Criminal Justice in Germany Jörg-Martin Jehle,2020

The Nazi Officer's Wife Edith Hahn Beer,Susan Dworkin,2012-01-31 #1 New York Times Bestseller Edith Hahn was an outspoken young woman in Vienna when the Gestapo forced her into a ghetto and then into a slave labor camp. When she returned home months later, she knew she would become a hunted woman and went underground. With the help of a Christian friend, she emerged in Munich as Grete Denner. There she met Werner Vetter, a Nazi Party member who fell in love with her. Despite Edith's protests and even her eventual confession that she was Jewish, he married her and kept her identity a secret. In wrenching detail, Edith recalls a life of constant, almost paralyzing fear. She tells how German officials casually questioned the lineage of her parents; how during childbirth she refused all painkillers, afraid that in an altered state of mind she might reveal something of her past; and how, after her husband was captured by the Soviets, she was bombed out of her house and had to hide while drunken Russian soldiers raped women on the street. Despite the risk it posed to her life, Edith created a remarkable record of survival. She saved every document, as well as photographs she took inside labor camps. Now part of the permanent collection at the Holocaust Memorial Museum in Washington, D.C., these hundreds of documents, several of which are included in this volume, form the fabric of a gripping new chapter in the history of the Holocaust—complex, troubling, and ultimately triumphant.

Gartenbuch Johann Metzger,Friedrich Jakob Dochnahl,2023-07-18 A classic guide to gardening, originally published in German in the early 19th century, Gartenbuch is a comprehensive resource for the amateur gardener, covering topics such as soil preparation, planting, pruning, and cultivation. The book also includes detailed information on the most important garden plants and flowers, along with tips for creating the perfect garden layout. With its charming prose and practical advice, Gartenbuch is a timeless classic that will be enjoyed by gardeners of all levels. Badenheim Nineteen-thirty-nine Aharon Apelfeld, 1980 A tale of Europe in the days just before the war. It tells of a small group of Jewish holiday makers in the resort of Badenheim in the Spring of 1939. Hitler's war looms, but Badenheim and its summer residents go about life as normal.

Man, Medicine, and the State Wolfgang Uwe Eckart, 2006 This anthology unites articles about different aspects of scientific human experiments in the course of World War I to the 1960s. The majority of them deals with the development of medicine and life sciences as well as the national research promotion under the Nazi regime and during World War II. Studies on human experiments of French, Japanese, and US-American research enlarge the perspective on a problem of obviously international range. These empirical studies are supplemented by articles on the legal evaluation of this behaviour of scientists, as well as on the resulting movement to formulate binding transnational ethical codes on behalf of human

experiments.

The Apocryphal Gospels Jens Schroter, 2021-11-19 The New Testament contains four accounts of the life of Jesus. To some people in antiquity, four was too many. Disagreements in the Gospels over what Jesus said and did triggered debate between insiders and drew criticism from outsiders. To other people, four was not enough. As early as the first century, Christians wrote additional gospels, each with their own portrayal of Jesus and depictions of his relationships with his family, his followers, and his Father. While these gospels were not included in the New Testament canon, many continued to be important for Christian thought and practice; all these texts, moreover, are significant for the study of emergent Christianity. This short, accessible introduction draws on current scholarship on the various noncanonical (or apocryphal) gospels to present this fascinating literature to readers eager to learn more about their origins, contents, and meaning. The book begins with a discussion of the distinction between gospels that became canonical and those that came to be regarded as apocryphal. Then, the gospels are presented in chapters arranged according to Jesus' ministry: from Infancy Gospels to texts about Jesus' earthly career to his passion, resurrection, and postresurrection appearances. This book demonstrates how early Christians confronted crises in their communities through story, crafting new accounts of Jesus' life that expanded upon and sometimes challenged the Gospels that became canonical. The apocryphal gospels are not Scripture, but they are no less valuable for understanding Christianity in its formative centuries and beyond.

Barbarian Spring Jonas Lüscher, 2015-03-15 On a business trip to Tunisia, Preising, a leading Swiss industrialist, is invited to spend the week with the daughter of a local gangster. He accompanies her to the wedding of two London city traders at a desert luxury resort that was once the site of an old Berber oasis. With the wedding party in full swing and the bride riding up the aisle on a camel, no one is aware that the global financial system stands on the brink of collapse. As the wedding guests nurse their hangovers, they learn that the British pound has depreciated tenfold, and their world begins to crumble around them. So begins *Barbarian Spring*, the debut novel from Jonas Lüscher, a major emerging voice in European fiction. The timely and unusual novel centers on a culture clash between high finance and the value system of the Maghreb. Provocative and entertaining, *Barbarian Spring* is a refreshingly original and all-too-believable satire for our times.
