The Civil History of the Kingdom of Naples Pietro Giannone,1729

Labour Law and Industrial Relations in Recessary Times Anthony Forsyth,2014-01-14 This volume includes a number of papers written in English and published in the last fifteen years in which the Italian labour market faced many changes. The book not only provides the international readership with a frame of reference - in both conceptual and legal terms - that helps to appreciate the Italian Labour Law currently in force, but also represents a contribution to moving beyond the self-referential nature of the Italian debate on the reform of labour laws. As such, the book supplies the reform process of the Italian labour market with an international and comparative dimension which - in accordance with the programmatic approach of Marco Biagi - will also feed the debate at the national level.

Competition Law of the EEC Ivo Van Bael,Jean-François Bellis,1990

The Corporation Sole Frederic William Maitland,2021-04-11 This is an invaluable work by Frederic William Maitland, an English jurist and legal historian whose contribution was bringing historical and comparative methods to bear on studying English institutions. Excerpt Persons are either natural or artificial. The only natural persons are men. The only artificial persons are corporations. Corporations are either aggregate or sole. This, I take it, would be an orthodox beginning for a chapter on the English Law of Persons, and such it would have been at any time since the days of Sir Edward Coke. It makes use, however, of one very odd term which seems to approach self-contradiction, namely, the term corporation sole, and the question may be raised, and indeed has been raised, whether our corporation sole is a person, and whether we do well in endeavouring to co-ordinate it with the corporation aggregate and the individual man.

Industrial Conflict Resolution in Market Economies:A Study of Australia, The Federal Republic of Germany, Italy, Japan and the U. S. A. T. Hanami,Roger Blanpain,1989-07-13

Postmodern Legal Movements Gary Minda,1996-05-01 A wide-ranging and comprehensive survey of modern legal scholarship and the evolution of law in America What do Catharine MacKinnon, the legacy of Brown v. Board of Education, and Lani Guinier have in common? All have, in recent years, become flashpoints for different approaches to legal reform. In

the last quarter century, the study and practice of law have been profoundly influenced by a number of powerful new movements; academics and activists alike are rethinking the interaction between law and society, focusing more on the tangible effects of law on human lives than on its procedural elements. In this wide-ranging and comprehensive volume, Gary Minda surveys the current state of legal scholarship and activism, providing an indispensable guide to the evolution of law in America.

Maitland: State, Trust and Corporation F. W. Maitland, 2003-11-13 The essays collected in *State, Trust and Corporation* contain the reflections of England's greatest legal historian on the legal, historical and philosophical origins of the idea of the state. All written in the first years of the twentieth century, Maitland's essays are classics both of historical writing and of political theory. They contain a series of profound insights into the way the character of the state has been shaped by the non-political associations that exist alongside it, and their themes are of continuing relevance today. This is the first new edition of these essays for sixty years, and the first of any kind to contain full translations, glossary and expository introduction. It has been designed to make Maitland's writings fully accessible to the non-specialist, and to make available to anyone interested in the idea of the state some of the most important modern writings in English on that subject.

Gender and Transport, 2007 The Bulletin is an annual peer-reviewed journal of the Transport and Tourism Division of the Economic and Social Commission for Asia and the Pacific (ESCAP). It provides a medium for the sharing of knowledge, experience, ideas, policy options and information on the development of transport infrastructure and services in the Asia-Pacific region. This edition is devoted to issue related to women and transport. Six articles included in the publication share views on gender issues in transport based on the outcome of research and analytical studies and experiences from a number of countries, and discuss important policy issues related to the subject.

Flexicurity and the Lisbon Agenda Frank Hendrickx, 2008 This book aims to foster the debate on flexicurity in the European Union from a multi-disciplinary approach. It raised key questions, such as: In what context does flexicurity play a role? What are the current challenges for the world of work? What is the meaning of flexicurity? How is it to be understood in European economic and social policy? What is the success of the æDanish modelÆ and is it transferable? What is the effect of the flexicurity debate on labour laws? How will European flexicurity policy develop and what can Member States do to become flexicure?

Active social policies in the EU van Berkel, Rik, Hornemann Møller, Iver, 2002-09-27 This book challenges the underlying presupposition that regular employment is the royal road to inclusion. Drawing on original empirical research, it investigates the inclusionary and exclusionary potentials of different types of work, including activation programmes. *Active social policies in the EU* makes an important contribution to the debates in this area by: reporting on original international comparative research; reflecting on and critically assessing current activating policies; evaluating the consequences of these

policies, as well as challenging the premises they are based on; including the perspectives of service users in its analyses; offering recommendations for the future design of activating policies. The book will be invaluable for students, lecturers and researchers of social and labour market policies and policy makers. It is essential reading for those interested in issues of inclusion, activation and the role of types of work in promoting inclusion.

The International Law on the Rights of the Child Geraldine Van Bueren, 2021-11 Only available in paperback version ISBN 90 411 1091 7 This volume draws upon the author's own experience to highlight the complexities behind the global violations of children's rights. Analysis and description are interwoven to provide a coherent study of the international status of children and the rights which attach to this status, both for those familiar and unfamiliar with international law. The author demonstrates the potential of international law in protecting the rights of children, even in states which are restructuring their economies. To be effective, international law cannot be used in isolation and the text seeks to place the rights of the child in their cultural and historical contexts. All royalties from *The International Law on the Rights of the Child* are being donated to the International Save the Children Alliance to assist them in their work with children. 'Ms van Bueren combines skilfully an enormous amount of factual material with careful legal analysis and comment. [...] this book will rapidly become indispensable to children's rights lawyers...' C.M. Chinkin, University of Southampton 'Among numerous publications dealing with the subject of promotion and protection of the rights of the child issued up to date, G. Van Bueren's *The International Law on the Rights of the Child* is the most serious monograph in the field of international law.'

Precarious Work Jeff Kenner, Izabela Florczak, Marta Otto, 2019 This discerning book provides a wide-ranging comparative analysis of the legal and social policy challenges posed by the spread of different forms of precarious work in Europe, with various social models in force and a growing 'gig economy' workforce. It not only considers the theoretical foundations of the concept of precarious work, but also offers invaluable insight into the potential methods of addressing this phenomenon through labour regulation and case law at EU and national level.

International Economics Paul R. Krugman, Maurice Obstfeld, 1991 -- Study guide. -- Instructor's manual.

The Oxford Handbook of White-collar Crime Shanna Van Slyke, Michael L. Benson, Francis T. Cullen, 2016 The Oxford Handbook of White-Collar Crime offers a comprehensive treatment of the most up-to-date theories and research regarding white-collar crime. Contributors tackle a vast range of topics, including the impact of white-collar crime, the contexts in which white-collar crime occurs, current crime policies and debates, and examinations of the criminals themselves. The volume concludes with a set of essays that discuss potential responses for controlling white-collar crime, as well as promising new avenues for future research.

Intelligent Business Coursebook Irene Barrall, Nikolas Barrall, 2008 *Intelligent Business* uses informative and up-to-date authentic material from the Economist. It is fully benchmarked alongside the Cambridge BEC exam suite and Common

European Framework.

EuroZone Job Crisis Vincenzo Spiezia, 2012 Argues that employment remains depressed in the majority of Eurozone countries and that a further 4.5 million jobs may be lost. Suggests that addressing the jobs crisis in the Eurozone requires, first, repairing the financial system urgently.

The European Social Model and Transitional Labour Markets Ralf Rogowski, 2008 Bringing together theoretical, empirical and comparative perspectives on the European Social Model (ESM) and transitional labour market policy, this volume presents country studies of labour market reforms in Europe and discusses implications for social and employment policies as well as mobility and security patterns in Europe and beyond.

Capacitas Simon Deakin, Alain Supiot, 2009-08-03 One of the principal tasks for legal research at the beginning of the 21st century is to reconstruct the understanding of the relationship between the legal system and the market order. After almost three decades of deregulation driven by a belief in the self-equilibrating properties of the market, the financial crisis of 2008 has reminded everyone of the fundamental truth that markets have legal and institutional foundations, without which they cannot effectively function. The chapters in the present volume are the result of work by a group of legal scholars which began in the mid-2000s, at a time when the shortcomings of deregulatory policies were becoming clear in a number of contexts. The chapters address the question of how the language of contract law describes or conceptualises the market order and the relationship of the law to it. The perspectives taken are, in turn, historical, comparative, and context-specific. The focus of the book is on a foundational idea, the concept of *capacitas*, which signifies a status conferred upon citizens for the purpose of enabling them to participate in the economic life of the polity. In modern legal systems, 'capacity' is the principal juridical mechanism by which individuals and entities are empowered to enter into legally binding agreements and, more generally, to arrange their affairs using the instruments of private law. Legal capacity is thereby the gateway to involvement in the operations of a market economy.

Myth and Metropolis Graeme Gilloch, 2013-04-30 This is a lucid study of Walter Benjamin's lifelong fascination with the city and forms of metropolitan experience, highlighting the relevance of Benjamin's work to our contemporary understanding of modernity.
