Adagio for strings Samuel Barber, 1949

The Saddest Music Ever Written Thomas Larson, 2012-02-28 An exploration of the cultural impact of Samuel Barber's *Adagio for Strings*, the *Pieta'* of music, and its enigmatic composer.

Samuel Barber Howard Pollack, 2023-04-04 A pivotal twentieth-century composer, Samuel Barber earned a long list of honors and accolades that included two Pulitzer Prizes for Music and the public support of conductors like Arturo Toscanini, Serge Koussevitzky, and Leonard Bernstein. Barber's works have since become standard concert repertoire and continue to flourish across high art and popular culture. Acclaimed biographer Howard Pollack (Aaron Copland, George Gershwin) offers a multifaceted account of Barber's life and music while placing the artist in his social and cultural milieu. Born into a musical family, Barber pursued his artistic ambitions from childhood. Pollack follows Barber's path from his precocious youth through a career where, from the start, the composer consistently received prizes, fellowships, and other recognition. Stylistic analyses of works like the *Adagio for Strings*, the *Violin Concerto*, *Knoxville: Summer of 1915* for voice and orchestra, the *Piano Concerto*, and the operas *Vanessa and Antony* and *Cleopatra*, stand alongside revealing accounts of the music's commissioning, performance, reception, and legacy. Throughout, Pollack weaves in accounts of Barber's encounters with colleagues like Aaron Copland and Francis Poulenc, performers from Eleanor Steber and Leontyne Price to Vladimir Horowitz and Van Cliburn, patrons, admirers, and a wide circle of eminent friends and acquaintances. He also provides an eloquent portrait of the composer's decades-long relationship with the renowned opera composer Gian Carlo Menotti.

Informed by new interviews and immense archival research, *Samuel Barber* is a long-awaited critical and personal biography of a monumental figure in twentieth-century American music.

Samuel Barber Wayne Wentzel, 2012-12-06 An annotated reference guide to Barber's life, works and achievements, it will prove valuable for anyone seeking information on him.

String Quartet, Op. 11 Samuel Barber, 1986-11 Study Score

You are what You Hear Harry Witchel, 2010 Pondering the musicality of everything from bird songs to the language he calls motherese, Dr. Witchel illustrates the power of music and addresses the questions: Why do we have music? What does music do to our emotions? Can animals hear and understand music? What does music do to your brain? Why do people listen to sad music? Why do some people like classical but others only like heavy metal? Is there some essential feature to all music? *You Are What You Hear* is an erudite and entertaining study that is unique in many ways. No other book has thoroughly elaborated the connection between music and social territory in humans, although in other music-making species scientists have shown this connection to be clear-cut. Given the wealth of scientific evidence and historical narratives presented in *You Are What You Hear*, an intellectual investigation of this avenue is long overdue. Written by a psychobiologist, the work straddles hard science and psychology, approaching music from a unique interdisciplinary perspective. Successfully bridging these strands of evidence, *You Are What You Hear* elucidates the significance of territory not only in music but in daily life. This lively and engaging book will have a broad appeal — not only to the general public, but to students interested in the relationship between music and culture. Anyone from seventeen to ninety-seven will have the potential to gain something from this book.

Samuel Barber Remembered Peter Dickinson, 2010 Compulsively readable interviews with the great American composer and his friends and colleagues, including Aaron Copland, Virgil Thomson, and Leontyne Price.

Samuel Barber Barbara B. Heyman, 2020 Samuel Barber (1910-1981) is one of the most admired and honored American composers of the twentieth century. An unabashed Romantic, largely independent of worldwide trends and the avant-garde, he infused his works with poetic lyricism and gave tonal language and forms new vitality. His rich legacy includes every genre, including the famous *Adagio for Strings*, *Knoxville: Summer of 1915*, three concertos, a plethora of songs, and two operas, the Pulitzer prize-winning *Vanessa*, and *Antony and Cleopatra*, the commissioned work that opened the new Metropolitan Opera House at Lincoln Center in 1966. Generously documented by letter, sketches, autograph manuscripts, and interviews with friends, colleagues, and performers with whom he worked, this ASCAP-Award winning book is still unquestionably the most authoritative biography on Barber, covering his entire career and interweaving the events of his life with his compositional process. This second edition benefits from many new discoveries, including a Violin Sonata recovered from an artist's estate, a diary Barber kept his seventeenth year, a trove of letters and manuscripts that were recovered from

a suitcase found in a dumpster, documentation that dispels earlier myths about the composition of Barber's Violin Concerto, and research of scholars that was stimulated by Heyman's work. Barber's intimate relations are discussed when they bear on his creativity. A testament to the lasting significance of Romanticism, Samuel Barber stands as a model biography of an important musical figure.

A Guide to Non-Jazz Improvisation: Piano Edition Dick Weissman, Dan Fox, 2010-12-29 This book will appeal to pianists who want to learn to improvise in many of the styles current today including blues, rock, Latin-American, country, New Age, World Music, etc. The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15-piece arrangement of the old square dance tune, Cripple Creek, and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that - in addition to the many musicians who do not improvise - there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non-jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles, including: Blues, Country, American folk, Latin-American, World music including South American, Eastern European and Asian. Odd meters (playing in a variety of time signatures), New Age, Classical, Folk-Rock. In short, the books are an encyclopedia of virtually every musical style, excluding jazz.
