

Ships In First Fleet

Alan Boardman, Alan Harvey

The First Fleet Alan Frost, 2011 In 1787 a convoy of eleven ships, carrying about 1500 people, set out from England for Botany Bay. According to the conventional account, it was a shambolic affair: under - prepared, poorly equipped and ill - disciplined. Robert Hughes condemned the organisers' "muddle and lack of foresight", while Manning Clark described scenes of "indescribable misery and confusion". In *The First Fleet: The Real Story*, Alan Frost draws on previously forgotten records to debunk these persistent myths. He shows that the voyage was in fact meticulously planned - reflecting its importance to the British government's secret ambitions for imperial expansion. He examines the ships and supplies, passengers and behind - the - scenes discussions. In the process, he reveals the hopes and schemes of those who planned the voyage, and the experiences of those who made it.

The First Fleet Rob Mundle, 2014-10-01 A biography of unprecedented expedition under sail The role of the sailor through history should never be underestimated. Over centuries battles were won and new lands discovered and settled by their skills and nerve. Rob Mundle is back on the ocean to tell one of the great stories of an expedition under sail: the extraordinary eight-month, 17-000-nautical mile voyage of the First Fleet. With customary sweep and swell, Mundle puts you alongside 48-year-old Captain Arthur Phillip on the quarterdeck of the Royal Navy escort, HMS Sirius, as he commands his small armada of 11 ships, carrying over 1420 men, women and children, to the other side of the world.

Botany Bay and the First Fleet Alan Frost, 2019-06-04 Now in one definitive volume, *Botany Bay and the First Fleet* is a full, authentic account of the beginnings of modern Australia. In 1787 a convoy of eleven ships, carrying about 1400 people, set out from England for Botany Bay, on the east coast of New South Wales. In deciding on Botany Bay, British authorities hoped not only to rid Britain of its excess criminals, but also to gain a key strategic outpost and take control of valuable natural resources. According to the conventional account, it was a shambolic affair: under-prepared, poorly equipped and ill-disciplined. Here, Alan Frost debunks these myths, and shows that the voyage was in fact meticulously planned - reflecting its importance to Britain's imperial and commercial ambitions. In his examination of the ships, passengers and preparation, Frost reveals the hopes and schemes of those who engineered the voyage, and the experiences of those who made it. The culmination of thirty-five years' study of previously neglected archives, *Botany Bay and the First Fleet* offers new and

surprising insights into how Australia came to be.

Art of the First Fleet Lisa Di Tommaso,2012 In 1788, nearly 1500 people on 11 sailing ships came ashore at Port Jackson in Western Australia after a grueling four month journey from England. This collection of vessels later became known as the First Fleet. This book is a captivating collection of watercolours, washes, ink and pencil drawings created during this historic time.

The First Fleet Piano Geoffrey Lancaster,2015 On Sunday, 13 May 1787, a square piano departed from Portsmouth on board the Sirius, the flagship of the First Fleet, bound for Botany Bay. Who made the First Fleet piano, and when was it made? Who owned it? Who played it, and who listened? What music did the instrument sound out, and within what contexts was its voice heard? What became of the First Fleet piano after its arrival on antipodean soil, and who played a part in the instrument's subsequent history? Two extant instruments contend for the title 'First Fleet piano' ; which of these made the epic journey to Botany Bay in 1787-88? 'The First Fleet piano : a musician's view' answers these questions, and provides tantalising glimpses of social and cultural life both in Georgian England and in the early colony at Sydney Cove -- Back cover.

The Voyage of Governor Phillip to Botany Bay Arthur Phillip,1789

Journal of a Voyage to New South Wales John White,1790

Memorandums by James Martin Tim Causer,2017-06-07 Among the vast body of manuscripts composed and collected by the philosopher and reformer Jeremy Bentham (1748-1832), held by UCL Library's Special Collections, is the earliest Australian convict narrative, Memorandums by James Martin. This document also happens to be the only extant first-hand account of the most well-known, and most mythologized, escape from Australia by transported convicts. On the night of 28 March 1791, James Martin, William and Mary Bryant and their two infant children, and six other male convicts, stole the colony's fishing boat and sailed out of Sydney Harbour. Within ten weeks they had reached Kupang in West Timor, having, in an amazing feat of endurance, travelled over 3,000 miles (c. 5,000) kilometres) in an open boat. There they passed themselves off as the survivors of a shipwreck, a ruse which—initially, at least—fooled their Dutch hosts. This new edition of the Memorandums includes full colour reproductions of the original manuscripts, making available for the first time this hugely important document, alongside a transcript with commentary describing the events and key characters. The book also features a scholarly introduction which examines their escape and early convict absconding in New South Wales more generally, and, drawing on primary records, presents new research which sheds light on the fate of the escapees after they reached Kupang. The introduction also assesses the voluminous literature on this most famous escape, and critically examines the myths and fictions created around it and the escapees, myths which have gone unchallenged for far too long. Finally, the introduction briefly discusses Jeremy Bentham's views on convict transportation and their enduring impact.

Sunburnt Country Joelle Gergis, 2018-10-25 What was Australia's climate like before official weather records began? How do scientists use tree-rings, ice cores and tropical corals to retrace the past? What do Indigenous seasonal calendars reveal? And what do settler diary entries about rainfall, droughts, bushfires and snowfalls tell us about natural climate cycles? *Sunburnt Country* pieces together Australia's climate history for the first time. It uncovers a continent long vulnerable to climate extremes and variability. It gives an unparalleled perspective on how human activities have altered patterns that have been with us for millions of years, and what climate change looks like in our own backyard. *Sunburnt Country* highlights the impact of a warming planet on Australian lifestyles and ecosystems and the power we all have to shape future life on Earth.

The Birth of Sydney Tim Flannery, 2015-01-07 The author of the #1 international bestseller, *The Weather Makers*, provides a stunning portrait of Australia's cultural capital. Sydney, Australia, is one of the world's most beautiful and fascinating cities, home to over five million people and a popular tourist destination. In *The Birth of Sydney*, scientist and historian Tim Flannery blends the writings of Australian explorers, settlers, leaders, journalists, and visitors to construct a compelling narrative history of the great metropolis—from its founding as a remote penal colony of the British Empire in 1788 to its emergence as a vital trading power in the nineteenth century. Together, their voices and experiences create an unforgettable panoramic portrait of the early life of the majestic harbor city.

1788 David Hill, 2009 An extraordinary narrative history of the First Fleet, by the bestselling author of *The Forgotten Children*. Never before or since has there been an experiment quite as bold as this. Set against the backdrop of Georgian England with its peculiar mix of elegance, prosperity, progress and squalor, the story of the First Fleet is one of courage, of short-sightedness, of tragedy but above all of extraordinary resilience. It is also, of course, the story of the very first European Australians, reluctant pioneers who travelled into the unknown - the vast majority against their will - in order to form a colony by order of the King's government. Separated from loved ones and travelling in cramped conditions for the

months-long journey to Botany Bay, they suffered the most unbearable hardship on arrival on Australian land where a near-famine dictated that rations be cut to the bone. But why was the settlement of New South Wales proposed in the first place? Who were the main players in a story that changed the world and ultimately forged the Australian nation? How did the initial skirmishes with the indigenous population break out and how did the relationship turn sour so quickly? Using diaries, letters and official records, David Hill artfully reconstructs the experiences of these famous and infamous men and women of history, combining narrative skill with an eye for detail and an exceptional empathy with the people of the past.

Incentivology Jason Murphy, 2019-06-01 Rewards. Punishments. Prices. The Nobel Prize. Candy Crush. Incentives take more forms than you might expect and they can be hard to spot, but they shape our lives in ways that we rarely examine. Some incentives are obvious, like for example, publicly committing to doing something you dislike in order to motivate you to do something difficult, like lose weight. But, many of the most powerful incentives are accidental, and invisible even to those who designed them. Some are tame - and some are most definitely not. Whether it's bounties for criminals or Instagrammable meals, training your dog or saving the planet, incentives regularly backfire, go missing, mutate and evolve. Without oversight, their unintended consequences can have very global effects. In *Incentivology*, economist Jason Murphy uncovers the huge incentive systems we take for granted and turns them inside out. In lively, entertaining prose he explores the mechanisms behind many spectacular failures and successes in our history, culture and everyday lives, and shows us how to use (or lose) incentives in our world at large.

An Account of the English Colony in New South Wales, Volume 2 (of 2) (Illustrated Edition) David Collins, 2008-03 FROM ITS FIRST SETTLEMENT IN 1788, TO AUGUST 1801: WITH REMARKS ON THE DISPOSITIONS, CUSTOMS, MANNERS, etc. OF THE NATIVE INHABITANTS 200 OF THAT COUNTRY.

By Sea & Stars Trent Dalton, 2018 Dazzling, poetic and vivid storytelling from one of Australia's greatest writers, which tells the bloody, brutal and enthralling story of the epic journey of the First Fleet. Originally published as a multi-part serial in *The Australian*, *By Sea and Stars* tells the story of the epic voyage which led to the founding of our nation, as told from the point of view of the people who took part - willingly or unwillingly - in it. Drawing from historical sources of the time, including letters and journals, Trent Dalton, one of Australia's best writers, brings this epic voyage, and the people who went on it, to vivid life. This is not dry history of dates and names. These are gripping stories of real people, from the lowest to the highest. From terrified nine year old chimney sweep and convict John Hudson to conscientious Lieutenant Ralph Clark, pining after his wife and son, to the brave and determined Captain-General Arthur Phillip, the brightest star of the British Navy: these are the people who made the voyage, and these are their stories - of death, duty, glory, lust, violence, escape, mutiny - and a great southern land...

Across Great Divides Susan E. Boyer, 2013 *Across Great Divides*, true stories of life at Sydney Cove, brings to life the diverse experiences of people living in the precarious circumstance of Australia's first penal colony. The stories are relayed through a non-fiction narrative which shows how convict men saw and seized the possibilities of their new position. It portrays the situation of convict women and their relationships with military men. The stories demonstrate the varied responses of participants to their unique situation: some succeeded beyond their imagination, some failed disastrously. The stories also give voice to the dilemma of the Aboriginal people challenged by the unexpected arrival of a completely alien race of white people to their land.
