**City of Screens** Jasmine Nadua Trice,2021-02-08 In *City of Screens* Jasmine Nadua Trice examines the politics of cinema circulation in early-2000s Manila. She traces Manila's cinema landscape by focusing on the primary locations of film exhibition and distribution: the pirated DVD district, mall multiplexes, art-house cinemas, the university film institute, and state-sponsored cinematheques. In the wake of digital media piracy and the decline of the local commercial film industry, the rising independent cinema movement has been a site of contestation between filmmakers and the state, each constructing different notions of a prospective, national public film audience. Discourses around audiences become more salient given that films by independent Philippine filmmakers are seldom screened to domestic audiences, despite their international success. *City of Screens* provides a deeper understanding of the debates about the competing roles of the film industry, the public, and the state in national culture in the Philippines and beyond.

**Megachange** Daniel Franklin,D. Franklin,John Andrews,2012-03-27 'Megatrends' are great forces in societal development that have profound impacts on states, markets, and civil society in the now and for the years to come. They can effectively be employed as a starting point for analyzing our world. *Megachange: The World in 2050* looks at these sweeping, fundamental trends that are changing the world faster than at any time in human history. Including chapters on approximately twenty of these megatrends, each elegantly outlined by contributors from *The Economist*, and rich in supporting facts and graphics, the book is a compelling read as well as a valuable research and reference tool. Groups the megatrends that are shaping our world into several categories: People, Life and Death, Economy and Business, and Knowledge; Each trend is covered in a concise but detailed chapter written by an expert from *The Economist*; Edited by Daniel Franklin, Executive Editor of *The Economist*. Packed with important information about the forces that shape our

world, Megachange is a fascinating new look to the future from the experts at The Economist.--Publisher's website.

*Encyclopedia of World Pop Music, 1980-2001* Stan Jeffries,2003-06-30 In this eclectic encyclopedia, author Stan Jeffries chronicles the careers of over 110 musical artists from 37 different nations. Entries include biographical information, trace the entrants' musical development, and recount the performers' critical and popular reception. Annotation. Weighted heavily towards European acts and secondarily towards Asian ones, this encyclopedia contains some 130 entries offering career details of groups and single artists who have achieved success in world pop charts. The selection is arbitrary and incomplete, with four entries from South Africa representing the entirety of the African continent, the growing influence of Arab pop music completely ignored, and the arguably crucial contribution of Jamaica to world pop utterly neglected.

**A Portrait of the Auteur as Fanboy** Anastasia Salter,Mel Stanfill,2020-10-16 Increasingly over the past decade, fan credentials on the part of writers, directors, and producers have come to be seen as a guarantee of quality media making—the “fanboy auteur.” Figures like Joss Whedon are both one of “us” and one of “them.” This is a strategy of marketing and branding—it is a claim from the auteur himself or industry PR machines that the presence of an auteur who is also a fan means the product is worth consuming. Such claims that fan credentials guarantee quality are often contested, with fans and critics alike rejecting various auteur figures as the true leader of their respective franchises. That split, between assertions of fan and auteur status and acceptance (or not) of that status, is key to unravelling the fan auteur. In *A Portrait of the Auteur as Fanboy: The Construction of Authorship in Transmedia Franchises*, authors Anastasia Salter and Mel Stanfill examine this phenomenon through a series of case studies featuring fanboys. The volume discusses both popular fanboys, such as J. J. Abrams, Kevin Smith, and Joss Whedon, as well as fangirls like J. K. Rowling, E L James, and Patty Jenkins, and dissects how the fanboy-fangirl auteur dichotomy is constructed and defended by popular media and fans in online spaces, and how this discourse has played in maintaining the exclusionary status quo of geek culture. This book is particularly timely given current discourse, including such incidents as the controversy surrounding Joss Whedon’s so-called feminism, the publication of *Harry Potter and the Cursed Child*, and contestation over authorial voices in the DC cinematic universe, as well as broader conversations about toxic masculinity and sexual harassment in Hollywood.

**The Economist: Megachange** The Economist,2012-03-22 In 2050 there will be 9.3 billion people alive - compared with 7 billion today - and the number will still be rising. The population aged over sixty-five will have more than doubled, to more than 16 per cent; China's GDP will be 80 per cent more than America's; and the number of cars on India's roads will have increased by 3,880 per cent. And, in 2050 it should be clear whether we are alone in the universe. What other megachanges can we expect - and what will their impact be? This comprehensive and compelling book will cover the most significant trends that are shaping the coming decades, with each of its twenty chapters elegantly and authoritatively outlined by Economist contributors, and rich in supporting facts and figures. It will chart the rise and fall of fertility rates across continents; how energy resources will change in light of new technology, and how different nations will deal with major developments in science and warfare. Megachange is essential reading for anyone who wants to know what the next four decades hold in store.

**Japan's Favorite Mon-star** Steve Ryfle,1998 Bigger, badder, and more durable than Hollywood's greatest action heroes, Godzilla emerged from the mushroom cloud of an H-bomb test in 1954 to trample Tokyo. More than 40 years later, he reigns as the undisputed monarch of movie monsters, with legions of fans spanning several generations and countless international boundaries.

**Anticipation** Jonathan Bowen,2005-04 In 1999, the first new Star Wars movie in sixteen years came to theater screens worldwide. Leading up to the release of the film, the hype and media coverage reached epic proportions. The Phantom Menace graced every cover from Vanity Fair to Newsweek to Entertainment Weekly. Fans began camping in line for more than a month in Los Angeles just to be first to see the new film. Anticipation tells the real-life story of a movie that faced expectations unlike those of any other film in history, but had the advantage of years of anticipation and excitement from eager fans and the public. The Phantom Menace deserves a place in film history not only as the most anticipated film ever made, but also for its place as the first film presented to the public with digital projection technology, its status as one of the highest grossing films ever made, and the unbelievable devotion of thousands of fans who demonstrated the great meaning movies can have to people of all ages and social backgrounds.

**Made in Nusantara** Adil Johan,Mayco A. Santaella,2021-03-17 Made in Nusantara serves as a comprehensive introduction to the history, sociology, ethnography, and musicology of historical and contemporary popular music in maritime Southeast Asia. We Band of Angels Elizabeth M. Norman,2011-06-29 In the fall of 1941, the Philippines was a gardenia-scented paradise for the American Army and Navy nurses stationed there. War was a distant rumor, life a routine of easy shifts and dinners under the stars. On December 8 all that changed, as Japanese bombs began raining down on American bases in Luzon, and this paradise became a fiery hell. Caught in the raging battle, the nurses set up field hospitals in the jungles of Bataan and the tunnels of Corregidor, where they tended to the most devastating injuries of war, and suffered the terrors of shells and shrapnel. But the worst was yet to come. After Bataan and Corregidor fell, the nurses were herded into internment camps where they would endure three years of fear, brutality, and starvation. Once liberated, they returned to an America that at first celebrated them, but later refused to honor their leaders with the medals they clearly deserved. Here, in letters, diaries, and riveting firsthand accounts, is the story of what really happened during those dark days, woven together in a deeply affecting saga of women in war. Praise for *We Band of Angels* "Gripping . . . a war story in which the main characters never kill one of the enemy, or even shoot at him, but are nevertheless heroes . . . Americans today should thank God we had such women."—Stephen E. Ambrose "Remarkable and uplifting."—USA Today "[Elizabeth M. Norman] brings a quiet, scholarly voice to this narrative. . . . In just a little over six months these women had turned from plucky young girls on a mild adventure to authentic heroes. . . . Every page of this history is fascinating."—Carolyn See, *The Washington Post* "Riveting . . . poignant and powerful."—*The Dallas Morning News* Winner of the Lavinia Dock Award for historical scholarship, the American Academy of Nursing National Media Award, and the Agnes Dillon Randolph Award

**Cult Film as a Guide to Life** I.Q. Hunter,2016-09-08 *Cult Film as a Guide to Life* investigates the world and experience of cult films, from well-loved classics to the worst movies ever made. Including comprehensive studies of cult phenomena such as trash films, exploitation versions, cult adaptations, and case studies of movies as different as *Showgirls*, *Room 237* and *The Lord of the G-Strings*, this lively, provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world. Using his expertise in two fields, I.Q. Hunter also explores the important overlap between cult film and adaptation studies. He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences' emotional investment not only in texts but also in the relationships between them, and how such bonds of caring are structured over time. The book's emergent theme is cult film as lived experience. With reference mostly to American cinema, Hunter explores how cultists, with their powerful emotional investment in films, care for them over time and across numerous intertexts in relationships of memory, nostalgia and anticipation.

**The Frodo Franchise** Kristin Thompson,2007-08-27 In this study of Peter Jackson's film adaptation of J.R.R. Tolkien's *The Lord of the Rings* trilogy, Kristin Thompson demonstrates the impact the trilogy has had on the companies that made it, on the fantasy genre, on New Zealand, and on independent cinema, and looks at how the trilogy is regarded as one of the most important films ever made.
