social theory, physics, economics, social biology and philosophy and referencing great thinkers from the Marquis de Condorcet, Herbert Spencer, Newton, Einstein, George Bernard Shaw, Stephen Hawking, Bertrand Russell and Roger Penrose, amongst others, Lee brilliantly presents the argument that the future, far from being mysterious and unknowable, can be understood and predicted.
