**FIDIC Contracts in the Americas** Donald Charrett, 2023-07-18 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC may need to be supplemented by Particular Conditions that specify the specific requirements of that project and jurisdiction. FIDIC Contracts in the Americas: A Practical Guide to Application provides readers with an overview of the legal environment, the construction industry and features of contract law applying to construction contracts in a number of jurisdictions in the Americas. It provides detailed guidance for the preparation of the Particular Conditions for FIDIC contracts that will comply with the requirements of the applicable laws that apply to the site where the work is carried out, and for the governing law of the contract. This book also details the impact of COVID-19 on both the execution of construction projects and the operation of construction contracts in each jurisdiction. This book is essential reading for construction professionals, lawyers and students of construction law.
